Great Preparations For Tyler County Fair, Are Being Made for October 2-3-4-5

Follows is a list of hoped for exhibitors... The Tyler County Fair, to be held on October 2-3-4-5, is being prepared for with great anticipation. The fair will feature a wide variety of exhibits, including agricultural products, livestock, and handicrafts. The fair will be held at the Tyler County Fairgrounds, and is expected to attract a large number of visitors from throughout the county and surrounding areas.

Accessory Opened Wednesday

The new accessory building at the Tyler County Fairgrounds was opened on Wednesday. The building will be used for the storage and display of fair accessories, including signs, banners, and other promotional materials. The building is a modern structure with a large open interior space, and is expected to be a valuable addition to the fairgrounds.

City School To Good Start

The Woodville City School has had a very good start to the new school year. The school is well-attended, and the students are showing a strong interest in their studies. Be Kind To Germany? Why? Ask Hoover, He Knows

Hoover, Hoover has returned from a tour of the world with the conviction that we are the only nation in the world that is not a part of the world. He has seen the world, and he has seen the world. He has seen the world, and he has seen the world.

EDUCATION FOR YOU

WITH YOUR TUITION PAID

Hoover, Hoover has returned from a tour of the world with the conviction that we are the only nation in the world that is not a part of the world. He has seen the world, and he has seen the world. He has seen the world, and he has seen the world.

1844 1835

HERE we are dying like men, but we beat the record.

— Gen. W. C. Cress

BEWARE OF Octopus Outlets

- a sign of INADEQUATE WIRING

Look around your home right now. Do you have any of these "octopus" outlets? If you have, it's a sign that your home wiring is out of date and too small for its job.

Don't blame your appliances if they fail to give you the service you expect. When too many appliances and lamps are plugged into a single outlet, lights flicker, heating appliances come up to temperature slowly and fuses blow.

How slow, because the average home hold wiring circuit simply can't carry enough electricity for all.

Eliminate the "octopus outlet" bottleneck from your home by installing adequate wiring now. Put in additional circuits - larger wires - and more outlets - so that you'll always have full-strength current and plenty of plug-in space for all of your lights and appliances.

What adequate wiring means

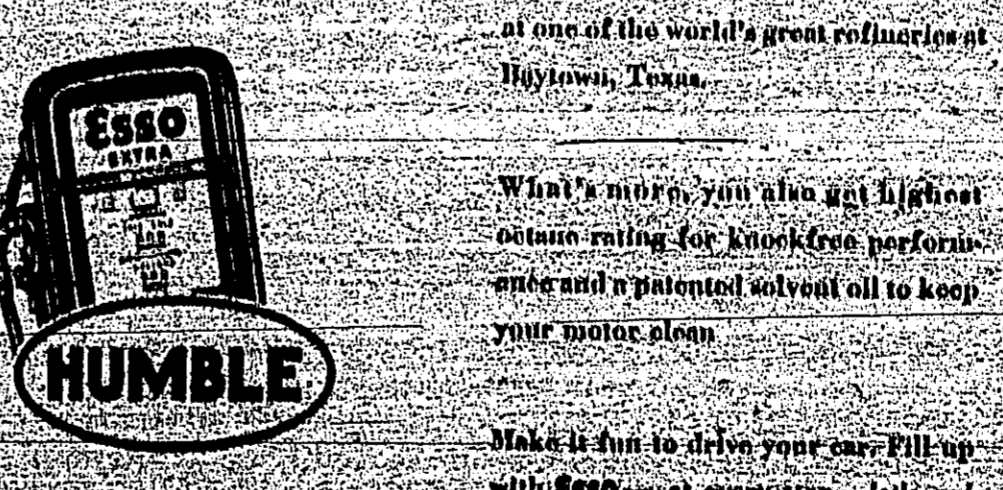

Adequate wiring means having enough outlets, wires and switches to handle all the electrical loads in your home. It means having a safe and reliable electrical system that will last for many years.
