What-NO PRESSURE?

The same thing can happen to your electric service with INADEQUATE home wiring

You know what sometimes happens on hot summer days when everyone in town is watering the lawn. The water pressure drops and you get a mere trickle from the faucet.

operate sluggishly, taking more time to do their job and wasting electricity. The remedy for this condition is adequate wiring. Install larger wire, more wiring circuits and additional outlets. Then no one circuit will become overworked and you'll always be satisfied.

If you plan to build, buy or modernize, insist on ADEQUATE WIRING

COMMUNITY PUBLIC SERVICE COMPANY

A REPORT on telephone progress in Texas

In the past few years you have seen a rapid growth in telephone service in Texas. In 1939 there were 3,400,000 telephone calls in Texas. Now there are 7 1/2 million calls a day in Texas—nearly 14 million calls a year.

Demand Up
On the other hand, there are more than 25,000 people applying for telephone service in Texas every month. This means that the demand for telephone service is growing rapidly.

even when they are not in use. The new equipment to work as fast as we get it and putting in new buildings to house it when necessary.

People Are Telephoning More
This year, just now, year has also brought an extraordinary increase in telephone use. Local calls are now 7 1/2 million a day in Texas—nearly 14 million calls a year. That's a big increase.

It will take a great deal of money and some time to do all the things we have planned for your telephone service, but our \$40-million-dollar 8-year expansion program for the Southwest is well under way.

Don't let the situation today worry you. We'll get it done, three shifts a day. And—despite scarcities—

It will add up to our desire to serve well everyone who uses the telephone. And to do it always with courtesy and understanding.

To those who eagerly await their new Chevrolets... Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you.

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1944 was only 22.4% of the number turned out during the corresponding period of 1943.

We know that Chevrolet is doing everything possible to speed up its production totals. To help you and more cars to get out to the thousands of other dealers throughout America, we know, too, that we are anxious of getting our full production share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that Chevrolet led all other manufacturers in production of passenger cars during June 1944, and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them, we regret delays as deeply as you do, we thank you for your friendly patience and understanding, and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST.

Keep Your Present Car Alive
Meanwhile, may we suggest that you safeguard your investment by bringing your car here for service now and at regular intervals. Let us help you to keep it in good running condition so you can take the performance, appearance and resale value worth the day when your new Chevrolet comes along.

SET YOUR SIGHTS
 It takes planning to achieve a goal.
 Some young men know what they want and plan for it. Others are still looking for their path. The new Regular Army enlistment offers you a three-year enlistment with no obligation for 18 months after college. The Government will pay your tuition, laboratory fees, etc., up to \$300 per semester, plus \$20 a month living allowance. \$20 a month for dependents.
 If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You have the service eligible for further training in the best civilian schools.
 You can receive your full benefit of the GI Bill of Rights if you enter the Army on or before October 3, 1946. See your nearest Army Recruiting Station for details.
HIGHLIGHTS OF REGULAR ARMY ENLISTMENT
 1. Enlistment for 3, 2 or 1 year (upper enlistment period). In 3 years you can be discharged from the Army with no obligation for 18 months after college.
 2. Maintenance pay from \$16 to \$24 (with dependent allowance) except for men now in the Army.
 3. A gratuity (bonus) of \$20 for each year of active service plus \$100 for each year of active service plus \$100 for each year of active service plus \$100 for each year of active service.

NEW, HIGHER PAY FOR ARMY MEN
 Monthly Pay for 30 Years - \$110.00
 Monthly Pay for 20 Years - \$100.00
 Monthly Pay for 10 Years - \$90.00
 Monthly Pay for 5 Years - \$80.00
 Monthly Pay for 3 Years - \$70.00
 Monthly Pay for 1 Year - \$60.00
