FIRST -- TO REDUCE PRICES ON PASSENGER CARS

# Ford

NOW IN EFFECT AS MUCH AS \$50 ON SOME MODELS

A Statement by Henry Ford, II. Although more than one million of our customers are waiting for delivery of their cars at present, we are immediately reducing the price of every Ford car, some models as much as \$50. This is our new payment toward a continued high level of production and employment in the months ahead. We believe that the prompt action is needed to build the morale of mounting civilian and rising prices and to restore a sound basis for the important period of postwar production we are now entering.

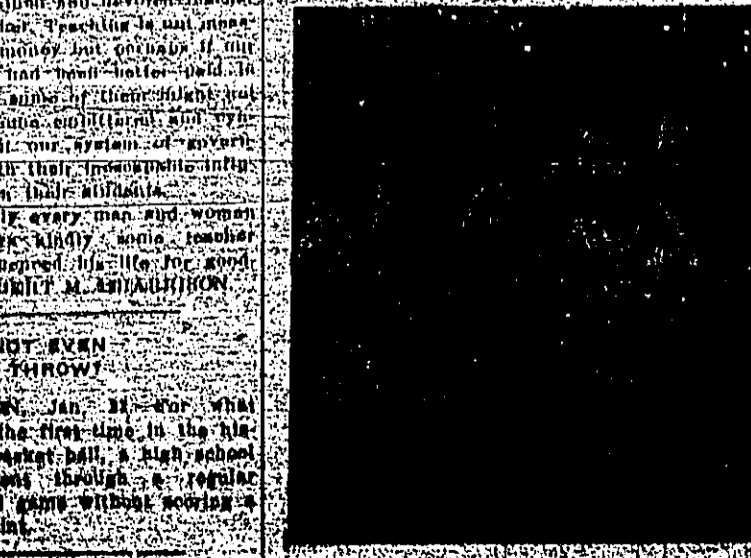

Baker Motor Company is 100% in favor of Ford Motor Company's action, and is glad to be a part of this great organization.

## NEWS BEHIND THE NEWS

### LOW MARKET OF TEACHERS

WASHINGTON, Feb. 23 (AP)—The average teacher's salary in the elementary and high schools is down 10 percent from the 1939-40 school year, according to a survey by the National Education Association. The survey shows that the average salary for elementary school teachers is \$2,100 a year, and for high school teachers it is \$2,800. This is a significant decrease from the 1939-40 levels, when the average elementary school teacher's salary was \$2,300 and the high school teacher's was \$3,100.

## The Home Town Reporter

### Tax on Farm Products Will Prove Injurious

WASHINGTON, Feb. 23 (AP)—The Department of Agriculture today announced that it expects the tax on farm products to be injurious to the industry. The tax is expected to be in the range of 10 to 15 percent, and is expected to be levied on a wide range of farm products, including wheat, corn, and cotton. The department expects that the tax will result in a significant increase in the price of farm products, which will be passed on to the consumer. This will result in a decrease in the demand for farm products, which will in turn result in a decrease in the income of farmers.
