Cancer Crusade Lags In County

The Cancer Crusade in Tyler County is lagging with only about a week left to make the county's quota of \$1500, according to Dick Davis, county chairman.

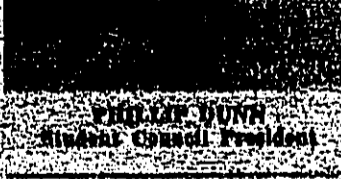

Only about a fourth of the quota has been raised so far, Mr. Davis said.

The Cancer Crusade is conducted each April by the American Cancer Society. The largest portion of the funds raised goes into research in an attempt to find a vaccine for cancer or a drug which will kill the cancer cells before they spread.

A large number of cancer deaths in the county could be prevented if the disease could be diagnosed early, Mr. Davis pointed out, and for this reason a part of the cancer funds is used to educate the public in the early warning signals that might mean cancer.

Stock Market

PRIMER, Nov. 1, 1934

Deciding upon an investment objective whether it be growth in the value of your holdings, investment for a specific period of time, or a combination of the two, is only the first step in the planning of an investment program. Your next decision should be to spread your investment over a large number of holdings or to concentrate them in a few companies which you know well and in which you place great confidence.

When an owner or operator of a business is faced with the decision of whether to invest in a business or in a stock market, the decision is often a difficult one. The decision is often a difficult one. The decision is often a difficult one.
