Governor Proclaims Heart Week

Gov. Price has proclaimed the month of February as Heart Week. The proclamation was signed on February 18, 1958.

The purpose of Heart Week is to bring attention to the fact that heart disease is the leading cause of death in this country. It is estimated that one out of every four people in this country die from heart disease.

The Governor's Heart Week program includes a series of public relations campaigns, including the distribution of heart disease information cards, the holding of heart disease seminars, and the holding of heart disease exhibitions.

The Governor's Heart Week program is a part of the National Heart Week program. The National Heart Week program is a part of the American Heart Association's heart disease awareness campaign.

DON'T SEND THEM AWAY

... let 'em work for us
a while longer

It doesn't take a great MANY dollars to keep the wheels turning in a community like ours... but it does take dollars that are CIRCULATING in the local trade channels.

A GONE DOLLAR... gone to some other trade area... does not merely cost us \$1 of lost trade volume... Instead, we lose the UNTOLD value of that

dollar's continued activity in our midst.

FOR every time a dollar turns over again in this community, it gives us another lift toward better job and business opportunities for all of us... better school, church, and other civic facilities... and more fine people as friends and neighbors and co-workers.

WE can get far more from every one of our dollars... In material and social benefits... if we keep them at home where they can work for us... Instead of sending them away to start working for somebody else.

If we'll let them stick around longer, we can get a lot more work out of our dollars.

WOODVILLE FIRMS ARE THE ONLY BUSINESS ESTABLISHMENTS IN THE WORLD WHO ARE GENUINELY INTERESTED IN THE FUTURE OF THIS COMMUNITY WHERE YOU MAKE YOUR LIVING.

X-Ray Discovery Boon to Medicine

When a patient is injured, the doctor usually orders an X-ray. This is because X-rays can show the internal structure of the body. They can show if a bone is broken, if a joint is dislocated, or if there is any other damage. X-rays are also used to check for cancer, to see how well a treatment is working, and to help in the diagnosis of many other diseases. The discovery of X-rays was a major breakthrough in medicine, and it has led to many other important discoveries in the field of physics and chemistry.

PRODUCTION OF HATCHING EGGS Offers Golden Opportunity for This Area 100,000 BREEDERS NEEDED THIS SPRING

DeWitt Hatchery Offers Complete, Profitable Program

- Service Program
- Year Around Steady Market
- A Check Every Week
- Help On Financing
- Good Sound Advice

You Can Have This Hatching Egg Factory With 1,500 Workers Producing Eggs In Your Own Back Yard

This Is The House We Recommend

Here's a picture of a new laying house on one of DeWitt's own breeder farms. It's easy to build, it's economical to build — and above all, it "works". We have many poultry houses of this type in Texas, Louisiana and Mississippi. Growers are getting good results and making money with this house.
