Pontiac's new Tempest 420E V-8 sets the year's most important economy mark—Here's the story and what it means to you!

We asked one of America's most respected carmen—Linc Tope, Cadillac's chief engineer—to put a standard Pontiac Cadillac Sedan with our new economy V-8 in the car.

And with only one specification that the car would be exactly like your own, Linc Tope said: "I'd rather take a Pontiac with the new economy V-8 than any other car on the road."

What does it mean to you? Simply that you'll get the most out of your car. You'll save money on gas. You'll save time on the road. You'll save wear and tear on your car. You'll save the cost of repairs. You'll save the cost of insurance. You'll save the cost of depreciation. You'll save the cost of everything.
