Mrs. H. C. Johnson of Houston, who has been a member of the Tyler County Boosters since its inception, is the current president of the organization. Mrs. Johnson is a well-known community leader and has been active in many of the Boosters' activities. She is also a member of the Tyler County Chamber of Commerce and the Tyler County Historical Society.

Interest in local politics here is lagging. Many residents are not aware of the upcoming primary elections. The Tyler County Clerk's office is currently receiving a low volume of ballot requests. This is a concern for the Boosters, as they want to ensure a high turnout for the election.

3 good reasons why

ELECTRICITY is your better way to cook

1. **SAVES TIME** - Electricity cooks in less than 1/2 hour. The heating coils on electric stoves heat the food directly, so there is no need for a separate heating element.

2. **SAVES MONEY** - Electricity costs less than 1/2 cent per kilowatt-hour. This means that you can save a great deal of money by cooking with electricity.

3. **SAVES SPACE** - Electric stoves are compact and efficient. They take up less space than gas stoves and they are easier to clean.
