WOODVILLE, TEXAS 75979, THURSDAY, APRIL 9, 1964

### Kirby High Second In **One-Act Play Contest**

The District 22-AA Interscholastic League One-Act Play Contest was held in the Kirby High School auditorium on Friday, April'8, at 7:30 p.m. Schools participating in the contest were Madisonville with the play "The Chairs"; Crockett, which presented the play "Patterns": and Woodville with the play "Afterwards".

Madisonville received the first place trophy, Woodville the second, and Crockett the third

The judge of the contest was Dr. Budge Threlkeld from the speech and drama department of Lamar College in Beaumont. Nancy Robinson of Woodville received the best actress award and alternate best actress went to Donna Suther of Madisonville.

The best actor award went to John Taylor of Madisonville, Joe Smith of Woodville received the alternate best actor award.

Nancy is a senior student at Kirby High school. She is the daughter of Mr. and Mrs. Frank

ceived are first place in poetry interpretation in 1963, and best actress in the one-act play in 1963. She was a member of the junior class play cast and is a member of the National Honor Society. She is also the editor of the school paper, The Eagle. Prior to moving to Woodville

Nancy was voted Sophomore Favorite, cheerleader, vice president of the Creative Writing Club, FHA reporter and was a member of the Student Coun-

Joe, a senior at Kirby High School, is the son of Mr. and Mrs. Clyde Earl Smith, Jr. He was elected FHA beau in 1963, and Sophomore Favorite, He has been a member of the Student Council and was a member of the junior play cast. Joe was an All - District football player in 1962-1963 and is now active in track and baseball. Besides Nancy and Joe, other members of the one-act play cast are Linda Pate, Pat Owens, Johnny Bostick and Bobby Best. Judy Sturrock was alternate. Director of the play is Miss

#### Trimble Makes Statement

Grady Trimble, Jasper attorney, is seeking the nomination for State Representative, District 7, in the Democratic Primary May 2. This office was left open when the incumbent, Rep. Sam Forse Collins of Newton, announced he would not run for re-election.

Mr. Trimble is the only law yer among the seven persons running from Jasper, Newton Tyler and Sabine Counties. He considers this an important point, as members of the Legislature have to study a great many proposed laws and occasionally write bills of their own, Legal training puts a legislator in position to do a bet-

Pianist, Sherry Tolar

The chapter's 95 members have been quite active this year. Each month an activity has been Blanned and carried out. In March, 26 members attended the Area Nine Meeting of the FHA in Nacogdoches. The first year homemaking students style show, "Around the World With Fashions," presented the latest combinations of colors and fabrics for the summer season. The script was interesting and the girls were taught the techniques of walking and modeling gracefully.

One of the National Projects for the year is entitled "Strengthening My Education for Future Rules". Under this you think of the increasing problems of dropouts. The Future Homemakershave joined many other organizations in helping teenagers to solve their problems so that they might go on and finish school. The Home Economics grogram is geared to help teenage girls become useful, intell-

igent young ladies. "Growth is the key word in a teenagers life, "It is also the by-word of FHA. Growth as an individual, growth as a member of our homes, growth as a member is the aim of every girl in the organization. The purposes of our organization states clearly the ideals by which we try to

1. To promote a growing appreciation of the joys and sat-

isfactions of homemaking. 2. To emphasize the importance of worthy home member-

3. To encourage democracy in nome and community life. 4. To work for good home and family life for all. 5. To promote international

good will. 6. To provide wholesome individual and group recreation.

7. To Foster the development of creative leadership in home and community life, 8. To futher interest in home

Cast members shown are Linda Pate (lying on floor), Johnny Bostick, Nancy Robinson, Bobby Best and Joe Smith, Not picture ed are Judy Sturrock and Pat | at left).

To the People of Precinct 1

and Tyler County: May I take this method to speak to you in behalf of my candidacy for the office of Commissioner of Precinct 1. 1 am 58 years old and have lived in this county and precinct all my life. Since filing with the Democratic chairman on December 6, 1963, I have

seen as many people as time has permitted. Though I am currently working six days per week, I will make every effort to see the majority of the people before the primary on May 2. This is the first time that I have sought a public office, I fully realize the importance of this office, and it is my se-

rious conviction that this, as any public office, is a public trust; and if elected, I intend to manage the job in a manner consistent with this conviction.

In the past years I have had experiences in fields of work related to the job of county commissioner. For several years I was employed by the (Continued on page 4)

BAND WINS SUPERIOR RATING AT LAMAR

The Kirby High School Band ventured to Beaumont on Friday April 3, to compete in the annual Region XIV U. I. L. Concert and Sightreading Contest at Lamar Tech.

The Band prepared Manhattan Beach March, Second American Folk Rhapsody, and Slavonic Folk Suite for their Concert nu-

The Band rated I division or supior in this event by a unanim ous vote from all three judges. The judges for this event were Floyd Weger of Paris High School, Ralph Rowe of Conroe High School, and Weldon Conving ton of Austin Independent School District,

The Sight Reading Contest consists of the band playing a number unfamiliar to them. In this contest the band made a IL. This is equivalent to excellent, Judges for this event were John Bennett of Crosby, Hal Spencer of Marlin and L. M. Snavely of McAllen.

In AA Class there were only four I ratings in concert and five ratings II or above in sight read-

The bandhas shown considerable improvement over the last year. With the improvements made the band is shooting next year for "Sweepstakes, "

ROTARY CLUB WILL MEET AT 6:30 THURSDAY NIGHT

The Woodville Rotary Club will meet tonight (Thursday) at 6:30 o'clock beacuse of the revival now going on at Methodist Church of Woodville.

The club meets in the annex of the First Christian Church. It regularly meets at 7 p. m. Program tonight will be the observance of the 50th anni-

versary of Texas Forestry Association with a film program presented by Charles Aylin of International Paper Co. SERVICE CLUB PROGRAMS

OBSERVE TEXAS FORESTRY'S HALF CENTURY OF SERVICE

Celebrating "50 years of con tinuous service to Texas and Texans was the theme of a program presented by James E. Huston, International Paper Co. forester, at the noon meeting of the Woodville Lions Club on Thursday of last week.

The talk was in observance of the Golden Anniversary of the Texas Forestry Association and was illustrated with color slides showing many aspects of the work of the association.

Organized in 1914 by the late W. Goodrich Jones of Temple, TFA is a non-governmental, non-profit, statewide, privately supported, educational organi-

(Continued on page 5)

The May 2 Democratic primary election is less than one month away, but the voters of Tyler County have not taken a great deal of interest in it so Political observers say that

this is one of the quietest political campaigns they have seen in the county, and reports from over the state indicates a general voter apathy in most of the 254 counties. In Tyler County, six offices

have contests. They are sheriff, tax assessor-collector, commissioners in precincts one and three, and constable in precinct two and three

In addition, there are contests in the district attorney's race, and in District 7 State Representative race.

In county offices, the sheriff's race has two candidates-Grady Ray, the incumbent, and W. C. (Dub) Crews, Jr. of Colmesneil. Another county-wide office in which there is opposition to the incumbent is tax assessorcollector. In this race are A. L. PTA, and members of Mr. Law- (Pete) Thornton, the incumbent, V. D. (Ted) Tidwell and Herbert Dean.

> For commissioner in precinct one are Howard Riley, the incumbent, who is being opposed by Carl Shepherd and Joe Best, The only race with any heat so far is in precinct three commissioners race where four candidates are vieing for this position.

> The incumbent, H. A. Crews, is opposed by C. Edd Cruse, Ray M. Bendy and Leon Fowler.

> Other races for which there are more than one candidate are for precinct two constable with Cecil Barnes opposed by jeff Lamb, and in precinct three where Constable Ralph Marshall is being opposed by Harley

#### Claude Graves Asks Support

To the Voters of Jasper, Newton, Sabine and Tyler Counties: My name is Claude Graves, I am a candidate for representative, District 7. For those of you who do not know me, I have lived 37 of my 43 years in Jasper, I graduated from Jasper public schools, attended Lamar College in Beaumont one year, the University of Texas three years and graduated with a de-

gree in Business Administra-

While attending the Unibersity of Texas, Rep. N. O. Burnaman of Newton obtained a part time job for me as Assistant-Sargeant-of-Arms in the State Senate. This was one of the most vital experiences of my younger years. I developed a loyalty to the ideals of state government, I saw the problems our legislators face and the tremendous task it was to promote sound legislation,

After serving three years in the Navy, I bought the East Jas-

MEAT COOKERY DEMONSTRATION APRIL 14

Homemakers in the Tyler County area will have the opportunity to learn the latest know-how in meat cookery by attending a demonstration in the Kirby High School Auditorium on Tuesday, April 14 at 1:30. Conducted by Harriet Carr of the National Live Stock and Meat Board, Chicago, the meat cookery demonstration is designed to teach meal planners the most up-to-date techniques in the care, storage, preparation and serving of meat, the main menu ingredients.

This demonstration is being sponsored by Tyler County Home Demonstration Council and Woodville F. H. A. Chapter. Anyone interested in foods is invited to attend.

CUBA DIVING TO BE TOPIC T LIBRARY GROUP MEETING Jay Crews, a sophomore stu-

dent at Woodville's Kirby High School, will speak at the April meeting of the Friends of the Library Tuesday at the Allan Shivers Library. The meeting begins at 7:30 p. m.

Jay will discuss his scuba diving experiences and will demonstrate the equipment needed for the purpose and how it is used in exploring underwater.

Scuba (self-contained underwater bathing apparatus) diving is becoming a popular sport as well as a means of exploration of the underwater world, its creatures and its plants.

REVIVAL STARTS SUNDAY

A revival will begin Sunday at the Rockland Baptist Church and will run through April 19. Services will be held each night at 7:30 o'clock.

Speaker will be the Rev. Leroy Edge of the First Baptist Church in Warren. Pianist will be Mrs. Betty Youngblood of Hunting-

#### CLUADE GRAVES-

#### (Continued from page one) To the Editor: per Mercantile Store which I operated seven years. In 1958, I sold my store and entered the

life insurance field. This has been my c pation now for ten years. My hopes in this race are basic and simple. I believe in

quality schools. As a father of a 14 year old son and a 16 year old daughter, I want them to receive their education in the best school facilities and to be taught by qualified teachers who receive adequate salaries. I believe all teachers in our state should receive a paid sick

Our farm-to-market road system is good and should be continued until all people are able to drive to their homes over paved roads.

I favor a system of state parks where all of you people can go and relax with your families. This progarm has been started by Senator Martin Dies, Jr. He will need help to finish it. I favor its earliest completion. Last November, a year ago, the people of the State of Tex-

as voted by a large majority to authorize the legislature to raise the amount spent for old age pensions and child welfare from 47 million to 60 million dollars each bienium, I pledge to vote to appropriate this money so that everyone who is entitled to a raise in pension checks will receive additional

A growing menace to whole East Texas, and especially in this district, is the problem of fire - ant eradication, I will work with the State Commissioner of agriculture and the local agriculture officials to try to find a feasible, economical and safe way to eliminate these pests. It is a problem to promote the health and safety of our people, therefore it is a

vital step toward progress. As I travel around the district, I find a new atmosphere. People are looking to the future with new hope. We are finishing the Sam Rayburn Dam. The Toledo Bend Dam is just geting started. We will have an abundance of water, an abundance of electricity among the thousands of acres of fine timber in our district. If anything will attract industry to our district, surely these fine dams

The people of this area are excited, and I am excited, too. We look forward to a new era, a new time for us, a period of great opportunity and prosperity. However, this will not just happen. We have to work to make any dream a reality. We must reach out and grasp the horns of opportunity, and I want

The man you elect for your representative will be one of one hundred and lifty members. Each member there will be competing to pass legislation to benefit his district. He will try to sell his ideas just as I will try to sell your ideas if you elect me. The life insurance field has the strongest training program in the world for sa lesmen. As a life insurance salesman, I have received the finest training available in the art of selling and persuasion. I am a graduate of the Institute of Insurance Marketing at S. M. U. The man you elect to represent this district must be a man who can sell your hopes to 149 other members of the 21 legislature. I believe I can sell your hopes. If you believe, as I do, that I am that man, I will appreciate your vote for Claude Graves for your representative of District 7. Thank you.

LIVING MEMORIALS

When cancertakes the life of someone close to us, a relative or a friend, the loss is painful. In the sorrow that follows such a loss, there is the wish to honor the departed. There is also the deep need to strike back at this disease-to do something that others might be spared.

During such a time, many find solace in dedicating a memorial gift to the American Cancer Society. This contribution provides a

way to perpetuate the memory of a life that has been lost. It offers a way to prevent the further suffering of others. Living memorials may be sent

to Rex Kennerly, Box 845, Woodville, Texas.

#### SERVICE CLUB--(Continued from page 1) zation promoting the wise use of forests and related resources believes. of Texas,

A similar program will be presented before the Rotary Club tonight by Charles Aylin of Silabee, also with International Paper Company.

Mr. Huston traced the development of forestry and forest industries in Texas during the pasmaif century. He said a true miracle has occurred in East was born in Arkansas. "I con-Texas: No longer is a timber famine predicted, In fact, Texas is growing timber 30 per cent faster than it is being cut

This abundance of timber is a blessing, Huston said, It was emphasized that Texas must have an abundance of timber before considering the expansion of existing industry or attracting new industry.

He pointed out that TFA has advised all major wood-using industries of the nation regarding the abundance of timber in East Texas and urged the establishment of new plants in Texas.

Huston also pointed out that Texas Forestry Association pi oneered forestry in Texas. The leadership of TFA in the reforestation movement by combining the efforts of the general public, forest industry and the legislature was recognized as early as 1925 in a front page cartoon in the Dallas News. He displayed a reproduction of the 39-year-old cartoon.

Huston emphasized the economic importance of forest industries to the state:

"Tree farms mean jobs. Tim ber based activities in Texas supply employment for 137.750 Texans in the woods and in the mills. The annual value of shipments from primary timber manufacturers in Texas i \$211,700,000 in addition to \$114,800,000 from secondary manufacturers.

"Each pulpwood truck represents an average of \$25,000 annual business in the community in which it operates."

Some of the many educational projects conducted by the Texas Forestry Association concluded his talk by saying. "This is our Golden Anniversary, but past accomplishments notwithstanding, we feel our golden years lie ahead."

#### SPURGER 4-H Clubs

(Continued from page 4). Mrs. Maurine Mooney, Tyler onstrations and the following demonstrations were given: Donna Scott, Favorite Food; Pizza; Laurann Jordan, Favorite Food: Cranberry Salad; Sharon Hatton and Charlene Hicks, Community Improvement; Donna Scott, Nutrition Education; and Laurann Jordan, Public Speak-

Announcement was made that the same girls and Jan Scott would demonstrate before the Spurger Lion's Club Monday night. The subject of Jan's demonstration will be Junior Clothing Education.

Laurann carried the members of the Home Demonstration Club and Mrs. Mooney on a tour of her Bedroom Improvement project.

#### LIVESTOCK NEWS

\$125 per head. Bulls sold for 15 to 17, 60

cents per pound, Cows sold for 9 to 14 cents per pound.

Stocker Calves sold for 20 29 cents per pound,

Fat calves sold for 19 to 23 cents per pound,

cents per pound.

Continued from page one) ter job for his district, Trimble

The Trimbles-Grady, his wife Joann, and their two children. son Carlton, 11, and daughter Robin, 6, are active in civic and church affairs in Jasper. He is on the Board of Deacons of the First Presbyterian Church and

teaches a Sunday School class. Mr. Trimble says he makes no apologies for the fact that he sider myself as good a Texan as any native-born son," he smiles, "and maybe better, because I actually chose to be a Texan."

His parents moved to Port Neches, in Jefferson County. where Grady's father still works in a refinery and where Grady went to high school. After graduating in 1947 he entered the U.S. Army with an idea of making a lifetime career of military service. He became a paratrooper and was in the Far Eastern theater during the Korean conflict, although he and his airborne comrades were not called upon for combat duty. He served most of the time at General Douglas MacArthur's Headquarters in Tokyo.

After he returned to Fort Benning, Ga, on assignment to help train Airborne Rangers, a training accident in which he lost his left hand abruptly ended his military career. He was retired in 1952 as a sergeant.

Mr. Trimble moved almost immediately into preparation for another vocation, as a lawyer. He entered Baylor University, where he received a business administration degree in 1955 and his law degree in 1957. He quickly passed the State Bar examination and used his new law license to go into active practice at Liberty. He also practiced in Port Lavaca for a time before choosing Jasper as his permanent location. Mr. Trimble is a lifelong Democrat who believes in local self-government and majority rule. On general legislation he he will follow a policy of judging each issue on merit, with a prident eye on big spending proposals that would unbalance the budget and bring on additional taxes. At the same time he recognizes that our rapidly growing population places increased demands upon the state.

lic education. He feels that the Legislature should not become so absorbed in educational matters, howev-County Extension Agent ex er, as to neglect the State's obplained the purpose of the dem- ligations to its senior citizens. He will favor making permanent the present temporary Committee on Aged. Adequate appropriations for public welfare will be one of his main con-

particularly in the field of pub-

ce rns. He will also be concerned with the legitimate aims and goals of the rural electric cooperatives, which have been the means of bringing light and power to the District 7 area. As for congressional redistricting, which has been much in the news of late, he finds that our present district (no. 2, Congressman Jack Brooks) comes very close to having the proper population for a district. It is one of the few in the State that that would meet the Supreme Court's constitutional test, and for that reason he will work to maintain Congressional District

2 without change. Mr. Trimble's main concern at Austin will be the specific affairs of his legislative district. One of his concerns will be to provide maximum support at the state level for the Rayburn and Toledo Bend dams and reservoirs. He is interested in an adequate system of roads and sufficient recreation areas for the convenience of both local people and the thousands of tourists that will visit these attractions. He favors locating the Toledo Bend crossing at the

Sabinetown site. He thinks the cause both of higher education and of indus-Top hogs sold for 12 to 13.60 trial development would be aided by a system of state-

supported junior colleges emphasizing vocational training. Texas needs great numbers of technicians and mechanics to support the efforts of scientists and engineers in modern plants. These can be trained cheaper and more effectively at community colleges than at a large, diversified university that stresses graduate work.

He will stay in touch with the Texas Industrial Commission and the Tourist Development Agency to see that no opport unity is lost for bringing industry and tourist facilities to his district.

Mr. Trimble says he will con sider himself just as much the representative of Newton, Tyler and Sabine Counties as of his home county of Jasper. His office will always be open to his constituents, both at home and in Austin, He will not neglect his duties at the capitol, but he will spend as much time as possible at home in order to keep up with what the people of his district are thinking and what their need are.

He will sincerely appreciate the support of all voters in District 7 who agree that he is best qualified to represent them in he Legislature.

HOME DEMONSTRATION COUNCIL MET FRIDAY

Tyler County Home Demon stration Council met Friday at 1:30 p.m. in the office of the agent, Mrs. Maurine Mooney with four clubs represented.

The club secretary, Mrs. Lessie Kibby, called the meeting to order in the absence of both the council chairman and vice chairman, Mrs. Ola Rumery acted as chairman.

The club prayer was repeat ed in unison. Mrs. Vera Wilson was asked to bring the devotional at the next meeting. Six attended the district meeting in Crockett. They were Mrs. Dale Scott, Mrs. Vera Wilson, Mrs. Ezra Kelley, Mrs. W. R. Gordon, Mrs. Mary Collier and the agent, Mrs. Mooney.

The council voted to send \$2 to help pay expenses for Mrs R. C. Wood, editor of the Messenger, to the National THDA meeting in Hawaii.

There will be two Spurger and two Colmesneil girls to enter 4-H Better Foods program Saturday in Lufkin, Eighteen 4-H boys and girls will go to the District meeting on the S. F. A. campus in Nacogdoches on April 18.

A demonstration on Portraits in Foods will be given Tuesday at 1:30 p. m. in the new Kirby High School auditorium.

It was voted to send in a 25¢ contribution per member to the state treasurer. We have 64 members in Tyler County. This goes to buy 4-H scholarships. On April 11 from 2 to 4 p. m. Dr. Hill will be at the Allan Shivers Library to give "Afternoon with the Authors," and to give Home Demonstration history. Each club will be responsible for at least one hostess. Home Demonstration Camp will beheld July 22-24. Project will be candle holders, hooked rug, purse and a home-made game, Cost to each person will

be about \$7.50. Mrs. Mooney asked club delegates to be sure and attend the next council meeting, she plans to give information on how to bring back council reports to

> Mrs. Charlie Kibby. Reporter

#### COSTAL BERMUDA GRASS HAS GOOD START THIS YEAR

Gerald P. Maynard

COASTAL BERMUDA GRASS is really being stuck in the ground these days and in most cases Mother Nature has been cooperating very well by providing adequate moisture sup ply. These few thoughts are presented to those interested in making a success of their Coastal Bermuda planting and i

there are some 40-add farms in this soil conservation district or Tyler County being

planted this year. As Gene Boykin said the other day "It takes a lots of gas for a big truck, "and Coastal Bermuda is capable of hauling a big load and so it is with Coastal Bermuda in its ability to produce a huge tonnage of hay or forage. For this grass to really "pay off" and really produce more than the ordinary variety of Bermuda a bigger helping of plant food is absolutely going to have to be fed in the form of fertilizer and limestone. This will mean at least \$25 to \$40 for fertilizer is going to be expended each and every acre of grass. In pounds of fertilizer this will mean from 600 to 1000 pounds per year from now no. The sandy soils require limestone in addition to fertilizer and this requirement ranges from 1000 to 4000 pounds per acre every two to five years. With this type of high production a soil test is a must for the first three years, then at least every other year thereafter. These soil tests are made at private testing laboratories and cost the landowner \$2 plus postage. Agricultural limestone costs about \$6,50 per ton to spread on the land For those farms that qualify, the Agricultural Conservation Program or ACP as it is commonly referred to, will assist from 40 to 50 per cent of the initial or first cost of sprigging and

fertilizing. ONE ASKS WHY SO MUCH FERTILIZER and the answer is that to produce 5 tons, 10,000 pounds or 200 bates of hay at 50 pounds each, the following amounts of plant food will be removed from the soil each year on each acre: 200 pounds of pure nitrogen, 45 pounds of pure phosphorus, 180 pounds of pure potash, and 350 pounds of pure calcium which is found in limestone. You know of course that pure forms of these minerals cannot be purchased so the practice is to buy a given number of pounds of 60 per cent muriate of potash or so many pounds of 12-24-12, etc. You see, the chemical composition of hay is much more that just water, as it includes many minerals and chemicals in addition to water. A constant chemical action is going on in the soil and when additional chemicals are added to the soil this action is greatly increased. Because of this increase in chemical action, a soil test is an absolute must if you want to keep your plants up. Mother Nature is not being sidestepped or left out for one second, because if it were not for Nature these chemicals and minerals would not form in such perfect harmony to form a single blade of grass as it does. All this is just another one of Nature's Laws that man is learning just a little about with the hope that we can work more with nature and not against nature. We sure won't get very far if

## Library Week April 12-18

we omit nature.

The week of April 12-18 is National Library Week. Of course one reads every week but this week is designnated for a time to give extra thought and consideration to the resources that libraries have for the families in each community.

The theme for this year is "Reading is the key. "It may be explained in dozens of ways. It may be the key to knowledge. It may be the key to health. It may be the key to relaxation. It can be the key to growth. It can be the key to prosperity. Each adult and student is invited to visit the library. In Ty ler County visit the Allan Shivers Library. This week marks the fifth anniversary of a library in Tyler County. Five years ago a library opened on the third floor of the court house with 250 books on the shelves. In five

years library service has grown to have one of the outstanding facilities in the state of Texas. in the Allan Shivers Library. The library also serves as head-

quarters of the Hardin-Polk-Tyler Multi-County Library which operates the bookmobile in cooperation with the Texas State Library. The bookmobile goes to 36 stops and libraries in the three-county area. The bookmobile of the Hardin-Polk-Tyler Multi-County

Library makes its regular scheduled runs every two weeks in Tyler County as follows: Thursday, April 16 and 30

Dam B 2:15 to 3

Doucette 3:30 to 4:30 Friday, April 17 and May 1 Hillister 9:30 to 10 Warren 10:15 to 11:15 Fred 11:30 to 2:30 Spurger 3 to 4:15 Wednesday April 22 and May 6 Rockland, 10:30-11:00 Colmesneil, 11:30-1:00 Dies, 1:15-1:45

NATIONAL LIBRARY WEEK TO BE OBSERVED APRIL 12-18 The week of April 12 through

Chester, 3:15-4:15

18 is National Library Week and will be observed in most county schools. Tyler-Hardin-Polk Counties

Multi-County Library System will observe the week by giving readers from high school age through elementary school a chance to win a library book to be placed in the bookmobile in honor of a class.

"Reading is the Key" is the theme of the week. The pupils are asked to explain the phrase on a poster, with a poem, an essay or a story. The entry may be drawn or written on a piece of paper about the size of a sheet of typing paper, and the pupil's name, class and the name of the teacher should be written on the back.

For every classroom group in which as many as ten students take part, a book will be placed in the Multi-Library System in their honor.

#### Post al Examinations

An examination for rural carrier for the post office at Chester will'be open for acceptance of applications until April 21, the U.S. Civil Service Commission announced in Washington today.

Applicants must take a written test for this position. They must have resided within the delivery of the post office for at least one year immediately preceding the closing date of the examination. In addition, they must have reached their 18th birthday on the closing date for acceptance of applications. There is no maximum age limit. However, persons who have passed the age of 70 may be considered only for temporary limited appoint-

ments of one year. All qualified applicants will receive consideration for employment without regard to race, creed, color, or national

Complete information about the examination requirements and instructions for filing applications may be obtained at the post office for which this ed. Application forms must be filed with U. S. Civil Service Commission, Washington, D.C. 20415 and must be received or postmarked not later than the closing date.

DAM B FISHING is usually the "best in Texas"

White perch have been biting good - and bass are being caught although weather conditions are not good yet for bass fishing.

The Dam B Reservoir is noted as one of the hottest fishing lakes in Texas, and with the proposed improvements planne ed for Town Bluff Park, should attract several more thousand campers and visitors each week this next year.

1,000 ATTEND OPEN HOUSE AT ALLAN SHIVERS LIBRARY An estimated 1,000 persons toured the Allan Shivers Li-

brary and Museum during the Dogwood Festival weekend, according to Mrs. Virginia Van Horn, librarian, The open house was held un-

der the auspices of the Tyles County Friends of the Library with Mrs. Dicy Collins serving as chairman of the hospitality committee. The Library staff and the

Friends of the Library expressed appreciation to those who served as hosts and hostesses during the open house and extended congratulations to the boys and girls who took part in the parade, in which the library float won second place. Members of the committee

for the float were Mr. and Mrs. Tom Cox, Mrs. Milton Durham, Mr. and Mrs. James Shields, and for the float. The children and the story-

book characters represented are as follows: Rhonda Sloan, Thumblenia; Candis Sloan, Red Riding Hood; Debbie Prince, Sleeping Beauty; Johnny Bunn, Huckleberry Finn; Milo Miles, Hawaii; Julia Wheat, Cinderella: Beth Ann Wheat, Miss Muffet; Sue Shields, Strawberry Birl; Cindy Shields, Tinker Belle: Melinda Stryker, Pocahontas: Gretch en Stryker, Bo Beep; Cherry Swearingen, Sugar Plum Fairy; Janis Clow, Louisa May Alcott; Bridgette Walston, Sacagawea; Yvette Durham, Al ice in Wonderland; Ayn Vinson, Duarf Princess: Valerie

#### Adventures In Homemaking By RUTH WHITE

Three Layered Custard Pie

First layer: 1/2 cup brown sugar 2 tablespoons flour Mix the brown sugar and flour together and pat into an unbaked pie crust. Second layer:

2 cups milk 4 egg yolks 1/4 cup sugar 1 teaspoon vanilla 1/4 teaspoon salt

Beat these custard ingredients together and pour into pie shell on top of the brown sugar layer. Bake inhot oven of 425 degrees and reduce heat to 350 degrees and bake for 30 min-

The brown sugar does not mix with the custard but forms a delicious maple-flavored layer. It also keeps the custard from soaking into the pastry as a custard pie has a tendency to

Third layer: 4 egg whites 1/2 teaspoon vanilla 1/4 teaspoon salt 1/2 cup sugar

As the pie is almost ready to take from the oven, make the meringue. Beat the egg whites and salt until frothy. Beat in the sugar one tablespoon at a time. Beat until the meringue is stiff and glossy. Add the flavoring. Swirl the meringue lightly on the pie, sealing to the edge of the crust. Bake in 350 degree oven for 15 to 18 minutes or until deliciously

## County Agent's Column

ATTRACTIVE LAWNS CALL FOR PLANS, PROPER CARE

For an attractive lawn this summer, homeowners should review and plan lawn care, reports Clinton R. Currie, county

Proper fertilization, watering and mowing are important, he

Fertilization should continue through the growing season, he says. Start when grass begins to grow, using a complete fertilizer. Currie suggests one having equal amounts of nitrogen phosphate and potassium for the first application. Apply at the rate of two pounds of actual nitrogen per 1.000 square feet. During the growing season, apply nitrogen every eight to 10 weeks at the rate of one to Mr. and Mrs. E. D. Sloan, Mr. two pounds per 1,000 square Sloan furnished the truck used feet. Currie points out that nitrogen is the key element in turf growth. It produces the deep green color homeowners desire.

When watering the lawn, Currie believes you should soak the soil to a depth of six inches. "This encourages a deep root system that will utilize plant nutrients more efficiently and be more resistant to diseases," he said. "Light sprinkling pro-

duces shallow, weak root systems that encourage weed in festation and disease." Mowing should be frequen with a small amount of growth removed with each cutting. He recommends mowing only one inch off St. Augustine lawns at each mowing. St. Augustine should be cut at a height of two

inches and Bermuda at 1-1/2 Lawn mowers should be sharp and the blade should cut the leaves, not shredding or crushing tips," Currie said. "The machine should be in good running condition and have adequate safety devices. Stones and other objects should be removed to they won't dill the blade

For additional information ask for Extension Bulletin B-203, Home Lawns," at the county

to know how much grain and supplement to feed with hay or silage will be interested in a new service at Texas A&M U-

Called the Texas A&M University Forage Testing Service, it was initiated so producers can find out the nutritive value and quality of forages they grow. Knowing this, they can supplement the feed to give the best level of beef and milk production and profits or can use it in connection with sales.

The Forage Testing Service is somewhat like the more familiar Soil Testing Service, Like the soil test, you have to take a careful, representative sample. As the soil test suggests fertilizer application best suited for the soil and crop, the forage test will give guidelines for the most economical, balanced feed

Two different services are of fered in the forage analysis program. The producer can get a simple analysis giving only the protein content of a more elaborate analysis listing crude protein, crude fiber, and calculations of digestible protein total digestible nutrients and net energy. A charge of \$2 is made for

the simple analysis of hay and \$6 for the complex analysis of hay and pelleted or wafered sample, Silage analysis cost \$1 more for either text.

With the complex analysis balanced feeding recommendations will be provided if requested based on the livestock that will utilize the feed. Tests will not be made on other types of feed such as grain

or concentrates.

If you are interested come by my office for details on the Forage Testing Service.

How many acres of melons or vegetables should you plant this year for the commercial mar-

"Same as last year if you grow watermelons, mid-s u m m e r cantaloupes, cucumbers, sweetpotatoes, early summer onions and fall green peppers, "suggests John E. Larsen, Extension horticulturist.

Other changes in Texas vegetable plantings are suggested by the U. S. Department of Agriculture acreage marketing guid**es.** 

Only increase calls for 15 percent more acres than last year in late fall plantings of napbeans.

Sharpest cut suggested is 20 percent for the early fall planting of carrots. Also, a 5 percent from last year is suggested for plantings of early fall lettuce. Acreage marketing guides are developed by USDA's Agricultural Marketing Service to help farmers plan for a balance between production and market needs for each commodity. The guides are based on the best available facts and figures concerning supply, demand and other marketing conditions.

"Some production influences, ... such as extremes of weather, refuse control but growers do have full control over their plantngs, "Larsen said.

Thus farmers can contribute importantly to balanced market conditions by planting acreages likely to result in sufficient production to satisfy consumer needs, but insufficient to result n depressed prices.

Farmers can secure more detailed acreage marketing guides from their county agent. CROPS, SOIL AND FALLOUT

Should there ever be a massive nuclear attack against our country, only a small proportion of our inad would be seriously contaminated after fresh fall-

court decayed. For several years, Civil Defense officials have conducted annual test exercises from which extensive computations have been made. Data from Operation Alert 1961 were typical of that received from other tests.

Operation Alert 1961 considered effects of 260 weapons totaling 1, 425 megatons, with assumed targets spread through out the nation, Based on wind and weather conditions that actually prevailed at the time of the exercise, fallout estimates indicated that in such an attack about 4 1/2 percent of our total land area (5 percent of our cropland would receive fallout which exceeded 300 roentgens per hour, one hour after the explosion (H/1). About 1/2 of 1 percent of our land would suffer from really heavy radiation (over 1,000 r/h at

Long lived strontium 90, with a half-life of 29 years, is of primary importance in the area

of crops and soils. The amount of ctop contamination with strontium 90 would depend on the available calcium in the soil. Strontium uptake could be reduced by growing crops with low strontiumcalcium concentration. Potatoes, corn, sugar and oil crops would be of suitable low calcium content to grow on heavily contaminated lands.

Crops producing high calcium food products should be grown on less contaminated land. Also, land could be diverted from food production and used to grow cotton, fiber, flax, castorbeans, timber of other non-food products Land lormerly used for dairying might be diverted to beef or other meat animal production because of the small amounts of strontium retained in the meat.

Decontamination of soils and crops is a nother method that may be employed to reduce the danger of radiation and will be discussed in another release.
