Star-spangled present

Here's a Christmas present the youngsters on your shopping list can't lose, break, wear out, or get tired of. It's a U.S. Savings Bond-the gift that grows while they grow. Practical. And appreciated, even by younger children. Makes a child feel important to be entrusted with such an adult-looking document. As the years pass, the money helps pay for important

things like college, marriage, and emergencies. And

until they do cash it in, the Bond itself is always there to remind them of your gift.

In the meantime, Uncle Sam will be using the money to help make their future secure in other ways. (Which is especially important now when so many of our fighting men are committed in Vietnam.)

Give Bonds this Christmas. Buy them where you do your banking and avoid the shopping crowds. Prices start at \$18.75 for a \$25 Bond.

The British national game of Cricket is considered many as the forerunner of American baseball. Yet baseball fans who go to a cricket match (or game) will find that the British pastime is well-nigh incomprehensible to them. The reason for this is that they expect too great a similarity with baseball. For ingame can go on for as long as six days. The pitcher in cricket is called the "bowler," and each side has two who 'alternate. Let me stop here before I think really understand the game; then I'd be confused for
