Reports

By U. S. Rep. JOHN DOWDY Entered as second class matter at the Post Office in " POSSIBLE SPENDING CEILpurse-strings was placed in Congress by the Constitution; however, such control has gradually been eroded, and spending has gone out of control. Insofar as the House of Representatives is concerned, an attempt was made last week to return to fiscal sanity. Last AFFILIATE MEMISER NATIONAL EDUCORIAL ASSOCIATION fiscal year, federal spending was approximately \$125 billion. It appears, unless action is taken. it will be increased in the present fiscal year to ... more than \$145 billion, with 🕛 🖓

federal income estimated by the administration at about \$104 billion. The Président asked for a 10 per cent surtax. on income taxes, which would bring in about \$7 billion adof the Members of the House voted for a bill to hold spending in the current year at the level for hist fiscal year, with certain necwssary exceptions. such as the costs of the Vietnam Warppostal services; and trust fund expenditures; such as Social Security fenefits; Senate leaders say they are unwilling to make the reductions, but if we can succeed in this, the Convices may succeed in 'recapturing its intended , authority in such matters. If this falls, we

will be faced with greatly increased taxes and run-away faflation. SAVINGS CAN BE - MADE-In the Dolinso Department. Our men in Vietnam should not be deprived of anything they meet to protect themselves.
