Early Morning Fire Destroys Feed Mill

A fire discovered about 2:15 a.m. Monday morning completely destroyed the building and contents of Tyco Feed Company located near the Southern Pacific railroad tracks in the east part of Woodville.

Firemen battled the raging fire for several hours and continued to pour water on the burning contents up until mid-morning.

R. A. Jernigan, owner of the mill and feed store, said that the loss would run to at least \$100,000. Insurance will cover about one-fourth of the loss, he estimated.

Jernigan said late Tuesday night no definite decision about rebuilding the mill had been made, but that he did expect to continue in business. The feed firm is supplying feed to several broiler growers in the area. It handled feeds, seeds, and mixed and ground feeds for its customers.

The firm had just received a carton of two and two carloads of other feeds Saturday and these were destroyed along with the stock on hand.

Although the fire occurred late at night and in freezing weather, but two of Woodville's volunteer firemen answered the alarm. This was a remarkable turnout and Mr. Jernigan was quick to praise the firemen for their efforts.

He said that it was impossible to tell just what was started in the mill, but that he was unable to determine if the fire started underneath the building rather than on the outside, perhaps from a fire built to keep warm by a transient or "wino."

Cub Pack 37 To Meet Tuesday

Cub Scout Pack 37 will meet Tuesday, January 23, at 7 p.m. in the Mammoth Room at Dogwood Motor Hotel.

He said that icicles 6 inches

long formed on the trees but that the firemen dealt with the situation.

Jernigan said that he also wished to thank all others who assisted in any way. He and Mrs. Jernigan are deeply grateful to the firemen and everyone who assisted in any way, he said.

TYCO Feed Store fire shown early Monday morning with fire continuing to flare up in hay and feed storage areas. Entire building is gutted with only walls standing.

Gospel singers by the thousands will be in Woodville Saturday and Sunday when the Tex-La Neches Valley Singing Convention holds its semi-annual meeting here.

Headed by Bush Carter, who is president, this group is the

largest of the gospel singing conventions, Carter has just returned from the National Singing Convention in Nashville, Tennessee, and says that from the response of those at the national meeting there will be singers, music

directors and others from all over the United States.

The convention here Saturday is sponsored by the Tyler County Chamber of Commerce. Major F. Alford, the chamber president, will make the welcome address to the group at the opening session at 6 p.m. Saturday.

The local committee for arrangements is headed by Bob Bell of Woodville. Other members are D. V. Economist looks year ahead in agriculture--The agricultural situation in 1967 turned out to be one of farm output and declining prices. John G. McFayre, Texas A & M Extension economist, said that realized net farm income probably was reduced by nearly \$1 billion below the 1966 level. The net effect of larger marketings and lower prices was to reduce cash receipts from marketing only slightly, but the increase in production expenses continued in 1967 and realized net income of farm operators dropped to a \$14.8 billion, or 10 percent, lower than September, down from \$16.6 billion a year earlier.

McFayre noted that production gains for livestock products were large in 1967, but price declines were greater. Livestock product prices received by farmers in the first half of 1967 averaged five percent below a year earlier.

He said larger exports are proposed for grain, soybeans, rice and cotton.

The "upturn" in farm production expenditures will continue in 1968.

Time in 1968 and accelerate somewhat. Prices paid by farmers for most items used in production will continue to rise, but feed prices will have been rewarded financially in proportion. The fact is that overall farm income is down and has been reduced in that direction for some time.

The farmer is indeed the consumer's best friend because he can keep food prices from rising higher than that rate.

Black said the national food marketing bill has more than doubled in the last 20 years. Here are some reasons:

The volume of food marketed increased by more than one-third because of rising population.

Marketing services have risen sharply. In 1947, consumers spent more on marketing, grading, trimming, packaging, processing and storage, more built-in conveniences, and they are eating more away from home.

Labor costs, which account for about half the total marketing bill, have doubled.

New plant and equipment costs have gone up along with labor costs, packaging materials, interest payments, rents and taxes. Corporate profits make up about 6 percent of the marketing bill.

Local law enforcement people have no chance to object.

Connally said he will pursue his own investigation.
