One of the most gratifying things that has happened to us lately is when Pete Thornton told us that after counting the voter registration slips, Tyler County would have an all time record of the number of qualified voters in the county, and this means that folks are beginning to think about the future of this country and were interested enough to stand up and be

counted. most gala of all, and a lot of hard work, even unappreciated hard work, will be put into it, and the least we all can do is to get in behind it. All of us will have various opportunities to write or tell out of town folks about it, and every one of us can be individual public relation ambassadors for the Dogwood Festival by telling about it every chance you get. . .and remember. ..the extra tourist dollars it will bring to Tyler County will go a long way in helping our economic growth.
