If Rip Van Winkle had fallen asleep on January 1, 1960, and woke up on January 1, 1970, he would be amazed at some of the changes which have taken place in a decade.

Ten years ago would you have believed a prediction that revolutionaries could take over a college campus, that a president could be driven from office by dissent, that it would become increasingly dangerous to walk the streets of our capital city? And putting a man on the moon was just a dream

Think about it. What changes will we see by 1980?

We hope you will join us in watching the Sugar Bowl Parade on Channel 12 (or channel 9) this Thursday morning. The Kirby High School band will be one of the 18 marching units in the parade which was held Tuesday night and is being telecast today (Thursday) over Channels 12 and 's

as quite an honor for the band to add to its many other achievements.

We_congratulate-the-band-director, Jerry Brown, and each member of the band. And each band member's parents is to be congratulated for encouraging interest in music.

The Booster's contest for the widest spread of antiers has created a lot of interest among deer nunters. And to those who will be out there this week trying to get that big one, we wish you luck--and if you get one with a wide spread of antlers bring it by the office to enter in the contest.

Remember -- there are four prizes, and one of them might just be yours.

Well, We ought to be drawing up our New Year's Resolutions. On the other hand, we have been making them for so many years that perhaps we just need a retread off some we've made in years past.

After you reach maturity, it-seems that one year stumbles over the other in their haste to become history. That was a blg event when we became 21.

And then a few days grew into 12 months and a few more days into more months, and then we were 31. And a few more days grew into a few more years, and then we were. . .

The days and years go by too fast and old dreams are lost in the foggy past. New dreams and new visions may take their place but the time grows shorter in which to fin-

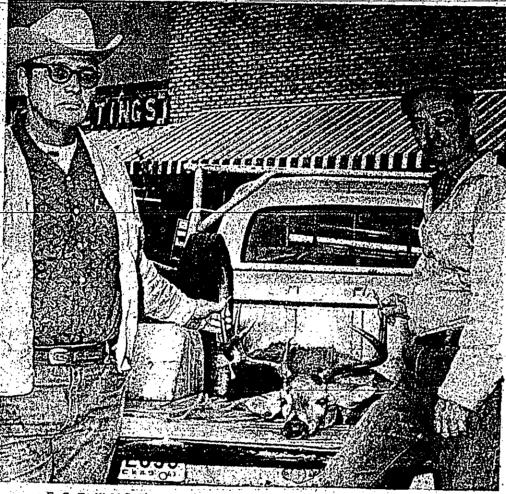

Today is yesterday's tomorrow, as someone has said. So today should be spent in doing those, things, which we put off until the morrow.

That's good advice. World that we could keep it!

County Chamber of Commerce. On Friday night, January 16, a concert will be presented in the auditorium by several wellknown gospel singing quartets. The Friday night quartet concert was initiated three years ago by the late Burl Carter and has proven to be one of the most popular features of the singing convention.

Also-scheduled is an afternoon session Saturday, January 17, for young people. This was started last year and proved very successful. The Saturday night session

30 YEARS IN EAST TEXAS How a pioneer is born

On Jan. 17, 1940, in a one-time cotton field near Lufkin, a giant paper machine loosened a roar that was heard throughout East Texas.

From its insides came the first roll of newsprint ever made commercially from the South's pine trees. It not only stamped Southland as a landmark industry. but triggered the beginning of vast economic benefits for Texas forest belt. This year, Southland celebrates 30 years in East Texas.

It has been a full 30 years, too, punctuated by notable contributions in the fields of quality papermaking, water and air conservation, forestry_management, and community service.

Much of our growth in the past three decades can be laid to a working partnership between Southland and the people of East Texas, who have created the kind of climate in which industry can grow.

In the weeks ahead, in advertisements. such as this, we'll be telling you more: about this partnership and some of the benefits it has reaped.

Blatant headlines such as "thsurance, because you failed to give prompt notice of the accident to the insurance company? Generally speaking, you are re-

quired to give notice within a "reasonable time" after you have an accident. Still, the law does grant you some leeway if there is a good excuse for delay. Obviously, you have a good excuse if you simply were not aware that an accident happened at all: Likewise, in the case above, the court decided the motorist's excuse was good enough. As one judge

"Not every trivial accident should be reported. An accident that an ordinarily prudent person would consider as inconsequential, not the basis of any claim, the in sured was not bound to report." Nevertheless, if there is reason to fear a claim (even an unfair claim), then it is indeed up to you . to tell your insurance company

For example, a motorist who knocked down a pedestrian washeld not justified in failing to report the accident, since he knew the victim had been taken to a hospital. His excuse, that a policeman had told him it was, "nothing serious," was held not good enough And another motorist was held at fault for not notifying his insurance company that the other party, in a seemingly harmless collision, had telephoned to say his knee was "starting to feel stiff." In short, when in doubt report the accident. It isn't a difficult

thing to do. And it might save you, some day, from having to face the music" on your own
