**Fight the high cost of cooling... with Mr. Friedrich's Incredible Electric Cooling Machine.**

Your meter's hungry. He wants a lot of kilowatt hours this summer. Most cooling machines (air conditioners) will give him what he wants. However, there's one that won't. Mr. Friedrich's Incredible Electric Cooling Machine. It's stingy with kilowatt hours. The sad fact is this: Mr. Friedrich's Incredible Electric Cooling Machine costs less to operate than most any other air conditioner. Every summer, year after year, you'll save, umpteen dollars on your electric bill. The exact amount depends on the size and the model of your Friedrich. In all, a Friedrich Air Conditioner gives you a cooler, cooler, a more steady cool, a more quiet cool, a drier cool (takes the muggy-moisture out) and does it more economically than most any other make's cool. As you might have supposed, it costs more than other machines... but its cool costs less... and it's cooler, isn't that incredible!

Comparative operating costs of all brands of room air conditioners are published every year by the Association of Home Appliance Manufacturers. Your Friedrich Dealer has these figures and can show you exactly how much you will save.
