J. W. Robinson Joins Staff At Kirby Lumber

J. W. ROBINSON

Mr. Robinson, a professional engineer and a graduate of the University of Oklahoma, has taken advanced degree work at the University of Cincinnati.

Mr. Robinson, 4 professional engineer and a graduate of the University of Oklahoma, has taken advanced degree work at the University of Cincinnati.

Tilapia grown on the Jonathan Hurst Fish Hatchery in Newton County, Texas.

Tilapia Fish Used As Weed Control In Ponds. Tilapia, a new pond weed control method, was introduced into the United States and Texas in Federal Initiative 1959.

It wasn't published much until chemicals like DDT, 2, 4-D and other such chemicals came under close scrutiny by the Food and Drug Administration.

The new control method is not a chemical, but a biological control agent. The tilapia is a tropical fish that was introduced from Africa.

Public Advised Of Construction Fund Loan Law

Business building material suppliers and subcontractors should be familiar with the Texas statute known as House Bill 1111.

The law, which received the endorsement of the Lumbermen's Association of Texas, states that construction fund loans are designated as trust funds, and any diversion, retention or misapplication of such funds with intent to defraud, constitutes a felony punishable by fine and/or imprisonment.

The statute is designed to protect consumers from unethical practices on the part of some contractors. Its enforcement will include those activities having to do with employees and public relations.

With his wife, Mary, and six daughters, Mr. Webster is family in active in the First Methodist Church. A native Texas, he is a graduate of the University of Michigan.
