## How Big A Big Thicket Park?

Congressman Bob Eckhardt of Houston, authored a bill in Congress to create a 10,000-acre Big Thicket National Park. In a speech in Woodville Tuesday night, Eckhardt attempted to allay the fears of area businessmen that they will be evicted when the park is created.

Persons in southern Tyler and northern Harris County have received information from the Denver Service Center of the National Park Service as a survey form and was mailed to them, according to Eckhardt.

## Absentee Voting To Start April 20

Absentee voting for the May 19 election in primary election will begin April 20 and continue through May 2, according to County Clerk Allan Burrows.

James Mays, senior student at Kirby High School, arrived as a guest of the Woodville Rotary Club during the youth of March 21. Mays is the son of Mrs. and Mr. J. M. Mays of 308 West Elm Street.

## Wagnon Gives Qualifications For Commissioner

I am a family man. My wife was the former Wilma Klwoud Lee. My three daughters, Laraine, Beverly and Sherry Wagnon, all graduated from Warren High School.

geographical area which will be included in the park is being planned.

People who live in the area and who know the Big Thicket outline of what is called the Big Thicket have often wondered just what even looked as a cause found that will qualify for the unique vegetation and blending of temperate and subtropical climate.

At any rate, none of the residents of southern Tyler, county and area in the county of Harrison in Harris County have ever considered that they live in the Big Thicket.

Some of them feel reassured by the Eckhardt's efforts in his Saturday night speech, since the campaign for a Big Thicket National Park has been political, they say, some of them avoid supporters have suggested that the watershed of Village Creek to the North River should be included in the park.

And if the park included recreational areas for the general public, they point out, its supporters will certainly want the streams included in the park.

These speaking against the acquisition of a large acreage for the park say they are not opposed to a recreational area park, but they want it located where the thickets are and not where they are proposed to be opened to recreational purposes.

## PUBLIC NOTICE

To the concerned citizens in the proposed increased Big Thicket and to my fellow workers who are circulating petitions to prevent the increase of the former proposed park to 191,000 acres:

I, Clyde E. Smith Jr., prepared and wrote the petition having it captioned and which were being read to the public for signature.

I, Clyde E. Smith Jr., as for a Big Thicket and I am for a Big Thicket as originally planned, but not one to extend to 191,000 acres which would cause many of us to be removed and land.

I feel that it is not fair for me to be prepared the petitions that should not be used by me for my political gain. So that we could obtain the greatest number of signatures to all petitions by our workers.

I want to thank Clyde E. Smith Jr. for preparing our petitions and to commend him for his attitude towards.

I want to apologize to all the candidates who were not approached and given an opportunity to sign one of our petitions.

Sincerely,  
Mrs. D. B. Thompson, Chairman  
Warren, Texas
