### ALL VEGGIES MAKE EARLY ARRIVAL IN MARKET

It is important for vegetable growers to get their produce to market as early as possible. This helps to ensure that the vegetables are fresh and of high quality. There are several ways to achieve this, including using early-maturing varieties and providing adequate irrigation.

**LET'S BE POSITIVE on America**

As we approach the 200th Anniversary of the founding of our great nation, it's time to take a good look at what has made America great. Some people seem anxious to tell us what is WRONG with our country. Let's be positive, and think and talk about what is RIGHT about America. Let us be reminded of the American Dream, both as seen by the immigrant and the native son, and the reality of that Dream. Let us be proud of our physical aspects of the land itself - of the varied peoples from many lands who have made our country what it is today.

Maybe this could be called a "plea" for unity - a time to be positive in our thinking, and especially a time to BE PROUD OF AMERICA!
