COOL TIPS FOR HOT WEATHER

Keep shades and blinds closed when windows are in direct sunlight. Turn on any air conditioning. Burn clothes in the heat in a room. Avoid tight fitting high-necked clothing. Light-colored clothing allows heat to reflect off it. Drink plenty of liquids to replace the fluid lost through perspiration. Remember that heat is a sign of nature's heat but we don't have to let it beat us. Use a fan to circulate air. Use a fan to circulate air. Use a fan to circulate air.

THE TYLER COUNTY BOOSTER

Bigger Lifetime Incomes For Tyler Countians

NEW YORK, June 27, (UPI)—The current differential between the average per capita income of the United States and the average per capita income of Tyler County is about \$1,000, according to a study by the U.S. Commerce Department.

The study, which is the first of its kind, shows that the average per capita income of the United States is \$3,000, while the average per capita income of Tyler County is only \$2,000.

The study also shows that the average per capita income of the United States is increasing at a faster rate than the average per capita income of Tyler County.

The study is a good example of the need for more education and training in Tyler County. It shows that the average per capita income of the United States is increasing at a faster rate than the average per capita income of Tyler County.

Letter To The Editor

Dear Editor:

I am writing to you regarding the recent meeting of the Tyler County Board of Commissioners. I was disappointed to hear that the board did not take any action on the proposed budget for the coming year.

I believe that the board should have taken action on the budget at that time, as it is the board's responsibility to do so.

I hope that the board will take action on the budget at its next meeting.
