Mrs. McGallion was in fair condition, and Mr. Hines is listed as serious condition. Earl Dotson was treated and released.

The accident occurred when the car and van collided head-on on Highway 92, a few hundred yards from 1013 in Spurger. The Spurger Fire Department was called to the scene to wash down the highway after a gas tank was ruptured in the collision.

Memorial Hospital noted

Hardin Memorial Hospital has received a Certificate of Recognition from the American Hospital Association (AHA) in acknowledgement of its efforts to more effectively monitor costs.

The program involves the sharing of cost and productivity data submitted by over 3,000 health care institutions as a means to evaluate their own cost effectiveness. Hardin Memorial Hospital has been taking part in the AHA sponsored programs since July, 1976.

"We found the information supplied by the program to be an excellent management tool in evaluating our cost containment efforts," said Louis Kuntz, Administrator. "By the sharing of data with other health care institutions, we are better able to provide effective cost containing procedures."

By KEN HERMAN

Lufkin News Writer

East Texans told their congressman Thursday that the region's timberlands are too valuable a resource to be reserved for primitive wilderness areas.

Three-fourths of the 250 person audience at a hearing called by U.S. Rep. Charles Wilson of Lufkin indicated that they opposed the 75,000-acre wilderness area being sought by state environmental groups.

The proposed wilderness areas, which would have to receive congressional approval, would be located in the four national forests in East Texas.

After hearing three hours of testimony Wilson said, "It is obvious that some areas should be preserved, but not 75,000 acres."

"The general strategy of these groups is usually to ask for more than they expect," he said.

The first witness for opponents of the proposal was Kenneth Nelson, Texas Forestry Association president. TFA represents the timber industry.

Nelson told Wilson that wilderness areas would have a detrimental effect on the East Texas economy and would not provide recreational opportunities that do not now exist.

"Unlike non-renewable resources, putting forest land into a reserve does not preserve the resource. Rather we will be depriving our present generation of the jobs and resulting quality of life that jobs provide. And we will be bequeathing future gen-

erations an old, unhealthy forest of decayed wood which will be increasingly susceptible to disease, insect infestation, fire and blowdown," Nelson said, reading from a prepared text.

Among the area residents protesting the proposal was Zavalla resident T.C. Poland, who said the U.S. Forest Service has done a good job of managing the forest and providing recreation.

"Who's going to run around in that wilderness area?" he asked. "Flowers and birds are the most oversold thing. If people want to see that woodpecker (the endangered red-cockaded) put it on TV, prime time. You can't make a living in a wilderness."

Several people said they did not object to the wilderness concept but felt 75,000 acres was too large an area.

A San Augustine lumber company owner said restrictions prohibiting timber harvesting have had a devastating effect on his business.

"I'm nearly an endangered species myself — the ivory-billed woodcutter," he said.

Dallas attorney Ned Fritz, chairman of the Texas Committee on Natural Resources, told the audience that the wilderness areas would provide added tourist revenue for the region.

"We need enough acreage for the crowds that will come," Fritz said. The comment was greeted with laughter from the audience.

"It may seem funny to you," Fritz responded. "But many people will come to see an area that is being saved."

The land being sought for wilderness includes some ten per cent of the national forest area in the state.

Fritz said area residents have two major misconceptions about his proposal. He told the audience that no private land owners would be forced from their property. In an earlier version of the proposal Fritz had asked the U.S. Forest Service to attempt to buy private inholdings within the proposed area.

At yesterday's hearing he said, "We've had wasted time, fear and efforts. We don't want any private land. There's plenty of good federal land."

Fritz also said access roads to the private land would be left open.

After the meeting, however, Rep. Wilson said he was not sure if the roads could be left open in a wilderness area. John Courtenay, supervisor of the national forests in Texas, said no motor vehicles are allowed in existing wilderness areas across the nation.

Rep. Wilson said the road question is a crucial one and he would seek more information on it.

Sisters To Be Honored At Homecoming

The descendants of two of the first families of Call, Texas, the "Crow Sisters," will be honored guests Sunday, April 24, at the Annual Call Homecoming at the Call Methodist Church.

Marlin Crow, fathers of the girls, came to Call in his early manhood and was employed as engineer on the switch engine from Call to Call Junction. Sibbia Roberts Crow, their mother, came to Call with her father, Frank Roberts, when she was about 13 or 14 years old. Mr. Roberts was a carpenter and helped to build the first houses in Call.

Glady's, Virgie and Rachel Crow were all born and reared at Call and attended school there under "Fessor" Darden for whom the first Call Homecoming was held.

Glady's, the oldest, finished school and at the age of 17 married Selman Allison, Selman's father, John Allison, was in business with Frank Roberts, the girls grandfather. Eventually Mr. Allison bought out the business, now known as Allison's Store and Selman fell heir to it.

The Allison's had two girls and one boy—Mildred Allison, Lillian Fields and Joe all of Houston. Following Selman's death, Gladys married Arthur Kirkindall of Deweyville and they now reside here in Call. They have seven grandchildren.

Virgie finished school at Call and attended college at Sam Houston in Huntsville. She returned to Call where she taught for five years. During this time she met Hillary Herrington who was depot agent at Call Junction. They married in 1924. They moved to Longview where they lived four years and then moved to Baytown for 29 years. Hillary retired and they moved back to Call.

They have one son, Robert Austin, who is in Saudi Arabia, and three grandchildren. Rachel, the youngest of the three, finished school at Call and then worked several years in Baytown. She met Fay Smith of Deweyville who was originally from Arkansas. He was employed as a lumber inspector. They now reside in Call and have one daughter, Susan Faye, who resides in Houston.

Registration for the Annual Homecoming will begin at 10 a.m. at the Methodist Church in Call. A basket lunch will be spread at noon and a business session will begin at 1:30 p.m. All former residents of Call are invited to attend.

Attend the Church of your choice this Sunday.

THE SAM HOUSTON REGIONAL LIBRARY AND RESEARCH CENTER

Artist's sketch of building now under construction at Liberty, Texas

Dr. Dorman H. Winfrey, Director of Texas Library and Historical Commission has announced that May 14, 1977, 2:00 p.m. has been set as official opening date for the Sam Houston Regional Library and Research Center.

The center, located in Liberty is a regional historical depository constructed in 1976-1977 by the Texas Library and Historical Commission to serve the ten Southeast Texas counties carved from the original Atascosito District of the Republic of Mexico. These counties are Chambers, Hardin, Jasper, Jefferson, Liberty, Newton, Orange, Polk, San Jacinto, and Tyler.

The purpose of the Texas Regional Depository program is to provide fireproof preservation and protected access to official and private records and papers of historical interest.

This Depository operated in co-operation with Lamar University has been expanded to provide teaching and research facilities and valuable library collections on Texas History, General History, Government, and Religion.

Establishment of this center was sponsored by the Atascosito Historical Society, organized in 1973. The 110 acre site, donated

to the state by former Governor and Mrs. Price Daniel, is on the league of land granted by the Mexican Government to B. W. Hardin in 1831. The Hardin Cemetery adjoins on the North. The site is on the original road from Atascosito to Nacogdoches. One half mile to the south is the site of the 1756 Spanish Outpost of Atascosito, the Atascosito Springs, and the crossing of the Atascosito River, an area which was used successively as an Indian Camp, Spanish Fort, Mexican Fort, First Anglo Village in the Region, and the site of the present city of Liberty. The name of the town and the District was changed to Liberty in 1851.

All funds for construction of the Sam Houston Center were contributed by Foundations and Individuals. Lamar University will supervise the construction and use it for research and field centered courses with emphasis on Library and Archival Sciences and Texas History.

Plans were drawn by the Texas Building Commission as required by the State Library and Historical Commission and Lamar University for the building. It is a two-story structure of 17,600 square feet with an estimated cost of \$500,000 for the construction and \$100,000 for furnishings and equipment.

Bible Workshop Held

The Kountze Church of Christ hosted an area wide Bible Teaching Workshop Saturday, April 16. Seventy Bible class teachers from Churches of Christ in Livingston, Woodville, Lumberton, Silsbee, Warren, Sour Lake, Buna, Kirbyville and Kountze were instructed in teaching methods by Mrs. Mattie Lue Hicks from the Christian Teacher Bookstore in Houston and Roy and Marlene Long of the Bammel Road Church of Christ in Houston.

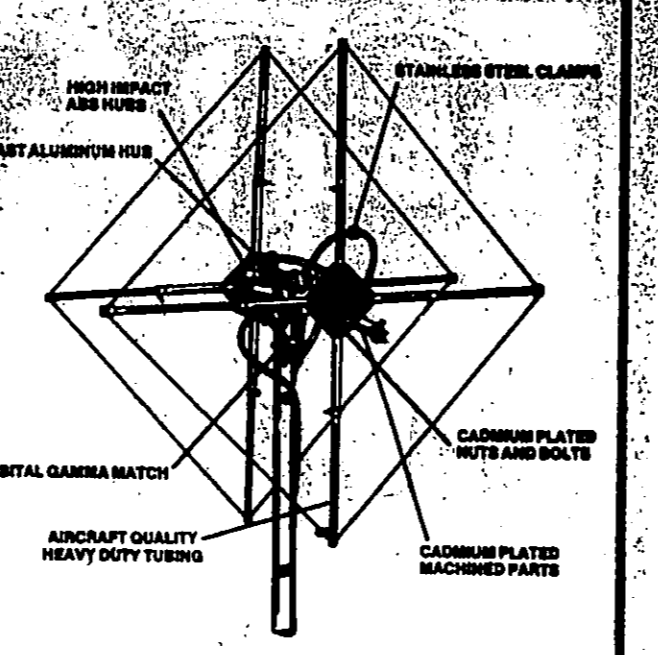

Tom McLeod of Beaumont gave the keynote address for the day. Tom serves as Education Director for the Ridgewood Church of Christ in Beaumont.

Mrs. Hicks presented many visual aids, both hand-made and commercial, and other teaching methods for teaching the preschool age child.

Mr. and Mrs. Long worked with the teachers of school age children, grades 1-6. They also showed many visual aids and other teaching methods, plus a unique presentation on using puppets to teach Bible stories and principles. Many of the teachers present got to try their hand with the puppets.

The Longs and Mrs. Hicks have presented many workshops such as this throughout the nation. The Kountze congregation plans for this to be an annual effort for area Bible school teachers.

LIBRARY: New Books

Kountze Public Library has added 40 new books, in large print, to its services for the people who have eye difficulties. These books are printed in large type, very easy to see.

These books cover a variety of subject material. Some are inspirational, for instance, GOD AND ARCHIE BUNKER is written by a Presbyterian minister, Spencer Marsh. He explains the ironies of Bunker in his philosophy and identity with God. He is tough on Archie, but truthful.

Included in these large type books are fiction, history, information and others.

The library is open every day from 3 to 7 p.m. and 9 to 1 on Saturdays. In the last two years, the library has acquired \$15,000 worth of books and is completely remodeled inside and out.

Research material on almost any subject may be obtained by calling the librarian. High school students are welcome to use this service.

It is hoped that in the near future, clients of the nursing homes may be brought to the library in the Hardin Helping Hand Van, if they should desire that service.

Leadership workshop

The workshop, will provide our people in leadership roles the training and experience to help them better perform their role of working with and involving people.

The workshop will be a series of three sessions held on April 25, May 9 and May 12, 1977. The sessions will be held in the Courthouse Auditorium in Kountze beginning at 6:30 p.m.

John H. Henry, Texas Agricultural Extension Service Area Resource Development Specialist; Dr. James I. Mallet, Texas Agricultural Extension Service Community Resource Development Specialist and Dr. David C. Ruesink, Texas Agricultural Extension Service Sociologist will conduct the workshop.

The workshop will deal with the following areas:

WE APOLOGIZE

The price shown for the Avanti Antenna in the Radio Shack's ad in the Herald of April 13 is in error. The price should have been \$99.95, instead of \$117.50. We regret any inconvenience or confusion this may have caused.

Chew some dry coffee while holding your nose and you won't taste anything. But take a breath and you will taste it because what you're "tasting" is really an aroma.

THE "POWERS THAT BE" ARE IN NEED OF YOUR PRAYERS

HEAL THE SICK

And it came to pass, as Jesus sat at meat in the house, behold, many publicans and sinners came and sat down with him and his disciples.

And when the Pharisees saw it, they said unto his disciples, Why eateth your master with publicans and sinners?

But when Jesus heard that, he said unto them, They that are whole need not a physician, but they that are sick. But go ye and learn what that meaneth, I will have mercy, and not sacrifice: For I am not come to call the righteous, but sinners to repentance.

St. Matthew 9: 10-13

THE GOOD WORD from the Bible

Often, the bible tells us, Jesus gave evidence that the message of Christianity was brought to all people. Many times Jesus came into contact with sinners, lepers, outcasts; none was ever scorned, nor turned away.

Those who would discredit Jesus never failed to make public issue any time "publicans and sinners" came near him. Christ's way was not the way of the world. He was a missionary with equal time for all.

Many of us follow the rules of the world and ignore the teachings and the examples of Christ. We have little sympathy for those less fortunate than ourselves. We hesitate to lend a helping hand to someone in need if that person has a "bad" reputation. We don't want to become "involved."

There is no discredit in a Christian attitude toward one fellow man. The Christian attitude is one of help and consideration; it does not permit us to throw stones, nor to cast aspersions.

FACTS & FIGURES

Although people had been carrying watches around since 1584, the first wrist watch was not invented until 1790. It was made by Jacques-Droz and Letcher of Geneva, Switzerland.

The word "minute" comes from a Latin expression which denoted one-sixtieth of an hour. A minute is one-sixtieth of an hour, just as a minute in geometry is one-sixtieth of a degree.

ADA MCDANIEL

Funeral services for Ada McDaniel, 73, who passed away at 10 p.m. Saturday at Holiday Pine Lodge, Inc., were held at 2 p.m. Tuesday, April 19, at the Calvary Baptist Church. Burial followed in Magnolia Cemetery under the direction of Edwards Funeral Home.

A native of Louisiana, she was a retired clerk and had lived in Woodville twenty-six years.

Survivors include her husband, R. D. McDaniel, of Woodville; three sons, Homer of Baytown, Vernon of Orange, and Monroe T. McDaniel of Fort Sumpter, South Carolina; four daughters, Hilda Russell of Houston, Pauline Lesser of Woodville, Jo Ann McDaniel of Woodville, and Patrice Martin of Mauriceville, Texas; three sisters, Annie DeVaughn of California, Velva Poole of Ollie, Louisiana, and Allie Henry of Houston; twenty-one grandchildren and nineteen great-grandchildren.

Town Talk
by BARBARA

THE WOODVILLE SCENE

Got it first hand—"BIG RED" is not infallible. It took two trucks to pull it out of the sand and surf. RUTH and V. DURHAM, PAT BROWN, FATHER PATILLO, DAVID DILLON and all the others having lunch at the Woodville Inn on Friday should have felt very safe because SHERIFF CRAVEN and DEPUTIES COWART, POWELL, and KRUISE were also there. Found DONALD OGDEN slipping "liquid gold" at the Burger Bar on Saturday. AUSTIN FULLER and V.L. DURHAM were among those taking their dogs for a ride. DON CASH was cruising through Kountze. FANNIE RILEY, looking real sharp, as usual, was in Bob's Prescription Shop. Just a thought, but there ought to be something constructive we could find for SNEAKY SNAKE to do, other than to provide private escort services to young divorcees. Seems like a great waste of taxpayer's money and the city's time. JOE BEST makes a great doorman at the post office. JOE RILEY and JOHN SMITLEY were comparing notes Monday evening. STLAIGHT and NARROW "US" DON'T SPEED-NO ONE IS TRYING TO PASS YOU! This is courtesy of The Rev. TOMMY LATTI AND HIS WIFE. Did you know that you can make your own bath oil by taking flowers from your garden, putting the petals and leaves in a pottery jar, pour a little olive oil over them, store in a dark place after a week, use in the tub-as in a Roman bath. And, you can take the "burp" out of dry beans by cooking a whole, peeled potato with them (however, I suggest you don't eat the potato). JUDY WATTS looked great in green. Sundresses seem to be "in" this spring. BLANCHE RISINGER at JACQUES has some terrific ones in her window, as does the window of BIRDWELL'S in Kountze. VERA JORDAN stopped by for a brief visit. Missed my weekly chat with HELEN CRAVEN, who was out of town. JETHRO HOLMES is out of the hospital. The question was asked: If the government, through HUD, is going to pay 75% of the rent of low-income people, renting from individuals, won't this cause the rents charged for these residences to be raised? This is a good, logical thought, and should be checked out. Right now, there are vacant rentals, which are not being rented. Maybe they are waiting for this program to begin. What safeguards will be taken to see that exorbitant rents cannot be charged these people, since the government will foot the bill (which, in reality us, the taxpayer) for 75% of the rent. I think this needs to be looked into a bit further to insure that rents under this program do not suddenly skyrocket.
