THE TYLER COUNTY BOOSTER

Thursday, Oct. 18, 1979
Woodville, Texas, 75979
Vol. 52 No. 42 15¢

Ain't
It
Great!

By MIKE BURROW

This past week was homecoming week in Tyler County for two of our schools, Warren High School and Colmesneil High School, and it was really great to see school spirit at its highest at both locations. And, to make matters even better, both schools won their homecoming games Friday night! It was really the icing on the cake.

There was an attempt earlier to dampen the spirits at Warren, however.

Last Wednesday night, a few persons (who, by the way, aren't thought too highly of in Warren today) allegedly from Woodville, infiltrated the guard at the upcoming homecoming bonfire and set fire to the enormous wooden structure.

Unfortunately, they were successful and Warren lost their bonfire the day before it was to be set afire during the homecoming activities. But, instead of dampening school spirit at Warren, the act only served to spark new life to the affair.

All day Thursday students and adults alike worked like "Warriors" to build another bonfire and believe me, the second one was bigger and better than the first. More people than expected turned out for the "second burning" of the bonfire Thursday night. The school spirit displayed at this occasion was really fantastic.

Some of Warren's football fans were a little concerned about the Warriors being too overconfident after their victory over Woodville the week before. But, the burning of the bonfire seemed to ignite a new determination among the players that was carried on the field Friday night. The Warriors are turning into a real capable football team after a rather shaky start. They are a real pleasure to watch each Friday night.

Dr. Harold Herrington of Woodville is a real promoter of Tyler County. He seems to always be busy going to meetings in other areas and doing his best to keep our community in a favorable light elsewhere.

Herrington, who is active in Chamber of Commerce affairs here, came in last week and was very complimentary of the remodeling work we have undertaken at the Booster office.

He stated that he wished other business firms would join in the effort and make our entire community more presentable to visitors. He asked that I attempt to stir up a little interest along these lines; I am all for it Doc, now what's the next move?

A NOTE TO THE CURIOUS: A couple of us at the Booster were given a tour of the new Wal-Mart store last week by the store's manager, Harold "poop". Employees are busy stocking shelves with merchandise and it is obvious that the new store will be all the area citizens had hoped it would be. Watch the Booster for information about the store's opening, which apparently will be quite soon.

We are in need of correspondents for some areas of Tyler County. There is currently an opening for someone to write the Colmesneil News and we're anxious to initiate similar columns from Fred Spurger, Warren and Chester. Applicants need to be able to type and to have sincere interest in their communities.

Annual Scout Banquet Set For Nov. 1

The Dogwood District of the Boy Scouts of America will hold their annual banquet Thursday, Nov. 1, at 7 p.m. at the Camp Uriand dining hall.

Award presentations will be featured at the banquet. The banquet will be a covered dish affair. Persons interested in ribbons will be awarded the best Scouting are encouraged to attend.

SOME EGGPLANT—Little Traci Yawn, 2½, of Spurger shows off the eggplant her grandfather, George Suttle of Spurger, grew in the garden. The egg plant weighed in at more than three pounds.

Jordan To Attend Washington Meet

Joe Jordan, Spurger School Board member and President of the Southeast Texas School Board Association, has been invited to be a participant in a three day conference conducted by the Department of Education in Washington, D.C.

Jordan was one of four delegates from Texas to be selected to provide local Boards of Education input to assist in the newly created Secretary of Education Cabinet post.

Recent congressional legislation has removed public education from the Health, Education, Welfare Cabinet and created the single Department of Education with the executive secretary a full member of the President's Cabinet.

Reduction of paper work and less red tape in Title I and other federal school funds will be the request from Texas schools that Jordan will carry to the conference. The board members from all fifty states will provide assistance in helping to provide a smooth transition when the departments officially change on January 1, 1980.

As president of the Southeast Texas School Board Association, Jordan was active in the last session of the Texas legislature. He was the Spurger School's official delegate at the Texas School Board Convention in San Antonio last week, where he helped conduct workshop on public school finance.

Jordan has been selected to be one of the board of directors on the new county wide Tax Appraisal Board. He will represent the Spurger I.S.D. on the new board which every county in Texas is now in the process of forming. This new board also takes office on January 1, 1980.

The Woodville Volunteer Fire Department will holds its fourth annual Fireman's Barbecue Dinner Friday, Oct. 26, at the Fire Station from 5 p.m. until after the Woodville High School Homecoming football game with Kirbyville.

Tickets for the dinner are \$4. and may be obtained from City Hall, any fireman, Citizens State Bank and the Woodville Branch of Jaso Federal Savings & Loan.

The Art Classes of Kirby High and Wheat Jr. High Schools will display their Fire Prevention posters in the fire station during the dinner.

The banquet will be a covered dish affair. Persons interested in ribbons will be awarded the best.

Plans Underway

For Carnival

With Halloween just two short weeks away, the annual Woodville School Carnival plans are well underway. The Halloween Carnival will be held on Wednesday, October 31, from 5:30 to 9 p.m. at the old football field, and will be under the direction of the School Service League.

Booths are still available for games and food concessions. This is a terrific way for school clubs and classes to earn money, as well as sharing in a fun and safe Halloween night.

Those already signed up will offer the following:

Kindergarten: Fish Pond.

First Grade: Milk Can Toss and Fortune Telling.

Second Grade: Candle Squirt.

Third Grade: Hamburger.

Fourth Grade: Balloon-Dart Game, Bowling Pin Game, Washer Toss, and Fudge.

Fifth Grade: New & Surprising Grab Bags.

Junior Class: Jail House & Cake Walk.

Special Education: Special Prizes Raffle.

Athletic Booster Club: Dunking Booth and Sponge Throw.

FHA Club: Potty Pitch.

School Service League: Hot Links, Frito Pie, Cokes & Pickles.

There are also plans for a Spook House, even more exciting than last year's.

If one wishes to reserve a place for a booth, there is still time. Contact Sharon Speer at 233-5508 for details and information.

FUTURE FIREMAN—Eight-year-old Erin Newberry, son of Dennis and Dorothy Newberry, tries on a pair of Woodville Volunteer Firemen's boots Thursday at the first Pack Meeting of the year held during Fire Prevention Week at the fire hall in Woodville. The Scouts participated in an awards ceremony and heard plans for the coming scouting year. Fire Marshall Alvin Cook told the scouts about the importance of fire prevention.

City Council Increases Rates

The Woodville City Council elected not to increase the tax rate at their meeting October 9 but council members did decide to increase the fees charged city residents for water, gas, sewer and solid waste disposal.

The council set the tax rate at \$1.25, the same rate as the previous year.

The council members also voted to pass an ordinance concerning a rate increase for Gulf States Utility Company. Council members approved an 8.2 per cent increase for the utility company which goes into effect Nov. 3.

The council also increased the amount of deposit required for water and gas connections in the City of Woodville. They raised the deposit for water service from \$5 to \$25 and the deposit for a gas system connection from \$15 to \$50.

The following rate increases become effective with the November billing.

New water rates in the city are as follows: first 2,000 gallons or less,

\$5, unchanged. Second 2,000 gallons, .90 cents per thousand, an increase of .20 cents from .70 cents. Third 2,000 gallons, .85 cents per thousand, an increase of .20 cents from .65 cents. Next 14,000 gallons, .80 cents per thousand, an increase of .20 cents from .60 cents. All over 20,000 gallons, .75 cents per thousand, an increase of .25 cents.

New gas rates are as follows: Domestic, first 500 cubic feet, \$3 minimum bill, unchanged. All over \$3 per MCF, an increase of .25 cents from \$2.75. Commercial: First MCF \$5, unchanged. All over, \$3 per MCF, an increase of .25 cents from \$2.75. Industrial: All MCF, \$2.75, an increase of .30 cents from \$2.45. Southwest Gas District, 15 cents per MCF over city's cost.

New sewer rates are as follows: Residences, \$4 monthly, unchanged. All others based upon water consumption: first 2,000 gallons or less, \$5, an increase of \$1 from \$4. All over 2,000 gallons, 15 cents per thousand.

New fees for solid waste disposal are as follows: Residence, \$3.50, an increase of \$1 from \$2.50. Residences, on premises pickup, \$3.50, an increase of .50 cents from \$3.

(Continued on page 3A)

Woman Raped

A 56-year-old white female was raped and then robbed at knife point at her home Sunday shortly after returning home from church at approximately 12:30 p.m., according to Tyler County Sheriff's deputy George Reynolds.

Reynolds said that a young black male is being held in Tyler County Jail pending further investigation into the incident.

The woman was treated and released from Tyler County Hospital.

Deputy Reynolds said the man

escaped on foot. An extensive search

was conducted over a 10 mile area

before it was discovered that the

assailant had apparently gone to a

vehicle and fled. The Sheriff's De-

partment called in the Huntsville De-

partment of Corrections and they

sent horses and dogs to aid in the search

back in East Texas. Sponsors point

out that USTA and UIL are welcome to

for the suspect.

Reynolds said all available law enforcement personnel in the county open to any person, as long as they are

were also called upon for assistance, still in high school or college.

The suspect was arrested Monday at

his place of work, following a constant twirler to enter the beauty pageant.

One does not have to be a

23-hour investigation, Reynolds said.

Persons interested in partici-

pating in the competition should contact

Reynolds indicated that additional

information would be conducted Ada Holmes, P.O. Box 92, Warren

7764 or call 547-3133.

Twirler Contest

November 3

There will be an open National Baton Twirlers' Association twirling competition on foot. An extensive search contest and beauty pageant held

escapade on foot. An extensive search

was conducted over a 10 mile area

before it was discovered that the

assailant had apparently gone to a

vehicle and fled. The Sheriff's De-

partment called in the Huntsville De-

partment of Corrections and they

sent horses and dogs to aid in the search

back in East Texas. Sponsors point

out that USTA and UIL are welcome to

for the suspect.

Reynolds said all available law enforcement personnel in the county open to any person, as long as they are

were also called upon for assistance, still in high school or college.

The suspect was arrested Monday at

his place of work, following a constant twirler to enter the beauty pageant.

Editorial

Hunting Safety

Once again, during this fall and winter season, more than 20 million Americans will take to the open country to enjoy the ancient sport of hunting.

"More than 14 million Americans buy hunting licenses every year. With more hunters afield, the chance of accidents is even greater," said Gawn Bonner, Vice President for the Recreational Safety Section of Texas Safety Association.

More than 1,000 persons are killed in the field every year. Studies of the causes of hunting accidents show that most accidents can be avoided.

The knowledge of gun safety begins with a study of how they operate. The majority of shooting accidents in the hunting field happen at short range: ALL guns - from the BB on up - must be used with the same principles of safety that apply to the most powerful.

A true sportsman follows the 10 rules of Gun Safety; they are:

1. Treat every gun with the respect due a loaded gun.
2. Guns carried into camp or home, or when otherwise not in use, must always be unloaded. Unattended guns should always be unloaded.
3. Always be sure barrel and action are clear of obstructions.
4. Always carry your gun so that you can control the direction of the muzzle, even if you stumble. Keep the safety on until you are ready to shoot.
5. Be sure of your target before you pull the trigger.
6. Never point a gun at anything you do not want to shoot.
7. Wear a safe color. The best is daylight fluorescent orange.
8. Never climb a tree or a fence or jump a ditch with a loaded gun.
9. Never shoot a bullet at a flat, hard surface or at the surface of water.
10. Avoid alcoholic drinks before or during shooting.

"The true sportsman gladly teaches the younger generation the responsibilities of gun ownership. He cooperates with all wildlife and law enforcement agencies. He respects the rights of property owners. And, most importantly, he is far less likely to become just another statistic by the end of the hunting season," Bonner commented.

Texas Safety Association urges all hunters to recognize the responsibility of safe handling of firearms.

Operation Lifesaver Educates Motorists

One of our every 12 car-train accidents results in a fatality in Texas.

Operation Lifesaver, sponsored by the Railroad Section of Texas Safety Association, is seeking to educate motorists to help reduce accidents and fatalities at highway-railroad grade crossings.

Grade crossing accidents account for 65 percent of total railroad fatalities. Failure of motor vehicle operators to exercise caution or to observe existing laws and regulations is the principal cause of these accidents. All 14,700 grade crossings in Texas warn drivers by one or more "Lifesaver" signs: the octagonal stop sign, X-shaped crossbuck, yellow and black advance warning sign, flashing lights and bells and automatic gates.

Nearly all grade crossing collisions occur within 25 miles of the driver's home. In more than 45 percent of accidents, the drivers disregard the mechanical warning devices.

Most collisions occur when trains are moving at extremely slow speeds. This is due to motorists misjudging the train's speed. The train's weight and speed prevent it from stopping as readily as a car.

Arthur Ziev, Operation Lifesaver State Chairman, is working to improve grade crossing conditions. "I intend to propose program additions for the end of this year and next year," said Ziev.

"My goal is to work with state governmental agencies, the railroads and various other associations and safety groups around the state to gain support and participation." Ziev also said he will work to gain exposure during Texas Grade Crossing Safety Week, October 21-27.

Operation Lifesaver has the support of Texas' railroads. To be effective, it needs support and cooperation from all Texans. Texas Safety Association and Operation Lifesaver urge all motorists to heed all grade crossing signs.

Alan Miller's

T-WHEELER

This column has marveled often at the incredible lengths various federal agencies will go to in regulating our daily lives.

We now know that cigarettes are bad for health, we can't eat everything we eat or drink can give us cancer. And most of the things we touch as well.

These regulations, which are added to daily, are costing all of us by the federal government's reckoning, upwards of \$130 billion dollars a year. It adds one percent to the inflation rate, already at a back-breaking thirteen percent, and going higher.

In earlier columns, we mentioned some of the various agencies that regulate our daily lives.

Requiring all business firms to assign an individual number, fill out a form on each line, indicating to the Department of Energy that they are indeed at the proper temperature, and expected to pay a fine if they are not.

Who in heaven's name in Washington, D.C., is cataloging all this information? Is it programmed into a computer somewhere? Why? Millions of farmers in a warehousing rich on this project are the federal printers.

But he is the latest one we have heard about, and it puts the others to shame.

It has to do with the red headed woodpecker. No the ivory bill, which either is or isn't extint, depending on who you listen to. Not the piliated one, that is on the endangered species list, but the red headed woodpecker, who is not on the endangered species list, but the federal Trade Commission, which guards us from deceptive advertising is picking a fight with the plywood industry, and it's alleged neglect of the extensive harm a woodpecker can do to a piece of plywood, i.e., exterior siding on your house.

White also answered a request from Education Commissioner Alton Bowen to speak at the same

half expansion of bilingual education until educators can tell if it's working. Bowen asserts that the mainstream language English should be stressed in schools and that the responsibility lies with parents.

He was not opposed to bilingual education, which is currently taught up to third grade, but had doubts about how far to extend in Texas schools. "I am for bilingual education, but I am not for it being taught up to third grade," he said.

He also commented that coal fires

in Peking contribute to massive air pollution. If we're unhappy with our environmental standards, we should spend a few days in Peking. You'll learn to love our Air Control Board," Hobby quipped.

KENNEDY LEADS TEXAS

Tom Harkin told a United Press International conference in Houston that Massachusetts Senator Edward Kennedy would defeat President Carter if Texas held a Democratic presidential primary next year.

But former Texas Gov. John Connally, who is still a senator, doesn't matter who wins the race between Carter and Kennedy. Connally is going to be the next president.

Connally blasted Kennedy as being a liberal Democrat in any who, and said he won't let voters forget Kennedy's leftist leanings.

Meanwhile, a Texas campaign

management firm concluded last week that a Republican presidential candidate running Connally, George Bush, could pull in 10 million voters, more than the 500,000 who voted in the 1976 Republican primary.

BENTSEN BACKS CARTER

Despite the large following which Carter is not to be counted out, the Texas Constitution does not allow the legislature to abolish the constitutional office of treasurer. The opinion was requested by State Treasurer Warren G. Hardin.

White also answered a request from Education Commissioner Alton Bowen to speak at the same

half expansion of bilingual education until educators can tell if it's working. Bowen asserts that the mainstream language English should be stressed in schools and that the responsibility lies with parents.

He was not opposed to bilingual education, which is currently taught up to third grade, but had doubts about how far to extend in Texas schools. "I am for bilingual education, but I am not for it being taught up to third grade," he said.

He also commented that coal fires in Peking contribute to massive air pollution. If we're unhappy with our environmental standards, we should spend a few days in Peking. You'll learn to love our Air Control Board," Hobby quipped.

HISPANIC REACTION

The Tyler County Booster is an independent publication which stands for what it believes to be right and opposes what it believes to be wrong. It has no affiliations, political or otherwise, which can interfere with its editorial policy or its handling of news.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this newspaper will be corrected upon being brought to the attention of the publisher.

Speculation continues about the 1980 race for Speaker of the House. Among those thought to be in line are:

Thomas K. Minter

Funeral services for Thomas Keith Minter, 29, of Spurger were held Sunday, Oct. 14, at 4 p.m. at First Baptist Church of Spurger with Emmis Kirkland and Walter Becker officiating. Burial was in Beech Creek Cemetery.

Minter died Friday at 8:30 p.m. in a two vehicle collision south of Spurger. Born in Silo, he made his home in Spurger and was an operator for Goodyear Chemical Co. in Beaumont. He was a graduate of Spurger High School and a member of the First Baptist Church of Spurger for 10 years.

Survivors include his parents, Mr. and Mrs. B.M. Minter of Spurger; one son, Andrew Minter of Spurger; two daughters, Nicel and Shannon Minter of Spurger; three brothers, Jerry Minter of Woodville, Mike Minter of Woodville and Melvin Minter of Groveton.

Pallbearers were Floyd Hawkins, Rod Coozier, Kit Copeland, Kenneth Ewing, Tommy Jordan, Bill Perkins, Harold Standley and Lawayne Willis.

THE CHURCH IN GOD IS PREPARED AGAIN IN THIS WORLD FOR SPREADING THE KNOWLEDGE OF HIS LOVE FOR MAN AND FOR THE DEMAND FOR MAN TO RESPOND TO THAT LOVE BY LOVING HIS NEIGHBOR. WITHOUT THIS PREPARATION IN THE LOVE OF GOD, OR GOVERNMENT OR SOCIETY OR WAY OF LIFE, MAN IS AN INFERIOR PERSON AND THE FRIENDSHIP WHICH WE HOLD FOR HIM IS AN INFERIOR FRIENDSHIP. EVEN FROM A RELIGIOUS POINT OF VIEW, HE SHOULD NOT BE BORN FOR THE LOVE OF THE CHURCH OR THE CHURCH BECAUSE IT TELLS THE TRUTH ABOUT MAN'S LIFE, DEATH AND DESTINY, THE TRUTH WHICH ALONE CAN SET HIM FREE TO LIVE AS A CHILD OF GOD.

Meet The Thicket
We have a fascinating friend we'd like you to know. Our friend's name is the Big Thicket, a primitive and beautiful land that's our neighbor in East Texas. Unique to North America, the Big Thicket is a place where plants from tropical rain forests and temperate grass lands grow side-by-side. There are more than 30 different kinds of birds here. Come and meet the Big Thicket. It's a friend you'll want to keep.

How about writing some other friends of the Thicket for specific information about your visit to a wonderful place?

Historical Marker Honors Bradford Davis Family

A Texas Historical Market for The Bradford Davis family was erected at the Davis-Wingate Family Cemetery about 1925. The marker is the second to be placed in the family cemetery. An earlier one was placed there in 1920 for Terrell Davis, of Winkfield, who was master of ceremonies for the dedication and prayer of dedication was given by his son, Dr. Bradford Davis of Fort Worth. Other family members, who were present, include Bradford's daughter, Karen of Arlington; Lynette and Jim Gamey with their daughters, Laura and Susan of Woodville; and Mrs. Luther Davis with their sons, Thad and Peter, of Houston.

After the brief dedication program at the cemetery, the family gathered for lunch at the Grandland Community Center with about 40 relatives and enjoyed the company of many descendants.

The new marker is the second to be placed in the family cemetery. The marker is inscribed as follows: "In 1885 Brad. A. (1825-1888); Brad. from Ford (1831-1866); and James Jones (1836-1886) are buried here. John A. married Isabella Wingate (1829-1866). He was a farmer, gin operator, merchant, tanner, river boat captain, and cell-wall contractor. He also had a large amount of phosphorus decays. Heavy rainfall during the fall and winter rapidly leaches the remains of the phosphorus from the plants."

High-phosphorus minerals (above 12 percent) with about four percent magnesium are the animal offal, which is digested and metabolism of plant nutrients. Minerals that are higher in calcium percentage wise, as phosphorus, do not affect the phosphorus shortage. Grooms urges producers to check the calcium-phosphorus ratio. High Calcium minerals are most widely used because they are cheaper. The dollars saved in purchasing high calcium minerals are usually very expensive because animal performance is reduced. Adequate phosphorus has been shown to increase weaning weights and cow weights at birth. Proper mineral supplementation is a must if the cow is to produce at optimum efficiency.

Delegates selected from the local unit who will be attending the two-day convention are: Brad. A. (1825-1888); and Alba, the old cemetery and Abita, the new cemetery. Sectional meetings on teaching methods will be held on Friday along with exhibits.

STORE COUPON

20¢ off Gulfpride Single-G

TO RETAILER: For each coupon you accept on the sale by you of Gulfpride Single-G Motor Oil, we will pay you the value of this coupon plus \$1 provided your customer has complied with all the terms of this offer and you furnish us with accurate evidence to Gulf Oil Corporation of invoices proving purchase of sufficient stock within ninety days prior to the coupon date. WARREN HOMECOMING--Members of this year's Warren High School Homecoming Court are from left, Judy Hart, Sandra McNeely, Cindy Moore, Brenda Brocato, Elaine Conner, Queen Jo

Ann Callaway, Flocce Wilkerson, Susan McLain, Lana Rhodes, and Candy Cravy. In front are Greg Powell, crown bearer, and Stephanie Yawn who served as flower girl.

High Taxes Hit Oil Companies

Taxes took over 70% of the total revenues generated by 48 oil companies studied by the publication ENERGY WEEK. Congressman Jim Collins of Texas said in a speech to the House of Representatives:

The study showed that \$64.33 billion went to taxes, both American and foreign, national and local. Employees' pay and benefits after taxes took \$14.319 billion; dividends after taxes were \$4.823 billion; and \$8.192 billion were the earnings of the 48 oil companies after dividends. This comes to a \$91.665 billion total.

Government taxes are getting over 70% of the money the oil companies generate while stockholders are only getting 5.3%. That is almost 14 times more to taxes than to the stockholders," Collins said.

The only solution to the energy shortage and gaining energy independence is to allow the oil men to have the incentive to drill for more oil reserves. We have to do control the price of oil immediately and let

Americans find more oil in this country. The Administration's Windfall Profits Tax Plan would add another 60% tax on the U.S. oil companies in addition to what they are taxed now. What Congress needs to do is attach a plowback tax credit so oil companies can put all their profits back into finding and drilling for more oil," Collins said.

The Texas congressman noted that the ENERGY WEEK study did not include the expense to the oil companies for the purchase of services, equipment and supplies.

Collins said in his speech that ENERGY WEEK, whose publisher is Ernestine Adams, noted that the 70.2% estimate of the government's share is "very conservative."

"This total does not include what is paid by the suppliers' stockholders in sales, property and school taxes nor does it include the taxes related to equipment and services that oil companies purchase," Collins, a member of the Energy Subcommittee, said.

HOMECOMING QUEEN--Jo Ann Callaway is presented flowers by Brenda Heiselbetz at Norman Callaway, Jo Ann's father, looks on during halftime ceremonies Friday night at Warren High School.
