KITTY COULD RETIRE OF A WILLON DOLLARS.

THE NEW TAX-DEFERRED INDIVIDUAL RETIREMENT ACCOUNTS—IRAS

Kitty doesn't have much money these days. But if she had a tax-Account (IRA) at our FULL SERVICE BANK she could have a lot of money in the days to come. By depositing just \$19.23 toward an IRA every week, she could end up with \$255,800 in 30

That's worth repeating: A deposit of \$19.23 a week could

total \$255,800. Of course, because the maximum allowable yearly investment

has been increased to \$2,000, it's possible to earn even more..... Making deposits by the week, by the month, or whatever is most convenient.

But whatever she invests could soon be earning high-yield interest to help make her golden years a lot more golden.

And, because our Individual Retirement Accounts are taxdeferred. Kitty could deduct each of her yearly investments from her taxable income. So she'd pay no federal taxes on her IRA until she starts withdrawing funds (minimum age: 591/2).

Then when she retires, she'll probably be in a lower tax bracket, paying lower taxes.

If you'd like to set up an affordable IRA, come talk to the profes-
