CAPITOL UPDATE

John Lewis U.S. SENATOR FOR TEXAS

When the President signed the budget for fiscal year 1983, he was taking into account the fact that the Congress would be in session for only 100 days...

The House of Representatives passed the bill on January 12, 1983. The Senate passed the bill on January 13, 1983. The bill was signed by the President on January 13, 1983.

The bill will have a major impact on the federal deficit. It will also have a major impact on the federal budget.

The bill will also have a major impact on the federal economy. It will also have a major impact on the federal government.

The bill will also have a major impact on the federal environment. It will also have a major impact on the federal education.

The bill will also have a major impact on the federal health care. It will also have a major impact on the federal social security.

AUSTIN - The fire at the Capitol is old news, but tragedy that it was, it would have been a catastrophe. The initial draft that it always present in the state walls and elevator shafts allowed the fire to spread rapidly.

There is never a good time for a fire, other than a fireplace on a cold day. If this one had to happen, we are fortunate that it occurred early in the season before things get hectic.

Lieutenant Governor's apartment that was gutted by the fire. After the fire was put out, the area was inspected for damage. It was decided to close off all of the area behind the chamber and gallery on the second and third floors.

Practically everyone who is involved in the Senate operation has taken this as an article. This includes the Lieutenant Governor, members of the Senate, central staff of the Senate and members of the various Senators' staffs.

It does seem that tragic circumstances bring people closer together. That certainly has been the case in the Texas Senate.

I do hope you will come by for a visit when you are in Austin, because it's always a pleasure to visit with those whom I represent.

The history of drafting has drawn a lot of interest in recent years. The history of drafting is a long and interesting one.

This Land Is Your Land

By Gary Mauro, Texas Land Commissioner

One of the top priorities of my administration is the immediate improvement of the Veterans Land Program. Although I have been in office less than 45 days, an emergency appropriation has already been submitted to the Texas Legislature to eliminate the waiting list for loans and inform all Texas Veterans of the benefits of the Veterans Land Program.

We now have over 1.6 million veterans in the state, including over half a million Vietnam era veterans.

Since the program's inception at the end of World War II, over 90,000 Texas veterans have participated in this low interest loan program for purchasing land. Yet for all the success this program has had in the past, this valuable program needs to be upgraded to meet the modern demands of all Texas veterans.

In our emergency proposal, we have asked the Texas Legislature for a \$19 million appropriation to meet the immediate needs of the land program and for other improvements in the General Land Office. When I took office on January 3, 1983, we had 14,000 veterans on our waiting list. Our plan calls for the complete elimination of this waiting list by March 1, 1983. From that point on, veterans will be able to obtain an application without being placed on any waiting list.

Veterans who have processed loans in the past through the Veterans Land Program know that it has taken as long as 18 months in some cases to complete the loan transaction. Very few veterans are willing to accommodate a buyer under

these conditions. That is why we are determined to not only eliminate the waiting list, but reduce the time it takes to close a loan to less than 90 days.

The Veterans Land Board will also establish a Veterans Outreach Program. The Veterans Land Office will have five field representatives who will be located in all areas of the state. These trained professionals will meet with individual veterans to expedite their loan applications. They will also meet with local officials, county service officers, local veterans organizations, and other interested citizens to inform them about the Veterans Land Program.

With over 300,000 Vietnam era veterans in the state, it is essential we do everything within our means to inform them and all our Texas veterans of the benefits under this program. They benefit with the purchase of the land, but the entire state economy also gains as a result. With the next 10,000 loans approved by the Veterans Land Board, another \$200 million is generated into the Texas economy.

If the legislature grants our request for the emergency appropriation, we will be able to eliminate the backlog and

place this program in a position to meet the needs of all Texas Veterans. As I promised during the campaign, we will run the Veterans a favor, just copy one.
