SERVING TYLER COUNTY SINCE 1930

August 16, 1984
Woodville, Texas 75979

Cain Civil Rights Trial Ends

The county... Cain lawsuit... County Attorney... Hardy Tuesday... morning to be "probab- ly around \$20,000, the total is already over \$15,000 and we haven't got all the bills in yet." In the Cain lawsuit a six member Federal District Court Jury ruled Friday evening in Judge Earl Hines Court in Beaumont that Tyler County, its Sheriff Leon Fowler, and Deputy Sheriff Roger Byars did not violate the civil rights of Woodville resident Thelma Cain when she was arrested in Jan- uary of 1982 on charges of harassment. Cain had contended that Fowler and his deputies had not allowed her to See Page 8-A

City Council Hears Tax Protest

A group of about 20 commercial property owners in Tyler County have already hired a lawyer and plan to file suit against the County Appraisal Board" according to Woodville City Councilman Dr. Malcolm Radford, who is the city's representative on the Tyler County Tax Appraisal Board's Directors. Radford, presenting the Council with a report on the Appraisal Board's activities admitted, "we had some poor appraisal work, especially on commercial prop- erty" and also infor- med Woodville city fathers that the certified tax role needed to set tax rates and pre- pare next year's bud- gets would be out around August 25 and Radford. "We would have had it earlier except for negotiations on settlement of a See Page 8-A

Rotary Gov. Fosdick Here

"Discover a New World of Service" was the subject of an address to the Rotary Club of Woodville on Wednesday, August 8, by Dick Fosdick, governor of Rotary District 591. Fosdick, of Texas City, Texas, conferred also with Robert Allison, president of the local club, and club officers on the group's service activities this year. Fosdick is one of the 425 Rotary governors throughout the world who are representatives of Rotary International in districts composed of member clubs. Each district governor supervises the clubs in his area. A member of the Rotary Club of Texas City, Fosdick was Plant Manager and Branch manager of Borden Chemical Div. Fertilizer Operations and Merchandising, in a four state area including Texas, Louisiana, Oklahoma, and See Page 2

BLACK CREEK BRIDGE—Under construction, the Black Creek Bridge located north of Warren is expected to cost \$83,000 is inspected by Tyler County Judge Allen Sturrock and Commissioner Precinct 1 Maxie Riley. The two county officers are shown above inspecting the 5.3 miles of road construction and high bridge culverts paid for by \$400,000 of Federal Community Development Block Grant Funds.

DETDA Will Meet August 24

The Deep East Texas Development Association, announced today that John F. Jadrosich, Public Information Officer with the Trinity River Authority of Texas from Arlington, Texas will be the principal speaker for this monthly meeting. Mr. Jadrosich received a B.A. Degree in Journalism from Texas Christian University in 1968. Honors received are as follows: Served as Editor, Sports Editor, and Circulation manager, the Skiff TCU student newspaper, President TCU student chapter Society of Professional Journalists, Sigma Delta Chi. Mr. Jadrosich served in the United States Air Force from July 1968 to November 1974. In his collateral function as a Squadron level Information Officer, he prepared press releases, produced class books, audio visual presentations, functioned as media liaison and completed speaking engagements for military and civic organizations. Mr. Jadrosich was awarded the Distinguished Flying Cross with One Oak Leaf Cluster (OLC), Air Medal with eight OLC's, Air Force Commendation Medal, Presidential Unit Citation, Air Force Unit Citation, National Defense Medal, Coast Guard Commendation Medal and Vietnamese Cross of Gallantry. He has been with the Trinity River Authority of Texas since May 1975. As Public Information Officer for TRA, he performs the full range of public relations activities with emphasis on writing, public speaking, photography, and event coordination. As manager of the Authority's Public Information Division, he is specifically accountable for: Assisting all components, Directors and management officer with media relations; preparation of press releases, special feature, speeches, statements and position papers. He also publishes a monthly newsletter, INTRA, about the Authority and its employees. He is responsible for reviewing all newspapers from within See Page 3

'84 Fair In Final Stages

The 1984 Tyler County Fair is well on its way with its preparations in the final stages. Ben Worthy, General Chairman, along with the committee members have been working diligently to make this year's fair a great success. Don Barker will be in charge of the Livestock Show; Doris Davis is over the Commercial Booths; and Elsie Stewart and Elene Melancon will be in charge of the Adult Canning Show and the Handwork. The fair will run October 4 through October 6. we are fortunate to have Crabtree Amusements for the carnival. This will be the largest carnival we have ever had at the Fair. The See Page 6

"WOMEN'S CONCERNS—and government's response to those concerns" was the topic of a public meeting held Thursday at the Tyler County District Courtroom. The meeting was sponsored by the Governor's Commission on Women. Commission members Ann Simmons of Galveston (left) and Carol Nasworthy (right) are shown above with Justice of the Peace Precinct 1 Wanda Brasher, a local organizer. About 30 persons attended this meeting.

SCHOLARSHIP RECIPIENT—President of the Tyler County Hospital Auxiliary DeDe Cordes (left) is shown presenting a \$1200 scholarship to Karen Porter, daughter of Mr. and Mrs. Herschel Porter of Woodville as a result of monies raised from the sale of the Auxiliary's "Country Caper" Cookbook.

By Tracy Mason,

Sidewalk Soundoff

This week's Question:
Do you think the U.S.A. would have won as many gold medals if the Russians had attended the Olympics? Why?

"Probably, I would have to work harder for them than they seem to be now. The Russians are a tough competitor."

Gretchen Carnley
Waitress
Woodville

"I think they would have given them a good run. But the U.S.A. is the best in my book."

Frances Dumesnil
Waitress
Woodville

"Yes, because the athletes trained long and hard to win as many as we have already."

Missy Ayers
Dishwasher
Woodville

"No, because there was much competition as the Americans and the Russians."

Mark Torres
High school student
Woodville

"Yes, because this year's Olympics were well organized, and we have the best athletes in the world."

Frank Trojanowski
Carpenter
Hobby Lobby

"No. With more contestants for the medals, fewer will be won by any team or contestants."

Wallace Smith
Store manager
Woodville

PERSONAL & FAMILY accent on tyler county

Freeman - Partee United In Marriage

Miss Mary Ann Freeman and Mr. Goodloe Malone Partee, IV, were united in marriage on Saturday, August 11, 1984, at seven o'clock in the evening. The ceremony was held at the First Baptist Church Chapel, Woodville, Texas. Music was provided by Dr. James S. Jinnette and Mrs. Judy Ruth Houston.

Given in marriage by her brother, Mr. Don Freeman, the bride chose a white silk crepe de chine gown. It featured a sweetheart neckline with hand beaded re-embroidered sleeves of French lace. The full circular skirt fell from a waistline accented with pearls which swept into a cathedral train.

Her fingertip veil adorned with appliques of Alençon lace, she carried a cascade of white roses, white daisy poms, and ming ferns. The Matron of honor was Mrs. Melissa Lane and Mrs. Clyde Freeman of Woodville. Her dress was of Mediterranean and blue taffeta. The gown son of Mrs. Goodloe Malone Partee, III, of Little Rock, Arkansas, by a shirred girdle, and Mr. Goodloe Malone Partee, III, of German-double ruffles. The ceremony was completed the grandson of Mr. and Mrs. Robert F. Glussen Jr. of Memphis, Tennessee. The bride carried a vibrant nosegay of white cornflowers, hot pink roses, carnations, statice and ring ferns.

Best man was Wallace Nelover, brother of the groom, of Lubbock, Texas. Ushers were David Snowden, Jr., of Little Rock, Arkansas, and Greg Fitzgerald, of Waco, Texas.

A reception followed at the home of the bride, included in the houseparty were Mrs. Janay Rainey Woodville, Mrs. Kim Nagral, Woodville; Mrs. Kim Smith, Huntington; Mrs. Sherry Tracey, Newberry; Mrs. Marian Ballard, Houston; Miss Donna Clark, Garland; and Miss Alesia George, Dallas.

After a wedding trip to Lupton, Dallas, the couple will reside in Waco, Texas.

Mrs. Goodloe Partee, IV

Reception Honors Russell Cronin

A retirement reception honoring Russell Cronin was held at the home of Mrs. and Mrs. Barry W. Johnson in Nederland on June 30, 1984. Mr. Cronin retired after 29 years of service as band directing in Louisiana and Texas. He was the junior band director in Woodville for ten years and in Warren for one year.

Approximately 400 friends and family members were present at the reception to wish him well in his retirement. Many of the trophies and awards won by Mr. Cronin's bands were on display. Some of the moments of this very successful career.

The party was hosted by Mrs. and Mrs. Barry W. Johnson of Nederland, and Mr. and Mrs. Don Stroker of Warren, and Mrs. and Mrs. Cronin, III of Orange.

Hillister Happenings

Friends of Jim were here Sunday to see Mathews were saddened Mrs. Bessie Huggins. Visiting Mrs. Alma Ruth's death Sunday. Wiggins during the Jim and Ruth living in week were Mr. and Mrs. Hillister many years William Payne and Mel during their early life. Mr. and Mrs. Lola Flowers Gene Gay Lisa and Leo was glad to have her of Beaumont, and Mrs. and Mrs. Crockett Luce Jackson.

Mr. and Mrs. Bill Westenhiser are enjoying their granddaughter Billy and Libby Wechsler who have been visiting Mrs. and Mrs. Luth's death Sunday. Wiggins during the Jim and Ruth living in week were Mr. and Mrs. Hillister many years William Payne and Mel during their early life. Mr. and Mrs. Lola Flowers Gene Gay Lisa and Leo was glad to have her of Beaumont, and Mrs. and Mrs. Crockett Luce Jackson.

James DeRamus of Carthage with his son Anthony of Grandland, Butch and Beverly Grading, Becky, Kim and Mike of San Marcos, Ronald and Joann Holt of Houston spent Thursday and Friday with his parents, Mr. and Mrs. Sidney Holt.

Here for the weekend with Mr. and Mrs. Tom Cappell were their daughter and husband, Sue and Bob Wade and Sally and Rex Hogue of Dallas.

Chance of Port Arthur were here Sunday to see their grandmother, Mrs. Bessie Huggins.

Handley-Howard Exchange Vows

Miss Khandi Handley and Mr. Jesse Linn Howard were united in marriage Saturday, August 11, 1984, at 8:00 in the evening in the sanctuary of the First Baptist Church of Colmesneil.

The candlelight and double ring ceremony was performed by Dr. Youngblood and the late Mr. Youngblood of Colmesneil. Mr. Youngblood of Colmesneil is the son of Mr. and Mrs. W.E. Howard of Warren and the grandson of Mr. Lee Hegwood of Beaumont.

Registering guests for the ceremony was Miss Tamara Rivest of Colmesneil. Providing music before and during the ceremony was organist Ann Barton of Jasper. Accompanying Mrs. Barton on the piano for the traditional Wedding March was Virginia Brack of Jasper. Virginia also provided songs throughout the wedding of Lupton, Texas. The bride carried a cascading bouquet of creamy white sunshinellilies, stephanotis, trailing orchids, pink sweetheart rosebuds, seed pearls and English ivy.

Mrs. Jesse Howard

Shopping With Diane

Half the fun of going back to school is getting some special new things to wear. Styles are more versatile and exciting than ever. Even jeans have taken on some snappy new looks. Tyler County merchants are well stocked and ready. Let's go shopping!

SLIPPING UP - If you're at least as old as I am-and I'm just a kid-you've probably looked back in the old family album and wondered how great grandma or even grandpa managed to get much done wearing all those clothes. They weren't smiling much in those days-not in the pictures anyway. You wonder if the outfits had something to do with that.

You also wonder thought how it felt to be decked out in a truly feminine outfit. Those long skirts, full slips, and button-up blouses. They were appealing.

It doesn't come as much of a surprise that the hottest back-to-school look combines the nostalgic appeal of the past with the smart, comfortable styling of the present.

To see how it's done, stop by The Image Boutique, 206 South Magnolia, and ask Myrtle Mastadale to show you the new lines by Tai Too.

One four-piece outfit by this California company is a real dazzler. To complete the look you'll need the skirt, blouse, undershirt and slip.

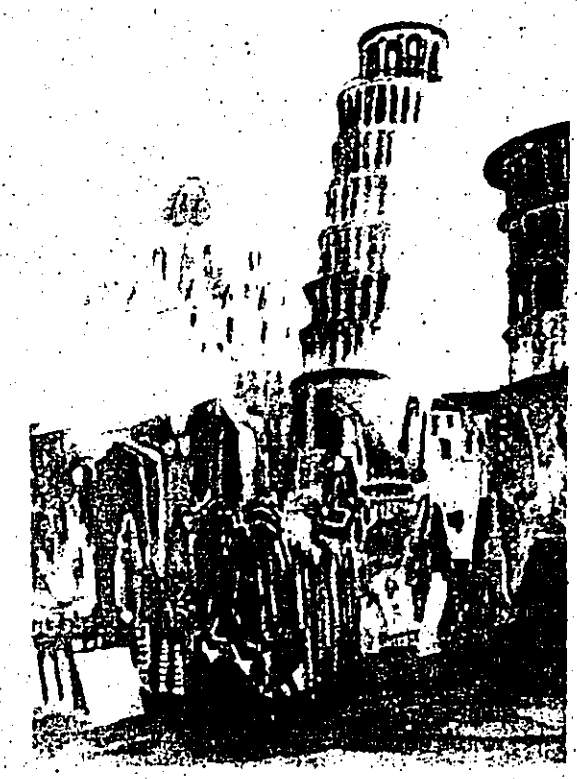

The two undergarments are white, made from a polyester/cotton blend and are designed to "show". By unbuttoning the blouse and the button-front gathered skirt, you decide how much.

The matching skirts and blouses are in bright, bold plaids and are made from a polyester/cotton blend. The entire outfit is machine washable. For a really fun look to complete your new outfit, Myrtle suggests girly short-top boots with turn-down socks. One complement that surely deserves another.

Other popular back-to-school looks that can be found at the Image include: plaid blouses with coordinated sweater vests, sweaters with animal motifs and jeans with khaki insets.

DETDA To Meet

The Authority's territory is open to individuals, free to do so. The Association, public and DETDA office is located in private group, built in the One Nineteen neases, industries, and Building in San August government agencies, and is open on Monday if you are a member of day, Wednesday, and the Association and Friday, from 9 a.m. until 4 p.m.

Watercolor by Doretta Gilchrist

Gilchrist To Exhibit Artwork

State Exhibit sponsored by the Beaumont Art League in both of which she has won top awards. She had a one person show at the Beaumont Art League galleries in Texas and has exhibited numerous other shows throughout the state. She is a member of the Beaumont Art Museum, the Texas Watercolor Society, and the Professional Artists Institute. New York. Her work is exhibited in many private and public galleries.

Scuba Class Begins August 22

The second scuba class begins August 22nd at 6 P.M. at the fire hall. The class will be instructed by Bill Childers, World Class Diver and instructor for NAUI. For more information contact Forrest Archer or Otis Fortenberry.

SOCIETY NEWS In By Friday, Out By Wed

During the night if they heard a strange noise they would shoot out in to the darkness and roll over and go back to sleep. They spent a lot of time until the following week-ends with Wayne, Brad, Earl and Knotty Smith's house. When they were not in the Swimming hole they would be having 42.

Sunny Dell News

Hope he returns soon in a good condition. His brother "Rusty" was a good fisherman and trap. He would put out a lot of traps and catch a lot of fish. He would go down to the swimming hole and get down of up Bill Rusty, Ennis, Geta and William would camp out on the Neches River.

Success With Lawns Starts With Soil

Natural grasslands usually "hates" up a large fraction of the total weight and bulk of the plant, and has the capacity to store large amounts of nutrients enabling grass to survive close cutting and even burning. In grass, as in few other plants, the tissue responsible for growth and cell division is located toward the base of the shoot. When clipped, it will quickly grow back from the base. For this reason, lawns will continue to flourish despite frequent mowing. Other unique features of a grass plant are its rhizomes and stolons. These horizontal stems grow either above or below ground sending out new shoots and roots. Grass is a unique plant in its stems, leaves are high in nutrients and energy. One of the most extraordinary features is the extensive root system. It is an important part of the lawn's health.

Today, professional lawn care operators have emerged and are providing the important service of fertilizing, weed and insect control. However, even these "perfect" lawns are still plagued with many unsolved turf problems. With our hot and dry weather, the grass management task keep our lawns watered at this time of the year in order for them to survive now as well as next year. Our lawns need at least two inches of water per week. A good watering schedule is to water once a week, heavy and for a week, and then water once a week, heavy and for a week. Early morning is the best time to water. If you water in the heat of the day, the water evaporates before it can reach the soil. A good watering schedule is to water once a week, heavy and for a week, and then water once a week, heavy and for a week. Early morning is the best time to water. If you water in the heat of the day, the water evaporates before it can reach the soil.

material and if you water late in the evening the plant material may not have time to dry before night fall and you can have a problem with fungus disease. I have a quantity of booklets entitled "Success With Lawns Starts With Soil" put out by the Ringer Research Company that I will be glad to mail to my readers if you would send a business size (#10) stamped, self-addressed envelope to "The Garden Editor", P. O. Box 5766, Richardson, Texas 75080.

Rotary Governor Here

From Page 1A Kansas. He took early retirement in July, 1981. He was elected to office at the Rotary International convention in Birmingham, England, in June of 1984 and will serve until June 30, 1985.

Rotary with more than 20,500 clubs in some 150 lands, is an organization of business, and professional men, united worldwide who provide humanitarian service, encourage high ethical standards in all vocations and help build good will and peace in the world.

Microwave Cooking

Main dish casseroles, desserts, vegetables and soups are among the delectable foods that can be quickly and easily cooked in the microwave oven.

To learn to appreciate and to use your microwave properly, here are a few tips:

1. Use the proper size container and utensils. Allow space for the expansion and bubbling which takes place in microwave cooking.

2. Lightweight utensils, such as those made with Udel polysulfone, make microwave cooking simpler. They're lighter in weight, they're transparent to microwaves.

3. Spoon off excess fat. Stir in taco seasoning, corn and tomato sauce. Cover with casserole lid or wax paper. Microwave at HIGH power five to six minutes. Let stand, covered, while preparing topping. In one quart casserole glass measure microwave water at HIGH power to boil. Stir in cornmeal and water. Continue to stir to blend well and until thickened. Spread over meat mixture. Microwave at HIGH power, uncovered, four to six minutes. Let stand three to five minutes. Serves six.

Hypertension: Threat To Your Life?
You could be one of the 35 million Americans who have hypertension which is silent killer. No blood pressure, tension fact is, most people can't tell if their blood pressure is up or down. That's because, hypertension has no symptoms and can be detected only by a blood pressure check. It's been estimated that of the 35 million people suffering from hypertension, only 18 million are aware they have it. And only five million have taken steps to control it. In addition, 25 million people are estimated to have "borderline" hypertension and probably require regular medical surveillance.

In 90 percent of hypertension cases, the causes are unknown. Heredity, race (more blacks are prone to hypertension than whites), and salt intake are definite risk factors; emotional stress, medication, obesity, sex, age, alcohol, and smoking are possible risk factors.

White hypertension cannot be cured; it can be controlled with medication. The consequences of failing to take the proper medication to control high blood pressure can be severe. It means you're especially prone to heart disease, stroke, or kidney failure.

Now, a new drug to control hypertension, Tenormin, from Searle Pharmaceuticals, makes it easier for many people to take their medicine. It takes their high blood pressure medication, especially those who must often take a number of other medications daily. One Tenormin tablet daily provides 24-hour blood pressure control consistently and predictably. This enhances compliance, which helps ensure that people with hypertension get the normal, active lives many years to come.

There will be special singing each night with Jerry Wayne Collier in charge of the special music. The singing group "God's Smile" from the First Baptist Church in Evadale will be there.

Saturday, August 26, will be fellowship and Homecoming Day. Services will start at 11 a.m. Saturday with dinner at noon. Fellowship will follow. A dance and there will be services Saturday night. The church will be in P.L. Campbell.

The GOLDEN YEARS
By Jeni Hehnke, Administrator
Are elderly people really more prone to sleep problems than others? The answer is yes, according to Dr. William C. Dement of Stanford University. As people get older, he says, they often sleep less at night and more during the day, take longer to fall asleep, sleep less deeply, wake up earlier and feel more tired during the day. Studies have found that up to 90 percent of people between the ages of 60 and 80 suffer from insomnia. Although older people take more sleeping pills than any other group, Dr. Dement warns that these may be of little help, particularly if insomnia is a symptom of some other problem. Among possible problems, which physicians should stage, are depression, drug or alcohol abuse, nocturnal myoclonus (the involuntary jerking of the legs) and medication side effects.

Gloria Steinem, one of the founders of the women's liberation movement, made a pledge on her 50th birthday. She said her efforts would be directed at age liberation. Age brings out a certain defiance in me and Mrs. Steinem "I can't imagine not wanting to live until I'm 120."

Remember when... June 28, 1981 CHS 1A made the first commercial color telecast.

Lake Area Outdoor Reports Hunting, Fishing and Lying

By "Double L" Luther Lowery

Fishing Reports

Lots of small bass were caught around the most on topwater baits early and worms later in the day. The small bass were schooling around the moss and were hitting very well but were too small to keep. Lots of people are still fishing the Pecker-wood Point area. My wife is home from the hospital now and I hope to fish some in another week or so.

Bass Club Report

The Woodville Bass Club held its August tournament on the 11th and 12th out of Hanks Creek on Sam Rayburn. There were 14 teams and one individual fishing. They caught 89 fish that weighed 115 lbs. 6 ozs. Pete Evans, Mike Stacey and C. W. Lofton were the only ones that limited. Pete Evans and Mike Stacey won first place with 20 fish that weighed 27 lbs. 4 ozs. Mike had 13 lbs. 12 ozs to Pete's 13 lb. 8 ozs. Bob and Robert West won second place with 11 fish that weighed 17 lbs. 8 ozs. C. W. had one that weighed 3 lbs. 10 ozs. Third place went to Joe and C. W. Lofton, they weighed 14 fish that weighed 17 lbs. 8 ozs. C. W. had one that weighed 3 lbs. 10 ozs. Ken Zorn and partner Hal Wilson were very close with 13 fish that weighed 16 lbs. 6 ozs. Ken Zorn increased his lead over Larry Skinner and Donald Tolbert as top club fishermen. In fact, Evans jumped from 6th to second place and Mike Stacey moved up from his 9th place. John Gilchrist is trying to make his contest with Billy Judetel close as he let Billy gain 2 lbs. 1 oz. on him this time. Billy still swears he will catch and pass John before the end of the year. Paul Thomas whipped me this time for the first time in several tournaments and that was because I could not fish this tournament. The September tournament is going to be a very interesting and competitive tournament. It is an individual, members only tournament. It is to be out of Caney Creek on Sam Rayburn on September 15th and 16th. This is a day only.

Baseball: The Rough Sport It's Cracked Up To Be

Football is supposed to be the rough sport but if you saw any of the game between Atlanta Braves and San Diego on Sunday, you must put baseball on par with football. It all started when little Pascual Perez of Atlanta hit the lead off batter in the first inning. Before it was all over, 3 San Diego pitchers were thrown out of the game for throwing at Perez. One pitcher even went behind his head. Perez was so quick that it took the third pitcher to finally hit him on the leg in the eighth inning. As the three San Diego pitchers were ejected from the game, so was their manager Dick Williams and coaches Ozzie Virgil and Jack Kralj. Atlanta bench-empying manager Joe Torre and pitcher Donnie Moore in the ninth inning as reliever Moore hit Greg Nettles of San Diego. After several big brawls, four pitchers, 2 managers, 2 coaches, 2 San Diego and 3 Atlanta players were ejected from the game. The home plate umpire cleared both benches before the end of the game, and policemen were standing on top of the dugouts. Several fans entered the game and were laying hens over on the back side of the place that furnished eggs to him and his neighbors. Lem was very proud of this place and it showed on his face as the church group arrived.

'Water - Most Precious Natural Resource'

Dear Fellow Texans: Over the years, our state and its citizens have prospered through an abundance of natural resources. However, in recent years, population and industrial growth have increased demand on these resources and have resulted in their depletion. Most noticeable and publicized has been our supply of oil and natural gas. Somewhat overlooked, however, has been our most precious of these resources - water. Today this depletion has struck home as a result of drought conditions, increased demand, and our water requirements and conservation needs will continue to multiply. This is why I implore you, my fellow citizens, to become more aware of the severity and magnitude of this problem. It will take your efforts and the efforts of your legislators combined to find a solution to the problem of our water conservation and development needs that will benefit all Texans.

in the months between now and the next session of the Legislature in January, this office and other lawmakers will be working to devise water development and conservation plans for legislative consideration. My staff is currently working with me in the process of contacting our elected representatives and transmitting your concerns and suggestions for addressing this critical issue. You and your future generations will be the major beneficiaries. Recipients of "Distinguished Student" honor must earn at least a 3.25 grade point ratio, out of a possible 4.0, during the semester. The student must also be registered for 15 semester hours. Students named to the list include: Pamela A. Kervin, junior, educational curriculum and instruction; and Lana L. Rhodes, senior, biology.

Kervin And Rhodes Named "Distinguished Students"

Two students from Warren have earned "Distinguished Student" status at Texas A & M University. Recipients of "Distinguished Student" honor must earn at least a 3.25 grade point ratio, out of a possible 4.0, during the semester. The student must also be registered for 15 semester hours. Students named to the list include: Pamela A. Kervin, junior, educational curriculum and instruction; and Lana L. Rhodes, senior, biology.

Applications Available For Pheasant Hunts

A total of 150 permits will be issued for 26 pheasant hunts to be held Oct. 26-28, Nov. 2-4 and Nov. 9-11. The cost of the hunt for these draws will be \$10 and the bag limit will be two cocks per day.

A Man And His Mule

By L.C. Lowery

My brother-in-law Clyde told me about his and his wife Dorothy making a four-hour with a church group from Enstace, Texas observing the good and bad of this small city. Enstace is larger than Doucette, but not quite as big as Colmesneil. They spent lots of time on a small five acre truck farm and flower garden right at the edge of the city limits. This place was a neglected five acres for years, and people used to throw trash and some garbage on it. It seems the owner thought their taxes were too high and also refused to clean it up. The owner finally gave it up to old Lem, the town drunk and handy man, if he would pay the back taxes they all agreed to do that and started cleaning it up. This all happened 3 years ago and Lem had worked wonders with the place. The old run-down house had been straightened up and white washed. The fence stood straight with new posts, and the land unbelievable. He was growing vegetables on one part of it and had a beautiful flower garden on some and had a bunch of laying hens over on the back side of the place that furnished eggs to him and his neighbors. Lem was very proud of this place and it showed on his face as the church group arrived.

It's That Time Folks!

All teams in the county and all 4A schools issued equipment on Monday, the head knocking for Tyler County schools.

1984 Olympic Gymnastic Medalists To Perform

The Tyler County Booster SPORTS Olympic Moments

By L.C. Lowery

The city of Los Angeles and the Olympic Committee must be very proud of the way the Olympic games were conducted. I didn't get to see the closing ceremony, but the opening ceremony had to be the most spectacular show ever produced. The time over the U.S. in recent years by volunteers is unbelievable. The genius that thought up all of it has to be praised and those few athletes that refused to participate for various reasons must be ashamed of themselves now.

New Emphasis On Physical Activity, Nutrition

America is becoming a nation of athletes. Recent studies show that 70 million of us are active in some form of physical fitness. Nearly half of all adults are now exercising at least three times a week. This trend is evidence of the physical "reawakening" that has taken over the U.S. in recent years. Everyone from government to corporations to private individuals is in on the movement. There is a President's Council on Physical Fitness and Sports Medicine. The U.S. Department of Agriculture held a Food and Fitness Fair in Washington, D.C. Emphasized was the importance of good food in conjunction with sound physical fitness programs to maintain health.

Health experts are in agreement on one point: a single factor plays a bigger role in the quality of athletic performance than diet. "Hereditary and training are also important. Along with new interest in active lives, Americans are much more aware of what they eat and drink. Another recent survey reported 54 percent changing to more nutritious diets. Daily servings from each of the "Basic Four Food Groups" is the diet formula recommended by most nutritionists. The four are: meat, milk, fruit vegetables and grains. Experts from the United Dairy Industry Association report that calcium is the principal reason for nutritional deficiency in many Americans. It's linked to periodontal disease, high blood pressure and osteoporosis. Calcium deficiency is particularly prevalent in women of all ages. The deficit can begin as early as age 18. A U.S. Health and Nutrition Examination Survey indicated that two-thirds of all women between 18 and 30 do not consume enough daily calcium to maintain the normal maintenance of cells and bodily functions. Dairy products, he notes, provide nearly 72 percent of the calcium available in the food supply. He cautions that insufficient calcium is the principal reason for nutritional deficiency in many Americans. It's linked to periodontal disease, high blood pressure and osteoporosis. Calcium deficiency is particularly prevalent in women of all ages. The deficit can begin as early as age 18. GULF STATES UTILITIES CO.
Energy is everybody's business.

The Language Of Giving Gifts

Gifts talk. What a man chooses as a Christmas gift for a woman is often more eloquent than words.

Perfume...he thinks she's exciting. A cashmere stole...he wants to take care of her. Brandy...an invitation to share a nightcap. A cedar chest says, "I want to spend the rest of my life with you."

Steepled in the romance of centuries, cedar chests have a genealogy that reaches back to early Egyptian civilizations. In Renaissance Italy some of the greatest artists were commissioned to decorate the elaborate carved chests of the period. Even the immortal Leonardo da Vinci is said to have lent his genius to the love chest of a wealthy nobleman's daughter.

Cedar chests came to America with the early colonists, says Linda Dalton, historian at the Lane Company, makers of the cedar chest. Here in the New World it became a traditional gift for a man to give the girl he was courting—a custom that's still going strong.

For young people who live in a small apartment short on storage space, there are not chests that double as a cocktail or coffee table. For the entrance hall of a house, there are magnificent oak chests, some long and low, others tall and imposing. Among the 100 different styles of cedar chests, there are chests with upholstered tops to provide extra seating, and chests to store blankets in at the foot of a bed or flank with lamps behind a sofa.

And who says cedar chests are only for the des-to-be? It's a great way to tell a wife of 20 or 20 years that romance is still alive and well. Cedar chests have gone, lovers' dreams and hopes for more than a score of centuries. A gift, it has a special meaning—a commitment and enduring joy.
