The GOLDEN YEARS
By Jeni Hehmke
Administrator

Our festivities celebrating the arrival of the New Year have their origins in ancient Roman times, when sacrifices were offered to Janus, the deity after whom January is named. Janus was the two-faced god who looked both back toward the past and forward to the future—not a bad role of thumb for our golden years.

Retired airline pilot Thomas W. "Bill" Tinkler recently took three letters aboard his propeller-driven airplane to carry from Newark, New Jersey, to San Francisco. The occasion was the 60th anniversary of through air-mail service from coast to coast. Until 1924, when airport lighting and signal beacons were introduced, the post office could only use planes during the day. The mail was transferred to trains at night. The first through-flight took 34 hours and 6 pilots; Bill spread his reenactment trip over 15 days with 17 stops.

The nation with the longest life expectancy in the world is Iceland, where newborn children can now expect to live 77 years.

Remember When? December 20, 1945—Tire rationing, started because of the wartime rubber shortage, came to an end.

Hints For Homemakers

Make The Most Of Your Utility Room Space

Whether you have a utility area for your laundry with room to spare or a nook where space is tight, planning can make the laundry job easier, more convenient and more pleasant.

With a greater number of women working outside the home, more and more members of the household are doing the laundry. They can save time and effort if laundry equipment and supplies are arranged to permit an orderly flow of work.

Make sure the washing area has sufficient storage space for detergents and other laundry additives: bleaches, fabric softeners and pretreaters. Allow space for clothes and pamphlets that advise you on laundry treatment, including a care label guide and stain removal chart.

Also, keep on hand an all-purpose cleaner like Formula 409 to keep grease and grime off surfaces in the laundry area. Just as important as keeping clothes clean is keeping the laundry area neat and orderly. You wouldn't want to put your clean clothes on a greasy shelf or counter, would you?

But there's a lot to do before clothes come out of the washer. You need space to prepare your laundry. So arrange enough room for storing soiled laundry, sorting, mending and general preparation.

Holiday Traffic Toll Estimates

The Texas Department of Public Safety has estimated that as many as 94 persons will perish in traffic accidents during the Christmas and New Year holidays. DPS officials said they anticipate 53 deaths during the Christmas period and 41 deaths during the New Year holidays.

Colonel Jim Adams, DPS director, asked motorists to observe speed limits, avoid driving after drinking and use seat belts.

"This joyous season will be ruined for many families because of traffic fatalities," Adams said. "Troopers and local police are working hard to increase the margin of safety for the motorist by ticketing speeders and removing intoxicated drivers from the roadways, but even the law abiding driver must have the good sense to look out for himself and his passengers. I firmly believe that the best defense against the intoxicated driver is a buckled seat belt."

Adams warned vehicle passengers not to take chances by riding with a driver thought to be under the influence of alcohol or drugs.

"A person's driving abilities can be significantly affected by alcohol long before the legal limit of intoxication is reached," Adams pointed out. "It's best not to drink at all if you plan to drive."

During the Christmas period last year, 34 persons were killed and the final total for the New Year Holiday was 39 deaths. Numerous others were injured seriously.

DPS officials advised motorists that during December of last year Texas had 284 traffic deaths and 18,238 injuries reported during the month.

"Twenty people died from traffic accidents on December 23, 1983 - just two days before Christmas," noted Adams.

"Law enforcement officers from across the state are hopeful this will not be repeated during the forthcoming holiday," said Adams.

The DPS reports additional troopers will be assigned where large volumes of traffic or additional accidents are anticipated.

"I have authorized Highway Patrol captains to utilize troopers from other services to augment the regular patrol if additional troopers are needed in a particular area," said Adams.

The DPS will conduct its "Operation Motorcade" starting at 6 p.m. on Friday, December 21 and continuing through midnight Tuesday, December 25, 1984. The effort will be repeated during the New Year holiday starting at 6 p.m. on Friday, December 28, 1984 and ending at midnight Tuesday, January 1, 1985. Each counting period is 102 hours long.
