the world began. (Acts 3:19-21)

THURSDAY: "Then Nebuchadnezzar the king was astonied, and rose up in haste. and spake, and said unto his counsellors. Did we not cast three men bound into the midst of the fire? They answered and said unto the

king, True, O king He answered and said, Lo, I see four men loose, walking in the midst of the fire, and they have no hurt; and the form of the fourth is like the Son of God." (Daniel 3:24-25)

FRIDAY: "And she shall bring forth a son, and thou shalt call his name JESUS: for he shall save his people from their sins." (Matthew 1:21) "For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord," (Romans

SATURDAY: "Great peace have they which love thy law: and nothing shall offend them." (Psalm 119(165) "Blessed are the peacemakers: for they shall be called the children of God." (Matthew 5:9) "...How beautiful are the feet of

them that preach the gospel of peace, and bring glad tidings of good things!" (Romans 10:15)

SUNDAY: Repent yetherefore, and be converted that your sine may be blotted out, when the times of refreshing shall come from the presence of the Lord.

'And he shall send Jesus Christ which before was preached unto you.

WEDNESDAY: "He that despised Moses' law died without mercy under two or three witnesses: "Of how much sorer punishment, suppose ye, shall he be thought worthy who nath trodden under foot the Son of God, and hath counted the coyensor, wherewith he was samulated an unboly thing, and hath done despite unto the Spirit of grace?

Editorial

things because you made them wait. But by and large, you tried to hang on to the job. It sure beat carrying the firing range, and other chores The Navy got in their licks too with putting you on details such as policing the firing range, and other chores Water Plan O.K.

The TYLER COUNTY BOOSTER supports the passage of Constitutional Amendments one and two; The "Texas Water Plan" in next Tuesday's state-

East Texans have looked askance at previous proposals for developing Texas water resources, regarding them as little more than give aways of East Texas water to our thirsty Texas neighbors to the west. This current plan however appears to have adequate safeguards to keep high quality water, our regions most precious undeveloped resource, destiny in East Texan's hands while at the same time possibly providing us the financial means to develop our water resources for our own needs and ends. You see East Texans are now just beginning to face some of the water supply and water quality problems we have considered in the past as belonging to West Texas or Houston and Dallas. Whether it is area cities funding construction of new sewage treatment systems to solve water quality problems or the City of Woodville looking at construction costs of a water supply pipeline to Dam B; with federal funds literally drying up, the proposed \$980 million in additional Water Development bonds and bond insurance programs provided in the new Texas Water in additional Water Development bonds and bond in-surance programs provided in the new Texas Water Plan should be adequate incentive for us to treat this present plan much more seriously than we have the present plan much more seriously than we have the previously plans.

It is also in our interest, as the only region of the state to possess "water supply in excess of need for the forseeable future" to see the bond moneys provided in this plan as a means to develop and use this "excess" as a valuable resource like East Texas lignite and timber which can be exported and used for our own purposes and to our own benefit.

So, East Texans, vote for Constitutional amendments one and two and not only keep East Texas water in East Texas but start using East Texas water

for East Texas.

Editorial

Will Skies Clear?

Many thought the cloud that has been over the Warren Independent School District since the May suspension of Superintendent Adolph Hryhorchuk would dissipate with the Thursday, October 24, 1985, Hearing regarding the termination of the District's Superintendent. The Board had three choices: reinstate the suspended Superintendent, terminate him, or make a monetary settlement. Two hours into the Hearing, the Board came up with a fourth choice... put the Hearing off until a later date and let the decision be made by an "unbiased" panel of three people to be chosen sometime in the future.

There are questions that have to be asked. Do the Warren School Board members realize they were

elected by the people to handle District business and that much faith was placed in them to make deci-sions regarding the School District? Did these men let fancy rhetoric by a fast-talking attorney from the big city of Houston intimidate them into turning over their responsibilities to someone else? Haven't the Warren taxpayers paid enough in legal fees without having to now pay three unknown persons to carry on District business? Hasn't the District been under

Mums Have Long History

Chrysanthemums can be traced as far back as the Ming dynasty. There are as many nistorians claiming the Chrysanthemium originated in Japan as there are who claim China as the originating country for the Chrysanthemum. Many people think the flag of Japan displays the rising sun when in fact originaly the yellow red center of the flag of Japan was taken from a Spider, Chrysanthe

Chrysanthemums moved from the far East to England where a lot of cross breding took place by many hybridizers and the English Chrysanthe mum was produced. The Chrysanthemum then migrated to the United States where today it is the largest year round pot plant There

are many individual types Chrysanthemums. Basically we have

Garden Hardy which grows outisde in the landscape in mass plant. ings. Then we have the in pots Basically the types are the same

disbud which can be grown in flower beds or requirentents of both With in the two above nentioned typed we have additional breakdowns such as: The Incurve (Football Type). The Spider, The Decorative, The Reflex. The rompon. The Anemone The Spoon, The Quill, and The Brush and Thistle. -We have two methods of obtaining Chrysanthemums plants -- by 'cuttings and by seeds. When planting Chrysanthemums from seed'you will never obtain a true cultivar be cause of the cross polination. The professional and show grower always plants anew from cuttings. This insures a true cultivar. On the Garden Hardy type they will repeat year after year from the same root system. When the Garden Hardy type has completed its blooming cycle and the leaves have turned brown cut them back to the ground level and mulch with leaves and they will return in the spring. Chrysanthemums like a slightly acid soil with a good organic base. Mums do not like wet feet but to do their best and reward you with good blooms in size and color you should never let them dry out. When planting Crysanthemums never overcrowd them. Plant the mums on fifteen to eighteen inch centers. They will inch centers. They will fill in the open area as they grow. Chrysanthemums need to be fed on a regular basis every two weeks to obtain the maximum in bloom and clarity. In color. Remember flums as well as other plants have to have the fertilizer converted into a liquid. Some varieties of Chrysanthemums will bloom in life spring and again in the fall. The bloom for the Chrysanthemum is controlled by the amount of light. It is an one had some to light to see had some in light to see had some light to see had some in light to see had some light to see had some light to see him and the see had repeated the to see him and the see had some light to see him to see him

Mums History

(From 2C)

to the maximum amount of light to accomplish both functions. There are many Chrysanthemum shows I the fall of the year and you must remember that Il the Chrysanthemums hown in the shows

were grown outside and not in greenhouses.
Throughout the South and Southwest we have many Chrysanthemus Chapters that are associated with the Nationa Chrysanthemum Society, which welcomes visitors to their monthmeetings and shows. you area does not have a Chrysanthemum Society Chapter and is a munimum of ten interested

people I will be most happy to help you set up a chapter and obiin your national char ier. If you are interested you may contact me by writing to this newspap

So long for now and good gardening till next ime from your Garden Editor

Warren Sets Tax Rate

The Warren Inde pendent School Dis trict Board of Trustees met Tuesday, October 22. 1985, and set the 1985-86 tax -rate at \$1.21. Even though the new rate is lower than the 1984-85 rate, taxpayers can expect a 10-25% increase because of new valuations. The vote on the tax rate was 5-1. Board member Marvin Fanning who recommended a rate of \$1.19, voted against the \$1.21 rate, Famnin felt that the district had

too much money in surplus and that, some of that money should be used to meet part of the district's expenses for 1985-86. According to Fannin, "Times are hard, and we need to do every thing we can to keep the The Board approved

tax rate down. an expenditure of approximately \$685, to install a now telephone system at Fred Elementary. The Board tables any action on the 1984-85 Audit, the Energy Contract by Jack Engineering, and Board policies regarding "New Employees on the Carcer Ladder, 'Con-Agreement, and the "Substitute. Teacher"

Curriculum Direccurriculum Director Dixie Weeks informed the Board that all districts in the state are now required to write and submit a Discipline. Management Planto the agency on or before February 1, 1986. The Warren plan will be submitted to the Board for approval at the December meeting.

Board President Harold Davis, anneaused that the October 19.
1985 workshoot between the Warrer Bosrd and the crass Association of the strength and all though to set end full though against the Distres by the gase Education.

ADVERTISE TODAY

CELEBERT STRONG CELEBERT SERVICE DE LA CONTRACTOR DE LA C

equally important aspect of the bark beetle situation is the need to get beetle-ravaged areas

back into production. "Unless beetle-ravaged areas are restocked, much of the productive capacity of the soil will be lost to weeds and brush," says Dot Miller, county for-ester with the Texas Forest Service in Wood-

The TFS forester cites two incentives for landowners to re-establish tree crops in such area: One incentive is costsharing assistance for qualified landholders for tree planting expenses including the costs of site preparation. A second inducement is the wide range of ownership benefits available with woodland investments. These can include recreation, wild-

income production. Few investments

life, scenic beauty and

value lost. According holders can minimize fu-to a state forest ser-vice spokesperson, an their woodlands through tial of these wood intensive management. lands is captured. Re-Vigorously growing stocking new tree crops woodlands are healthier

in understocked areas.
