Damages Sought

B. J. Vardeman, Criminal Investigator for the District Attorney's Office reported that Pat Hardy, District Attorney for Tyler County, "had been in contact with the powers" of Diamond Construction Company of Pasadena, who said they would be in the week of December 9, to pay \$18,600 owed to the county for damages which occurred during some contract work the company was doing for the Tyler County Water Supply.

However, Vardeman said, as of Friday, Dec. 13, no one has come in with the payment. According to Vardeman, Hardy would like to make one more try at settling this dispute before taking Diamond Construction to court.

In other action, the court set Jan. 1, 1986 as a Tyler County holiday and decided to wait until their Jan. 6 meeting to decide on the rest of the year's holidays. icy winds and winter rain can send a chill clear to the marrow of one's bones. But memories of childhood visions and fragrances can warm the heart and soul. A thin ribbon of soft gray smoke trailing from century old mud pine straw and Spanish moss chimneys, aromas mingled from the kitchen of buttered popcorn, parched peanuts, baked apples, hot apple cider or hot chocolate and always homemade cookies (sugar, chocolate chip and gingerbread). Neither sleet nor cold nor rain-soaked country roads could keep some 20 guests from the "Cookie Party" held Dec. 12 at the Ivanhoe home of Ruth Stecher. Each person brought a batch of homemade cookies and the recipe. These were passed around with each taking two of each kind - thus Ruth's motto "sharing home and cookies." Adding to the enchantment of the evening, Ruth also served several of her family's favorite recipes - zucchini quiche and a candy.

NEW BUSINESS

If you're driving through Doucette around dinner time, you just might want to stop at the tiny new building by the car wash on the east side of the highway. It's Taco Bob's and they'll be serving up some of your favorites. The new business is owned and operated by Bob and Alice Parker and features all homemade dishes.

According to Alice, burritos are the biggest seller so far with tacos running a close second. Homemade tamales are another popular favorite.

The Beaumont Enterprise, Dec. 12 issue featured a selection of Christmas short stories submitted by aspiring area writers who entered the recent holiday writing contest.

For an original answer to the problem of Christmas without a tree - read the (Dec. 1985 issue of Good Housekeeping) holiday short story "Midnight Dreams" by T.D. DOIG. Many of our singles and senior citizens have created unique sequels to the traditional Christmas tree. One Woodville has fashioned a glittering tree from old costume jewelry and enjoys it for many wintery weeks - adding sparkling memories to each day. Andy Hollman, like many area folk, likes to be wooded in his own land and cuts the family tree. Many miniature Norfolk pine are potted and decorated with tiny lights and ornaments. My special is a table-top white ceramic miniature tree, highlighted with a touch of gold and lighted with tiny red birds on every branch.

Acrylics, drawing pencils, charcoal, pastels, calligraphy kits, professional drawing paper and spray varnish. They also have pre-cut mat board in different sizes and colors and children's fingerpaints.

If you're looking for gift ideas you might also want to drop by. According to Felicia, two-ester tricycles, Rainbow and Ice Cream dolls, porcelain dolls, figurines, music boxes, vases and an expensive line of jewelry are also in stock.

According to Sandra, customers can order trophies from those in stock or special orders can be made.

Trophies, etc. also carries a wide range of art supplies including brushes, canvas, oil, oil pastels, acrylics, drawing pencils, charcoal, pastels, calligraphy kits, professional drawing paper and spray varnish. They also have pre-cut mat board in different sizes and colors and children's fingerpaints.

Taco Bob's is open six days a week from 6 a.m. until 5 p.m. (Friday and Saturday until 6 p.m.). For breakfast they offer sausage and eggs.

Dean of Christ Church Cathedral in Houston. Father Bob also founded the Saint Clement's School in El Paso which now has grown to nearly 500 students and extends through the eighth grade.

"Tommy" and Father Bob work together now at St. Paul's preaching the Gospel to kids and adults alike.

How can you not listen to warm, cuddly Teddy Bear?

"Tommy" who lives under the altar at St. Paul's occasionally comes out during the regular service to address the entire family community there.

"I tell the kids at all times to get a glimpse of the bear when he sits on the arm of the priest. Parents and guests learn to get a view.

Gibson says his main concern is that family will be on the Family of God's Church. "Family" is a key word, he says, and we are all a family.

Last Friday was a special day at Saint Paul's when the entire student body of 50 gathered for Friday Chapel Service and presented Father Bob and "Tommy" with an official Saint Paul's Red Alumni Hat with a Saint Paul's inscription on the brim.

Makes me feel right at home. WAS HEARD TO SAY.

It is the season to buckle up... wherever you travel.

Last weekend I rented a space at Larry's Antique Mall on his regular trade days. Saturday a lady, her daughter and another lady came by and asked me about some pine cones or burrs I had. Well, I said, the people across the street had some big ones. (They were from Colmesneil and went by the name of "Wolf Creek Expressions").

Anyway I said, they sold them for one dollar a piece and that I sold mine for two bits each. She mumbled and studied and then she checked at stores right at my feet. I don't mean to be stupid, but I told her it was two bits, five cents and she could have all I had left for one dollar. She understood that and regardless of it is adding, subtracting, or square root, memory or not, I don't know how much you don't think we are ready bits as especially for the younger people for today looks like this. The umbrella's and elevators are up, the envelopes and writing paper are stationary and Billums Creek is with the calculators. I don't know. Happy holidays to you all.

Christmas can be a drag.

How many times have you said or at least thought that it can be a drag if we let it.

At this time of the year it's good to slow down long enough to realize that Christmas is all about. It's not just trying to find gifts for all the relatives or having to wade through all those noisy parties. It's the time and colored lights that make the season so special.

The real reason for celebration is for the expression of God's love in His act of placing His own Son on an extremely hostile little planet called Earth.

During this Christmas holiday, go into a church and let the reality of this thought soak deeply into your soul. Come to the Christian Church (Disciples of Christ) and share these moments with us. Celebrate with us this glorious expression of God's love through His Son.

Let's make it a really merry Christmas.

Christmas Gifts For Gardeners

By Ted Brice, The Garden Editor

In selecting a Christmas gift for that gardener on your list is easier than you may think.

The first thought is some type of plant. Usually the avid gardener has already purchased any plant that he or she wants or needs. Most of the Christmas plants such as Poinsettias and Christmas Trees. Giving cactus will not survive year round except in the extreme south.

Then you think about some tool that the gardener will use in his or her gardening. In this instance usually the gardener has already purchased the tool in order to save him time and improve his or her garden.

We have almost forgotten a category of Christmas gifts for the gardener. This category is gardening books. There are many general gardening books that are written in other sections. The United States that are for men to the Southwestern area live in so many states the weather is more severe in the winter and less severe in the summer where the book is written that we have here in the Southwest. Also there will always be the difference in the make up of the various soils throughout the United States. In many areas local garden clubs have prepared gardening books for that particular area. I am personally familiar with one that is put out by a garden club in Dallas and one that is published by a garden club in the Houston area. These books are written for that particular area taking into consideration the weather and the make up of the soil for that particular area.

One of the better series of gardening books is the Sunset books published in California. These books will cover the Southwestern area of the United States. The individual books on specific plants such as roses and chrysanthemums, etc. will provide the gardener the necessary requirements for that particular plant.

Let your Garden Editor suggest that you put a gardening book on your list for that gardener for Christmas. Good gardening until next week.
