The Warren Independent School District Board of Trustees approved the 1986-87 School Calendar at their regular Board Meeting Tuesday, April 22, 1986. Teachers will begin school August 25, 1986, and will be participating in Teacher Inservice and Workdays until August 29. Students will report to school Monday, September 2. Scheduled holidays are October 3 (Tyler County Fair and Teacher Inservice), November 27, 28 (Thanksgiving), December 22-January 2 (Christmas), January 19 (Teacher Workday), April 13-17 (Easter Break), May 29 (last day of classes and Graduation).

The Board voted to apply for a Waiver which would postpone the District having to offer a Pre-Kindergarten program during 1986-87. The reason for postponing the program is the lack of building space. According to law, a District is now required to provide at least a half-day Pre-Kindergarten program if a survey shows at least fifteen students eligible. A student was

unable to speak the English language or qualify for the free lunch program to be eligible for the Pre-Kindergarten program.

The Board tabled a request by Warren Fire Chief George Eason to give the local Fire Department a four-year contract for the inspecting and filling of fire extinguishers and parking spectators at football games. School attorney Jerry Hatton will look into the legality of the request, and it will be discussed at a later date.

Superintendent Joe Woodland presented a request by Curriculum Director Dixie Weeks for a summer workshop to get the High School Curriculum Guide up to

date. It would be necessary to pay approximately six teachers plus typists for ten days for this workshop. The Board instructed Woodland to have the teachers do as much as possible during the remaining school year so as to cut down the number of hours needed to finish the job.

The Board spent two hours in Executive Session interviewing Superintendent applicants. Two applicants were interviewed, and there will be two additional meetings for the purpose of interviewing four more applicants. The Board expects to name the new Superintendent sometime in May.

ELECT JACK BURNS Justice of the Peace Precinct 1 I would like to take this opportunity to further express my reasons for seeking the office of Justice of the Peace Precinct One of Tyler County. This is the peoples court and I feel that I have the ability to listen, to understand people and to judge each individual fairly and also to understand the letter of the law and to carry forth this in an impartial manner. My past duties as a law enforcement officer with the Tyler County Sheriff's Department and my many years as an independent businessman dealing with the general public enhances my ability to perform the duties of the office of Justice of the Peace. I feel it is imperative to have a change in the office of Justice of the Peace Precinct One of Tyler County. Following is a partial listing of some of the criteria of the Justice of the Peace office I feel is greatly needed. (a) Confidentiality of personal problems discussed in the Justice Office. (b) Assessment of penalty. The Justice Office is not designed to be a money-making institution. The fine is to be imposed not according to the amount of money the offender has, but by a Judge taking into consideration the offender's ability to pay. (c) Being able to listen to and understand each individual when he or she has a problem. I will listen to and discuss any problem and talk to you as opposed to talking down to you or ignoring your needs. (d) As you are well aware, we all have problems at one given time or another. This does not make you a criminal, so whenever you are not to be treated as such, there is a great difference between a traffic violation and a trial and I think this should be readily recognized by any competent Judge. (e) Concerning questions and penalties, if a person cannot control their emotions and include their personal baggage then the person cannot properly function as a Justice of the Peace. I want to take this opportunity to thank each of you for your courtesy expressed during my campaign. I appreciate your vote and support in the Democratic Primary. Thank you, Jack Burns Pol. **Forester Group Sees Film**

At the second quarter meeting of the Southeast Texas Society of American Foresters, held at the Louisiana-Pacific camp house near Erin, Tx., foresters heard from Gary Spencer, Wildlife Biologist with the Texas Parks and Wildlife Department. Mr. Spencer presented a film entitled "Made in Texas", that explained the different techniques utilized by wildlife biologists to obtain deer census information, and capture techniques used to relocate deer from overpopulated areas.

The purpose of a deer census is to determine populations of deer, and the sex ratio within a predefined area providing wildlife specialists with valuable data necessary to make management decisions to improve the health and general well being of the deer herd. A few of the techniques used by the TP&W to survey deer include: (1) Spotlight method-used after sunlit whereby a 3 men crew drives a 15 mile course taking a deer eye count, (2) Walking Line Census-used in highly populated areas and made during the last hour of the day whereby the biologist walks a straight line and counts the number of deer he sees within 100 yards of the course; and (3) Aerial Flight Census-used primarily in South Texas where small tree canopies permit easy observation of the deer.

If it is determined through the deer census that an area is overpopulated and the range will not support the existing herd, then capture and relocation to less populated areas is undertaken. This is accomplished through the use of either drop nets, or by driving the deer with helicopters or ground personnel into standing nets. This program has been in use since 1940 and accounts for the increase in deer populations in north and east Texas, and for improving the quality of deer in the hill country. Presently, Texas has the largest number of whitetail deer in the country.

Mr. Spencer lightly touched on the subject of the 2 year study that the TP&W just completed on the effects of hunting deer with dogs. The final results of this study are due to be released to the general public within a very short period of time. Anyone interested in a copy of this study can contact the Texas Parks and Wildlife in Austin, Tx.

In other society business, the annual SAP state meeting is tentatively scheduled for September 18-19, at the Ramada Inn in Nacogdoches, Tx. In addition, a regional science conference sponsored by the old Gulf States Section of the SAP is scheduled for the agenda.

The Texas Society of American Foresters represents professional foresters throughout the state, with a membership in excess of 500 members. The officers for the Southeast Chapter are: David Etheridge, Chairman; Brian Clark, Vice-Chairman; and Chairman-elect, Ralph Day; Secretary, Treasurer, and Tom Bell; Reporter.
