'Team City' Plan Calls For Spirit Of

Cooporation

bringing new industry and new jobs here.

Woodville has been selected to participate in GSU's Team City program and city council adopted a resolution on July 11 formally joining... the community develop-

"By helping Woodville work toward bewe're putting energy and resources into existing community efforts to bring in new businesses and create new jobs." commented Gene Koci, superintendent of GSU's Woodville district.

Before a city can be certified as a Team City. it must have at least three buildings and sites with an open option on the properties, a financing package and an existing package and an existing industry retention program.

Koci said the program involves seven steps. They are:

--Community assess-ment, in which a broadbased Community Leaders Committee collects information in about 20 categories related to the community's underlying framework.

--Short- and long-range goals, which are based upon the community assessment results.

--Selection and training of a marketing team. Various experts from GSU, state agencies and regional economic development agencies will help train team mem-

Yates School 'Gap'

In a special called meeting Tuesday, July 5, 1988 the Warren Independent School District Board of Trustees voted. unanimously to place Warren Middle School Principal Miss Bettle Rae Yates in the position of Interim Superinten-dent Miss Yates has been with the Warren District twelve years. She held the position of Girls' Coach for eleven of those years before moving to the position of Middle School Principal for the 1987-88 school year. Yates is a graduate of Lamer University. According to Board member. Marvin Fannin, Yates lacks six hours for certification. He said certification. He said that she can get an emergency certificate that will allow her five years to get the necessary certification. According to Fannin, the District needed someone to full the gap until a Superintendent is found and the Board felt Miss. Yates was the next person in the district her the state of the

DRAINAGE A PROBLEM-Philip Goodwin of Goodwin-Lassiter Engineers, of Lufkin, explains to Woodville City Council the problems in forecasting drainage costs associated with the street construction program here. Dave Perrell, (seated front row left) and Associates of Nederland won the Engineering Contract for the city street project.

Hillister News

Sunday their daughter jor surgery. We are glad relia, Haynes and Jo Margaret with her hus to report that she is do Harry DeRamus with band Doug Parsley of ing well.

To keep warm put on a hat. Eighty percent of your Dearl Foxworth and fambody heat escapes through your head.

While pondering the problem of questions and answers, in prayer, I began to think about the One to whom our prayers are directed. That is, of course, God the Father. Why is it that God tends to wait so long before he answers our prayers? Are our questions too difficult for Him? After all, he HAS been around for a long time!

When God first created the Heavens and the Harth, He was obviously in His prime. That only took six days? Perhaps, it was because this task was so great that it took Him 400 years to answer the prayers of the Hebrew slaves in Egypt, and deliver them to the promised land. Have you ever noticed that it often appears that God is on this same time schedule, (of 400 years), when we offer a petition in prayer?

Is this breakdown in communication God's fault? After all, He used to talk directly to Moses. He sent Prophets and Angels to help the people of the Old Testament. And, He sent the Disciples of the New Testament to preach and teach the people how to reach Him. He even sent His own son to give us a prayer of instruction. This prayer is commonly known as "The Lord's Prayer" But, all of these things had to do with people.

When we are discussing prayer, we are talking about communication. Now, that's something that Mankind has developed beyond any imagination. By turning a knob, or a dial, we can be faced with a pictured message, on any subject, from all over the world. Now, that's communication occurs. There is no technological device created by man that can zend a message directly to God, and be received. It is because those forms of communication are synthetic toys. God simply doesn? we cannot use any dial or knob, or push any button.

The message we send must be sent totally on faith dront within the depths of ourselves to the One that has trained as message to God, we cannot use any dial or knob, or push any button.

The message we send must be sent with out demand and in total obedience. It is God with the arm of the amount of the same time of the same time of the same time of the same t

METOURANT INTHETYLER COUNTY BOOSTER JULY 14 1988 PARTE

July 6, 1988

To the residents of Village Creek Corridor of Hardin County, Big Sandy Corridor of Polk County and Canyonland Unit of Tyler County:

We continue to be questioned concerning our company's position on the 14,000 acre comdor to the Big Thicket National Preserve.

The Corridor expansion, in our view serves no environmental need, and limits the economic growth of the forest products industry in East Texas.

Our company was a prime mover in creating the Big Thicket National Preserve 15 years ago. Many acres of Temple-Eastex lands were held in moratorium until the final boundaries were set. Our commitment to the Preserve is a matter of public —

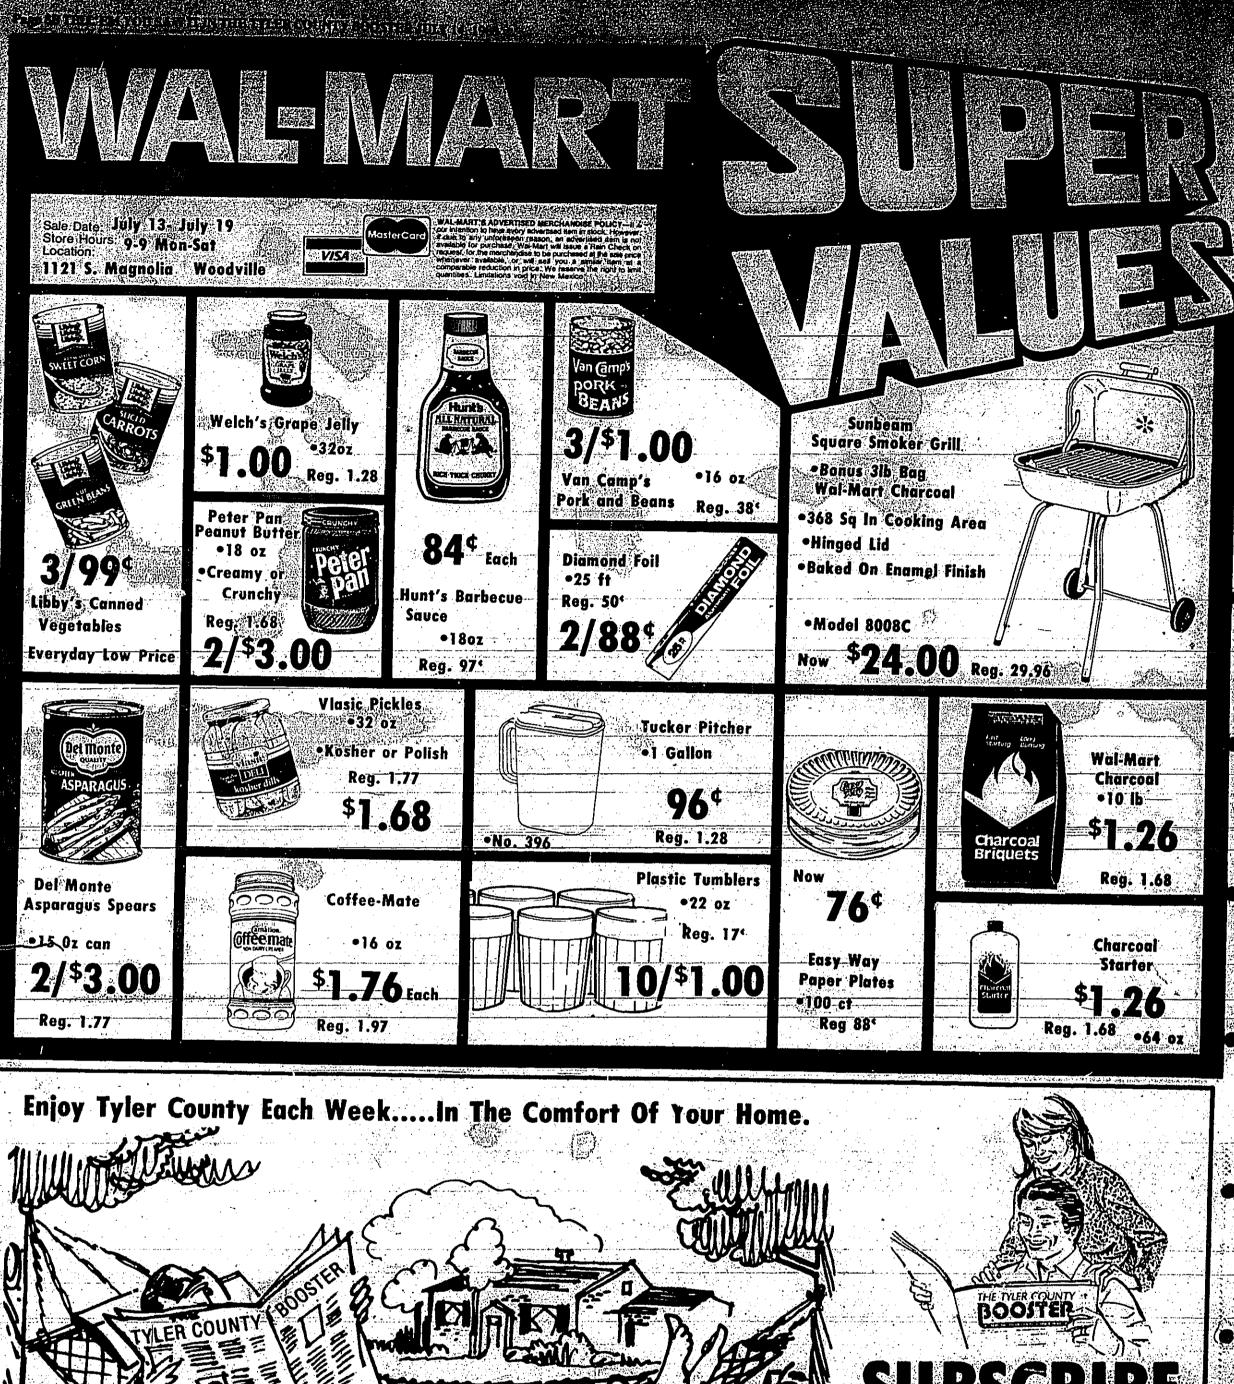

The 14,000 acre land acquisition proposed by Congressman Wilson needlessly expands the Preserve and takes valuable agricultural land out of production.

These acres contain millions of feet of timber, vital to the operation of several forest products companies.

These well managed corridor acres with their hardwood inventory must continue to provide the fiber we need. Research studies indicate hardwood fiber may be in short supply in the future.

There are more than 68,000 forest industry jobs in East Texas. These employees need the assurance that timber and fiber will be available to permit companies to grow and provide new jobs in the future.

The present Big Thicket National Preserve and the well-managed perpetual tree farms we require for fiber are the equitable answer.

VOLUME 1 NUMBER 4 N.S.

HERITAGE VILLAGE MUSEUM

WOODVILLE, TEXAS 75979

Hundreds Turn Out For Village Fourth

The first annual Fourth of July celebration at Heritage Village was a rousing success as more than 200 townspeople and Tyler County visitors poured through the open gates, dutifully carrying their lawn chairs, and settled in and around the Pluck Post Office to participate in a program of patriotism that was enough to tingle

MC Ernest George started the event by calling for a standing ovation for Heritage Society president, Christine Sanders, whose tireless efforts have seen The Village revitalized as a major Tyler County attraction.

Following the invocation, offered by the Rev. Clyde Bennett, members of the Robert M. Pate Post No. 2033, Veterans of Foreign Wars, presented a flag that had flown over our nation's capitol to Paul Walker, who received it on behalf of Heritage Village, dedicating it to the pioneer families who settled Tyler County.

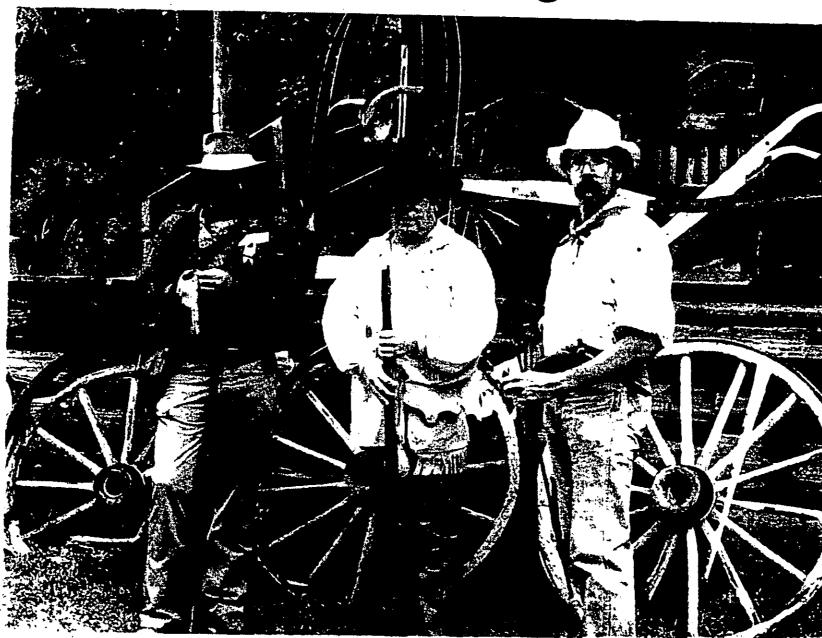

Taking part in the presentation were Post Commander Miles Humphus, Post Quartermaster Bill Cook, Truitt Williams, Warren Dingler and Raymond Sanders as well a J.P. Miller, representing the American Legion, and Jim Ashworth of the Sour Lake Post,

Scoutmaster Terry Walston of Troop No. 800, Woodville, then directed Scouts Jeffrey Hensarling and Michael Miller, assisted by Ivan Weiner of Troop No. 191 of Vidor, to raise the flag and lead the audience in the Pledge of Allegiance.

Speaker for the day was Col. John Yearwood, U.S.A.F. Retired, whose array of battle ribbons lent credence to his message of patriotism.

Interspersed with volleys from Blacksmiths turned Buckskinners, Charlie Schultz, Ed Cotten and Mark Hester, the group joined songstress Linda Allbritton, accompanied by Stan Coffey, in singing a number of patriotic songs, including "The Star Spangled Banner", "You're A Grand Old Flag" and "Let There Be Peace On Earth."

Members of the Junior Historians repeated their square dancing skills on stage to wind up the celebration.

VILLAGE BLACKSMITHS TURNED BUCKSKINNERS-Doubling in brass during the First Annual Fourth of July Celebration are Village Blacksmiths Ed Cotten, Charlie Schultz and Mark Hester, who shed their leather aprons for buckskins and black powder rifles to end the day's festivities with a bang.

Flag Program Set For 'Last Sunday'

In keeping with the patriotic theme started at The Village on July 4, Janie Ashworth will repeat the "Evolution of The Flag," which she recently presented to The Junior Historians, as the Last Sunday At The Village program for visitors on July 31.

This informative program, designed by The American War Mothers, whom Mrs. Ashworth serves as national

treasurer, involves the building of a The stars in the blue field remind us large wooden flag on a framework she calls The Constitution, as she explains the meaning of each stripe, each star as triangle is symbolic, according to Mrs. well as the chosen colors. Red reminds us of the blood of those who have died in our nation's cause, she said. White reminds us to seek purity in our actions as a nation, and blue calls on us to seek truth and fidelity in all our actions.

that we are a "Nation under God."

Even the folding of the flag into a Ashworth, as it represents the three inter-dependent bodies of our govern ment: Executive, Legislative and Judicial, with the thirteen separate folds representing the thirteen original states of the Union.

ALLAN SHIVERS LIBRARY AND MUSEUM-Located at 302 N. Charlton, just two blocks north of the County Court House, this prestigious library and museum offers visitors a comprehensive look at the life and times of the late Governor Alian Shivers, who spent much of his youth in Woodville.

EAST TEXAS GARDENING:

VISIT THE HERITAGE VILLAGE

Gardening In July

Check lawns for each bugs. Dry weather is conducive to einch-bug problems. Treat the lawn if you have a problem. Keep azaleas watered (twice a week---really deep---) and do not fertilize or trim them any more as they are now setting their buds. Watering your azaleas a little bit everyday is the WORST thing you can do. This keeps the roots at the soil line and makes for weak plants. By watering deeply once or twice a week, you keep the roots down where they should be. Mulching the azaleas with pine-bark mulch about 4-6" deep is a good thing to do, too, as this maintains your moisture and keeps the soil temperature down.

To keep crape myrtles blooming well, trim off the old flower heads as they die out. That is if you can reach them. If you can't don't worry about it.

You can still plant summer-color flowers like zinnias, impatiens, gazanias, salvia-both the red and the perennial blue. Fertilize your flower beds with Super-Bloom. It is one of the best allaround fertilizers I have found for anything that blooms or has colorful leaves. It keeps the leaves green and produces bigger and brighter flowers on blooming plants, and makes coleus and crotons almost blind you with color.

If you do need to spray for bugs, there After R. A. Cruse Jr. moved is an insecticide called Safer Soap. It is his family into the home on the not a chemical and is environmentally Donated to the Woodville In- death of his father in 1920, a fre- safe. It leaves the beneficial bugs. There about the Hesters and drop by to see dependent School District, the quent visitor was young Allan are too many chemicals in our world as it them if they're in town.

is, and I prefer to use as many nonchemicals as possible in my every-day life This can be used on herbs and veggies right up to the day of harvest. I really works and is worth it to you to

Well, I guess that's about it for this month. Keep cool, and keep watering.

A Family **Affair**

When Village Blacksmith Mark Hester takes his turn at the anvil, it's a family affair. With Mark, who makes his living horseshoeing and blacksmithing in Groveton, comes wife Rita and his two children, 4 year-old Benjamin, who stays with his Dad. and one year-old Janel, who snoozes to the tune of mother's treadle sewing machine in the Seamstress Shop.

And Rita really makes that treadle move as she sews a fine seam on bonnets. aprons and pillows to be sold in the Museum Shop. It's fun to watch Rita work and talk with her about that work,

SAN ANTONIO BOUND—Whittlin Sid gets started on a new piece of smaller analytic and anticiption of the Folk Life. Festival in August, where he is always a favorite with folks who eajoy Wasters and sculpture and watching the man

It wasn't until 1975, when he did the fexas Art Show, that Sid Owens of Woodville became known as "Whitlin' Sid", but the former Merchant Marine cook started whittling long before that. In fact, Sid's been whit-

lin' away since he was 11-years old. August 4-7, Sid will be lemonstrating the artistry that earned aim that name at the 17th Annual Folklife Festival in San Antonio. It will se the seventh year The institute of Texan Cultures has invited Sid to show nis pioneer craft for the enlightment of

Of course, homefolks and Tyler County visitors alike are always velcome to stop by Sid's home Jallery, next to the U-Haul business he sperates on Hwy. 190 two miles East f Woodville, and see the results of hat whittlin' for themselves.

The results are unique carvings of western themes, whittled mostly out of passwood, so fragile, according to Sid, hat he has never felt at ease trying to ship them to would-be buyers.

A native of Beaumont, where his father was a contractor, Sid Owens whittled up many a soap box and apple crate as he developed and perfected his craft. And, when he joined the Merchant Marines in 1939, he took his craft with him, whittling away during his off-duty hours on the high seas.

Twenty years ago, after 25 years as tankerman and cook, Sid Owens left the Merchant Marines and moved with his wife Robbie Dell, to Woodville, where he has continued to whittle, both at home and at shows like the Folklife Festival throughout the state.

A member of the Beaumont Chapter

of the Woodcarvers of America.
"Whittlin Sid only does a few shows a year now, maybe two or three; he says, but he can still be found most any day, carving out a newly envisioned western scene to add to bit gallery just

Bubba Voss: Collector Extraordinaire

collector, historian and then trumpet player with the Clyde Beatty Circus and his brother Duke were raised and my Air Force Band during World War Band, read about Clyde Gray and the pioneer village he was putting together outside Woodville. That was in 1965. cirus travels for the winter, just had to go take a look. As his wife Enola says, he has an inquisitive mind. After talking with Gray and seeing

what he had under way, only three or four buildings at the time, he recalls, Bubbe said he had something at home Gray might want to use and told him about his Texas License Plate Collec- course, to Bubba himself, who has fill-

Gray had already heard about the collection, which included every year, years as a trumpet player and band beginning with the first issuance in 1917, except for 1923, and had planned to contact Voss, so the deal was made.

Today, the state's most complete garage wall at a cousin's home in was a student at Anderson School. Hempstead.

naturally to Rudolph H. Voss, who has been"Bubba" to all who have entered years ago. Just as naturally as music 40 years. and an abiding interest in history.

Orange, Texas may claim Bubba His mother, Gladys Davies Voss, ed for Ortmeyer Funeral Home in Voss as its native son, which he is, but collected salt and pepper shakers, and Orange, took a business course at Port part of Voss' heart and soul are right at the collection from every state in the Arthur Business College and worked home at Heritage Village in Woodville. union, Red China, Russia and The for Consolidated Steel, Bubba played it all started, when this gregarious Vatican is still on display in the his trumpet with local and traveling spacious Davies home, where Bubba dance bands. After service with the Arwhere he and his wife live today.

His mother and grandmother saved old newspapers, books and postcards, providing much of the history Bubba shares with his fellow Orange County Historical Society members. And the home built in 1890 by his grandfather, Morgan G. Davies, a native of Wales. who served as secretary-treasurer for the City of Orange for 21 years, his become a museum of sorts to the saying ways of his predecessors. And, of ed every nook and cranny with memorabilia collected during his 22

leader with the circus. Bubba's mother and grandmother were both musical, one teaching the Today, the state's most complete piano, the other church organist. His private collection of auto tags, which father, Orange's only saddle maker, Voss began inadvertently in 1929 by also played with the city band. But in saving his own tags, is on view at spite of these musical surroundings, Heritage Village for all to see. The Bubba credits the late Lutcher Stark earlier tags he later found nailed to a with getting him into music, while he

During that time, although he work-

II, he retured to Consolidated while continuing to play local gigs, finally

When the band broke up in 1948 and he returned home, Bubba accepted a Circus, playing in Port Arthur, and the die was cast. They liked his trumpet playing, and Bubba liked their circus and their music, and when the circus For the next 22 years, Bubba Voss

traveled each season with the Circus: the West Bros., Al G. Kelley and Miller Bros., Ringling Bros. and Barnum and Bailey and lastly, the Clyde Beatty Circus. He played in all 48 of the continental states and in Canada, and while he was traveling, he learned much about the country he lived in, spending every spare moment reading about and visiting the points of interest true to his nature, he collected and he saved and he remembered.

In November, 1970, Bubba Voss sounded his trumpet for the last time in Orlando, Florida, and returned home his world since it began in Orange 70 trumpet, and he didn't lay it down for to Orange to a job as Materials Expediter at Levingston Shipbuilding Company and to the girl he never

Enola Trawhon. They were married in

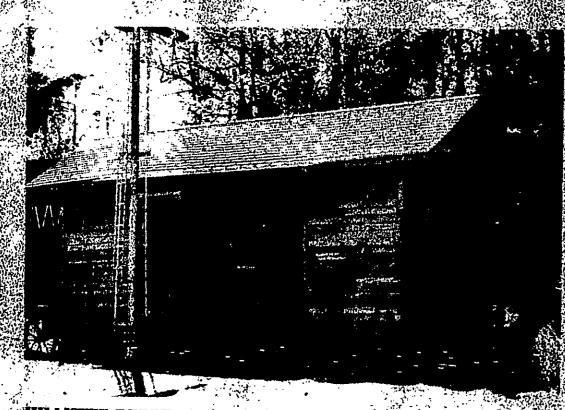

But Bubba Voss, who retired from Levingston in 1971, will never forge; the excitement of his circus days. He couldn't if he wanted to, living as he does surrounded by his vast collection of circus posters and programs and other memorabilia that attest to the history of the circus in America, which predates the Revolutionary War.

And because he considers Woodville almost a second home, Bubba Voss has made sure no one who visits Heritage Village forgets the circus either. Over 100 of his vast collection of circus posters, some dating back to 1910, can e seen at the Pickett House Restaurant, housed in the old Midway School House, adjacent to The Village

And though Bubba says he has only faint recollection of the day in 1921 when a circus elephant went beserk through the sreets of Orange, he's sure it had its effect on the life he was destined to lead.

Today, Bubba and Enola keep busy sharing their treasures and giving of their time to the Orange County Historical Society and Las Sabinas, the quarterly compilation of local history. which he proofreads and she and her

Hillister Depot Say Continuous Service

reads Off, but that's because people, who boarded the train in Hillister, or so legend has it, always said, "well, we're off." And, so the name. Or so they say.

Nothing's like it used to be available in the area. Thus the that's for sure. But folks, who county's first North South remember the Railroad Station passenger call stavice began as a set Hillister, say that's the way it by product of the freight potentioned and that's the color, all time.

They're talking of course, about the trailroad depot on display at Heritage Village. Actually, it's not the same depot, but it was built from materials from the depot built in Hillister in 1890, only then it was called Hollister.

The freight that numbles through Tyler County today as at Hillister were in continuous mainly perfoleum products and performing the Gotden Liangle and the control of

Lisigle and side control of

BEAUMONT DOCENTS VISIT VILLAGE-Christine Sanders, president of the Tyler County Heritage Society [standing far right], welcomed members of the Beaumont Heritage Society to Heritage Village recently. The group, who serve as Docents for the French Trading Post, toured The Village and shared ideas on ways of handling and cataloguing artifacts. Pictured, front left, is Amy Dare; manager of the French Museum, which will host The Village's Junior Historians on July 27.

Planting Wildflowers

By Paula Oandason

sure that the ones you buy are for this area. There are mixtures around that have annuals and perennials in the mix, so that you can have year-round wildflowers. Wildflower plants that are available now are Lisianthus or Texas Bluebells, Purple Coneflower, White Coneflower and Butterfly Bush.

If you like hibiscus as much as I do, but get tired of having to take them in the house in the winter, you'll be glad to

When planting wildflower seeds, make hear about the perennial hibiscus called "Frisbee". This wonderful plant gets only about three feet tall, has 8-9" blooms on it from June 'til frost, has virtually no bug problems, needs little fertilizer, can take the full hot sun, PLUS it dies down each fall and comes back each spring. How could you ask for anything more? It is fabulous. There is also a new minihibiscus that is great for hanging baskets or flower-beds. It gets only about 6-8" high and spreads out about 15".
