**'Power Mulch'** mowers provide maximum

Lawn-Boy has announced the launch of its "Power Mulch" walk-behind mower line. The line of 13 push and self-propelled mowers is now available on dealer floors, including Timberman's Supply in Woodville.
The trademark of the Power Mulch nower line is the "Mulching Zone" marked on the speed control. When set to the Mulching Zone, the engine delivers maximum forque to the blade so clippings are cut and re-cut into a ine mulch, even in fush, thick grass. Vhen tested against the competition for over two years under the most demanding mowing conditions, Lawn-Boy mulching mowers outperformed other mowers and kept delivering maximum torque and efficiency. "Southwestern Bell" or "Company") filed an application with the Public Utility Commission of Texas ("Commission") to restructure the Company's Local Transport and Directory Transport categories of its Switched Access Service. This matter has been assigned to Docket No. 12784. The tariff sheets in Southwestern Bell's application, if approved, will bring the Company's intrastate Access Service Tariff Into structural parity with the Company's interstate Tariff No. 73 for Local Transport. Southwestern Bell's companion interstate tariff became effective on January 1, 1994.

The transport rate elements provide for the transmission facilities between the cutomer's premises and the end office switch(es) where the customer's traffic is switched to originate or terminate the

Southwestern Bell proposes to implement the revised tariffs on a revenue neutral basis. Although the proposed tariff changes will affect all customers subscribing to Switched Access Service, the Local Transport and Directory Transport categories of Southweste Bell's Switched Access Service is primarily for interexchange carriers. If approved, this application will result in an increase in Southwestern Bell's revenues of approximately \$1682.00 during the first year. Southwestern Bell proposes that the changes be effective on December 1, 1994.

Persons who wish to intervene in or comment upon these proceedings should notify the commission as soon as possible, as an intervention deadline will be imposed. A request to intervene or for further information should be malled to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission's Public Information Office at (512) 458-0256 or (512) 458-0221 for text telephone. # ATTENTION STIHL BACKPACK

Stihl Incorporated has issued a recall of its backpack blower and sprayer units (model numbers BR 320, BR 400, SR 320 & SR 400) with serial numbers above 224438666.

If you own one of these units, DISCONTINUE ITS USE IMMEDIATELY

and take the unit to one of the authorized Stihl Dealers listed below for a fuel line replacement and gas tank modification. This recall is taking place because of a possible fuel line leakage which may cause a fire under certain conditions,

NEW TREASURER APPOINTED — Tina Bump (left) was appointed as the new Tyler County treasurer Friday, replacing Jean Phillips (right) who is retiring on April 30. Bump, who has served as the assistant county treasurer under Phillips for several years, won the Democratic Party's nomination for the office in the March primary. She will be unopposed in the treasurer's race during the November general election. Phillips last week announced her plans to retire at the end of the month and recommended the Bump be named as her replacement. Commissioners accepted the recommendation during a meeting Friday and named Bump as treasurer effective on May 1. (Photo by Greg Peak)

#### 'Power Mulch' mowers provide maximum performance

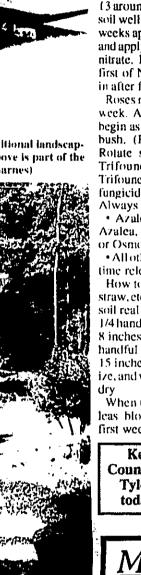

Lawn-Boy has announced the launch

of its "Power Mulch" walk-behind

mower line. The line of 13 push and self-propelled mowers is now available on dealer floors, including Timberman's Supply in Woodville.
The trademark of the Power Mulch mower line is the "Matching Zone" marked on the speed control. When set to the Mulching Zone, the engine delivers maximum torque to the blade, so elippings are cut and re-cut into a fine mulch, even in Josh, thick grass. When tested against the competition for over two years under the most demanding mowing conditions, Lawn-Boy mulching mowers outperformed other mowers and kept delivering maximum torque and efficiency. According to Dennis Rochrborn, Lawn-Boy's vice president of marketing, that is what led the company to name the line Power Mulch ...

"With mulching rapidly becoming a way of life for most American homeowners, many so called mulching mowers just aren't up to the job Rochrhorn, "Lawn-Boy's Power Mulch™ line specifically addresses consumer demand for a mower that won't bog down under heavy load

"We did competitive field testing in all kinds of grass and at various molsture levels," Bob Carlson, Lawn-Boy's vice president of engineering, said "The tests demonstrated that the factors contirbuting to effective mulching were housing design, engine torque characteristics and blade design. Those were the reasons Lawn-Boy mowers nvariably did a superior job."

#### **Public Notice**

On February 22, 1994, Southwestern Beil Telephone Company ("Southwestern Bell" or "Company") filed an application with the Public Utility Commission of Texas ("Commission") to restructure the Company's Local Transport and Directory Transport categories of its Switched Access Service. This matter has been assigned to Docket No. 12784. The tariff sheets in Southwestern Bell's application, if approved, will bring the Company's intrastate Access Service Tariff into structural parity with the Company's interstate Tariff No. 73 for Local Transport. Southwestern Bell's companion interstate tariff became effective on January 1, 1994.

The transport rate elements provide for the transmission facilities between the cutomer's premises and the end office switch(es) where the customer's traffic is switched to originate or terminate the customer's communications

Southwestern Bell proposes to implement the revised tariffs on a revenue neutral basis. Although the proposed tariff changes will affect all customers subscribing to Switched Access Service, the Local Transport and Directory Transport categories of Southwestern
