the play from the Bulldog's 35.

Allen and Bean went to work again, but he wasn't stopped until he had now in the third quarter, from the Figers eight. Allen handed off to Bean, who picked up four more yards,. where who was hit in the backfield by Tiger the ball again went to Bean who took Justin Hyndman who also managed to tinto the Tiger's end zone for another to the Tigers, at the Bulldog's 49. Quarterback for the Centerville Tikick by Allen was good. The Bulldog's were now ahead for gers, David Jackson handed-off to Joe the first time in the night with the Brent who managed to pick up 26 score being 21-18. Bulldog's, yards for the Tigers, bringing the play to the Bulldog's 25 yard line. quickly shut the Tiger's down on their next possession, and forced them to

Jackson to Brent, who brought it in to the Bulldog's five and fumbled where The Bulldog's took possession in mid-field and fumbled on their first John Von Essen wound up with the ball for the Bulldog's, but there was a play, this time it was to their advantage, as it threw the Tiger defense off flag down on the play, back at the 20. A Face-mask penalty was called against the Bulldogs giving the ball brought the ball to the Tiger's 27. Soon we saw Allen take to the air. He fifteen yards in, to the five yard line. completed a pass to Herman Allen and On the next play Brent piled over a picked up a first down. Then he went to Douglas for another first down, at heap of offensive blockers and defen-

sive players, to put the Tigers on the board for six points, with ten seconds A quick hand-off to Bean brought left in the quarter.
Cody Widner broke up the Tigers attempt to convert, which proved to be play to the four, where Bean then hopped over the defensive line for another Bulldog TD, with 6:41 left in one of the most important plays in the game. The kick for the extra point was no good.

With six minutes left to go, almost field position after the kick-off, and were forced to punt a few quick plays

dog Herman Allen to catch it at the Again Engram took to the skies, this time with a pass to-David Jackson, game was over, and the Bulldog's had who was taken down by Douglas at rallied to win this cliff-hanger of out to arch for the pounce. Engram pitched back to Kornegay who broke through to the I, where he was stopped by Herman Allen, He then tried a sneak, but was stopped

with inches to go. with inches to go.
On the next play, Joe Brent brought it in for a touchdown, making the Fumbles/Lost 3/1 8/50

score 27-24 Bulldogs, with 4:09 left in fast pace and a thrill a minute for the fans who had come out on both sides of the field. In the final seconds of

line, in Friday night's Homecoming tilt. Two plays later Bulldog Running Back Gregory Bean ran the ball in to the endzone for a touchdow most did. The Tigers were having a the Bulldog's executed a tremendous

ingram completed a 32-yard bomb to

On fourth down with one second lef in the game, from the Bulldog's six, ball floated for what seemed to be an eternity, but ended up incomplete. Th

have found the secret to growing big sweet potatoes. Last week, the couple picked seven five-gallon buckets and came up with some big ones. Mrs. Williford is holed two large ones, weighing 5.02 and 2.73 pounds while Mr. Williford holds a bunch that came out of the ground together, including one which fell off shortly after being harvested. (Photo by Greg Peak)

I DON'T HAVE TO ADVERTISE He's Right! There's NO Reason To Advertise, If...

1- His customers aren't interested in reading about new products, services and prices. They're easily satisfied:

2- He has no competition, and is unafraid of new competition coming against him.

3- The local economy is so good, that it's a cinch to make a barrel of money by continuing to do the same old thing.

4- He already nets a million a year(after taxes) 5- He likes his present inventory so much that he doesn't want to disturb it.

6- He doesn't want to work to hard, or to hire extra people to help. 7- The growth factor is at point zero.

.....but he should ADVERTISE if and when, any of the above aren't true!

And Here's How to START---

Call this newspaper, and ask our advertising department to provide you with information you need to know about the market....and about the advertising program that will do you the most good.

ADVERTISE In The Medium That Can PROVE It's Returns! THE NEWSPAPER

ness of his surroundings and makes adjustments to accommodate change while keeping the environment and the future as foremost considerations.

A good forester is always working toward a healthy forest.

er jaran tara kalan kenggi hidili kaja bila kiran permananan andara karan kenggi karan kalan karan karan bila

Victor Hamilton ... is a good forester. He works for Louisiana-Pacific's Tree Enterprise program in Tyler County. Vic began his forestry career with Kirby Lumber Co. in 1968 as an assistant forester in Kirbyville and came to Woodville in 1989. Vic is currently working with 93 Tyler County landowners who have over 19,000 acres under intensive forest management.

Louisiana Pacific's Tree Enterprise program was developed to provide private landowners, just like those here in Tyler County, the professional help needed to profitably grow a commercial tree crop. Vic's expertise in evaluating the forest's potential and developing a customized plan for each landowner makes him a leader in his field. He always keeps the financial goals and the aesthetics of the landowner's forest in balance. Vic cares about the land ... setting the standard when it comes to professional timber management.

Louisiana-Pacific became a Tyler County landowner back in the summer of 1986 when we purchased 62,000 acres formerly owned by International Paper Co. Our ties to this area increased with the 1987 Kirby Forest merger.

We believe there is a lot of potential in both people and resources in Tyler County. We are especially proud of our 10,000 acre fee hunt area which provides outstanding hunting for individuals to enjoy at reasonable rates --- and it's all supervised by our own game warden. And our Dogwood Trail, located just east of Woodville, gives people from all over the world a beautiful and peaceful place to enjoy our natural environment.

With the opening of our woodyard in Doucette, we've grown to become a major contributor to the economic development of the Tyler County area. In fact, during 1993, we put approximately \$15,000,000.00 into the economy of Tyler County through our fee hunt recreational facilities,

taxes, purchases of land and tim- in Teneha. Vikki Lynn lives at home ber, supplies, salaries and ser- and is studying nursing at Lamar vices. Our office and woodyard University. Juanita is the secreare staffed by people who work hard helping Tyler County grow and prosper.

We're here for the long haul because we care about you and Tyler County. That's why we have thor-

oughly trained professionals like Vic Hamilton. Vic is originally from Amarillo and graduated from Stephen F. Austin State University in 1966 receiving a Bachelor of Forestry degree with a minor in business management. Since that time Vic has extended his education with various graduate seminars and courses including The Institute of Business Economics and Management at the University of Southern California.

Vic and his wife, Juanita, have three children. Stephen, married, lives in Livingston and works at the Terrill Unit of TDC. Jeffrey, married, teaches school

tary of Central Baptist Church in Kirbyville.

Vic and Juanita attend and are both Sunday school teachers at Central Baptist Church. Vic serves on the church finance committee. He is also active in civic groups and is a Kirbyville volunteer fireman and a Jasper County reserve police officer. Prior to coming to Woodville, Vic served on the Kirbyville City Council and as city mayor. In addition to his two granddaughters and his children, Vic enjoys hunting, flying model airplanes and life in Tyler County. Vic and L-P are dedicated

to helping Tyler County be a better place to work and live. We work hard as a team to protect the environment and keep Tyler County a good clean place to raise your family. So now when you think of good foresters ... think of Vic Hamilton ... he's

IMPORTANT NOTICE OF PROPOSED SETTLEMENT OF

CLASS ACTION AND FAIRNESS HEARING

IN THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN

DISTRICT OF ALABAMA SOUTHERN DIVISION

Russell Price, et al vs. Ciba-Geigy Corporation

NO. 94-0647-CB-S

U.S. WORKERS WITH ON-THE-JOB

EXPOSURE TO GALECRON®

and Their Spouses, Children, Other Relatives and Legal Representatives:

BALECRONO WAS A COMMERCIAL AGRICULTURAL PESTICIDE WHICH WAS

MARKETED IN THE U.S. BY CIBA-GEIGY CORPORATION. IT WAS NOT

MARKETED FOR RESIDENTIAL OR HOME GARDENING USE.

U.S. WORKERS WITH ON-THE-JOB EXPOSURE TO

GALECRON® MAY BE ELIGIBLE FOR FREE MEDICAL MONITORING

AND/OR CASH PAYMENTS UNDER A PROPOSED LEGAL SETTLEMENT.

IMPORTANT MEDICAL NOTICE

To Plant Workers, Formulators, Applicators and Other Covered Workers (as defined above):

You may have an increased risk of developing blade

cancer if you had on-the-job exposure to Galecron®. Work-

ers exposed to Galecron® should participate in a medical monitoring program because early detection of bladder can-

cer can result in more effective treatment. As part of the Settle-ment, Ciba-Geigy has agreed to establish a medical monitor-ing program for the detection of bladder cancer for those in-dividuals who do not exclude themselves from the lawsuit.

thin six months, this program should be available free o

If you had on-the-job exposure to Galecron , it is rec

mmended that you or your doctor call 1-800-565-3126 to

On February 8, 1994, a class action lawsuit was file

against defendant, Ciba-Geigy Corporation ("Ciba-Geigy"), in Alabama State Court, which lawsuit was later removed to the

United States District Court for the Southern District of Alabama. The Complaint, as amended, alleges that the Settlement Class as

defined above is entitled to damages for medical monitoring and other compensation as a result of Exposed Persons' exposure to

legations of the Complaint, and asserting affirmative legal de-fenses. The Court has decided that the case can proceed as a

class action for purposes of settlement only. This does not mean that the Class Representatives would have been successful had the case gone to trial. The Court has made no such determina-

tion, and the proposed Settlement is not to be construed as an

expression of any opinion by the Court as to the merits of any of the claims asserted against Ciba-Geigy.

A Settlement has been entered into between the Class

to provide medical benefits and compensation to Exposed Persons or their legal representatives.

(1) The Medical Monitoring and Treatment Fund

("The MMT Fund"). If the Settlement is approved, Ciba-Geigy
will make an initial deposit of \$5,000,000 into the MMT Fund,

and will thereafter make additional deposits on an as-needed basis. There is no limit to the amount of money Ciba-Geigy can

The MMT Fund will pay for a medical monitoring program designed to detect at an early stage the form of bladder cancer alleged to be associated with Galecron®: specifically, primary urothelial carcinoma of the urinary collecting system, i.e., renal pelvis, ureter, bladder and urethra. The MMT Fund design with the first form of the medical care and the second control of the contr

e required to contribute over the life of this Fund.

PROPOSED SETTLEMENT

Ciba-Geigy has filed an Answer denying all essential al-

roll in the medical monitoring program.

BRIEF SUMMARY OF LITIGATION

You may belong to a class of people covered by a pro-

pooled settlement of a legal action ("Settlement"), and you may be entitled to receive the benefits of the Settlement. This

listribus, the heatfits of the proposed Settlement, and your le-tal rights. All Settlement Class members who do not timely

FOR MORE INFORMATION CALL 1-800-565-3126

em District of Alahama, a class action has been conditionally

perified for settlement purposes on behalf of Settlement Class Members (as defined below) who may now or later have claims

Against Cibi Geigh Corporation arising out of work-related exposure to Gallecrose. On January 30, 1995, a fairness bearing will be held at the Courthouse, United States District Court,

hama, 36602, at 9:00 a.m. Central Time, so the Court can dete

LEGAL NOTICE
In compliance with Chapter 182, Settlom
182,905 Local Government Code, there will
be a Public Hearing on Friday, Septamber
23, 1994 at 11:00 a.m. in the District Courtroom, 2nd floor of the Tyter County Courthouse, Woodville, Texas, with regard to setting the annual compensation and other
allowances (FY 1995) of the County Auditor, Assistant County Auditor and Court
Reporters. Such compensation and allowances shall be set by the District Judges of
the 1-A and 88th Districts. 37-2b

Ask us about it!

615 North Magnolla Street in Westville, Texts.
Schled bids, plainly marked "USED SCHOOL BUS BID", must be received by Tommy Wester, Assistant Separatement, 565 North Chariton, Woodville, Texas 75979, by 2:00 P.M., Monday, October 17, 1994. Bid packets may be picked up at the Woodville I.S.D. administration office at 505 North Chariton Street.

The district reserves the right to accept ar reject any or all bids.

38-25 cer, which amount will decrease with age to a minimum of \$17,500 if the Exposed Person is 85 years or older. An Exposed Person may collect separately for (a), (b) and (c) above, so that he maximum payment to an Exposed Person is \$410,000. The sh payments described above will be reduced by 12.5% if the Exposed Person had smoked in the five years prior to diagnosis. A separate 12.5% reduction will be made if he or she had failed to participate in the health screening program in each of the ti years prior to diagnosis (or in each year that the program was available, if less than three years). The DCA Fund also will pay \$1,000 to any Exposed Person who was diagnosed with hemor-rhagic cystitis within three months following exposure (this is a one-time payment regardless of the number of manifestations). In addition, the DCA Fund will pay for administrative costs, and unsel's attorneys' fees, costs and expenses as deter by the Court. All cash payments from the DCA Fund are paid only on account of a compensable claim of an Exposed Person, i.e., an eligible Plant Worker, Formulator, Applicator or Other

Covered Worker, as defined in this Notice. Cash payments to a spouse, parent, child or other relative will only be made if they are the legal representative of an Exposed Person. The benefits of the DCA Fund will continue as long as the MMT Fund continues, or until the DCA Fund is exhausted as set forth below. Ciba-Geigy has agreed to pay up to a maximum of \$45,000,000 for the benefits afforded by that Fund. If the DCA Fund is exhausted, Ciba-Geigy may continue paying for ettlement Class Members will be able to opt-out of the DCA may have, except for claims for medical monitoring, medical treatment, fear of illness or cancer, or increased risk of lilness or

ncer, because medical monitoring and treatment will con-(3) Other Conditions. The Stipulation of Settlement presently provides for medical monitoring, treatment and com-pensation payments for certain medical conditions set forth in this Notice. In the event, however, that a Court approved Epidemiology Panel determines to a reasonable medical certainty that any other medical condition is caused by Gales that condition will be deemed a compensable claim, and will be eligible for medical monitoring (if feasible); medical treatment; and cash payments. The cash payments will not exceed the maxi-mum amounts payable for the covered medical conditions set

(4) Administrator. A nationally recognized entity or entities with substantial investment and medical claims admin-istration experience will be appointed by the Court to administer Settlement Class Member is eligible for benefits under the settle ment. Any disputes concerning a Settlement Class Member's ment to benefits will be resolved by a Medical Advisor Panel or by a single arbitrator, depending upon the issue in dis-pute. The decision of the Medical Advisory Panel or arbitrator each have the effect of an arbitration decision and shall be bind-

on O, including all claims alleging that any other can

and have any questions regarding any of the benefits set forth above, you are urged to call 1-800-565-3126 for further in-

Representatives, Class Counsel and Ciba-Geigy, which will re-solve all past present and future claims against Ciba-Geigy aris-ing out of Exposed Persons' exposure to Galecron®. The Settle-ment provides for the establishment by Ciba-Geigy of two funds

CLASS COUNSEL.

The Court has designated the following Settlement Class Members, Russell W. Price, Leslie E. Hoven, Grady W. Brown, Jennie Ropp Brown, Jack Harley Woodward, Alta Woodward, Joe H. Bowman and Martha Annie Bowman, as class representations. tatives to represent all Scattement Class Members. The Court has also designated as Class Council the following individuals: Timothy E. Eble; J. Cecil Gardner, Joseph J. McKernan; S.C. Middlebrooks III; Charles W. Patrick; Jr.; and Patrick W. Pendley. The Class Representatives and Class Counsel believe that the proposed Seulement is fair, reasonable and adequate. Class Representatives and Class Counsel have enamed into the pro-book Schlement after weighing the substantial benefits against he probabilities of success or failure, and the long delays that

ould be likely if the case proceeded to trial. sel will request a percentage fee award not to exceed 20% of the benefit conferred on the class, half of which will be requested to

also will pay for all medically necessary treatment not paid for by Medicare or Medicaid if the Exposed Person has been or in the future is diagnosed with such bladder cancer. The MMT Pand will pay for medical monitoring to Exposed Persons for a period of 20 years, and will pay for medical treatment until one full year passes with no claims for treatment eing filed but in no event less than 20 years. Ciba-Geigy will have no obligation to continue the medical monitoring and treat-ment program if the Settlement is not approved. Only Exposed Persons, i.e., eligible Plant Workers, Formulators, Applicators and Other Covered Workers, as defined in this Notice, will be centitled to medical monitoring and treatment.

(2) The Discuss Compensation and Administration
Fund ("The DCA Fund"). If the Settlement is approved, CibaGeigy will also make an initial deposit of \$30,000,000 into the

DCA Fund. In addition to medical treatment paid for by the MMT Fund, the DCA Fund will make cash payments of up to ration of Environmental Parification Advancement, Inc. disposal stee located stee Bayou Sorrel, Loui-Main, at Bayou, Inc. in Door Park, Texas, or in a 1410,000, as set forth in more detail below, on behalf of an Ex 5410,000, as set forth in more detail below, on behalf of an Exposed Person who, after exposure to Galecron®, has developed or in the future develope the form of bladder cancer alleged to be associated with Galecron®: specifically, primary urothelial carcinoma of the urinary collecting system, i.e., renal pelvis, ureter, bladder and urethra. Cash payments will vary depending upon the Exposed Person's age, smoking status and participation in the health acreening program. For Exposed Persons who are non-smokers and participants in the health acreening program, the cash payments will be as follows: (a) \$10,000 in the event of urestment involving an invasitive procedure (this is a one-time payment regardless of the number of procedures); (b) up to (2) This reason, mean, children or other relatives of the Expoint Person described shows.

(Collectedy Thirdman Child Members'). Note: If you
are an Expected Person, you are it Sentenant Clair Member
makes as you have been dispensed with in Illner. Spouses,
passed, the third of other which has been sent Const Membert by the later than they are benefit as Bushed to think artising payment regardless of the number of procedures); (b) up to \$150,000 in the event of a radical cystectomy (bladder removal) with diversion of the urinery tract, which amount will decrease with a person's age to a minimum of \$10,000 if the Exposed Person is 85 years or older; and (c) up to \$250,000 in the event

ing upon all parties, including the Settlement Class Member.
(5) Release. Settlement Class Members who do not exclude themselves from the Class release all past, present and future claims: (i) relating to the covered medical conditions listed above; and (ii) relating to an Exposed Person's exposure to personal injuries or risks are caused by exposure to Galecron® This means that claims that Galecton® exposure to Unicetonor. This means that claims that Galecton® exposure caused any condition other than those medical conditions listed above will be released, but will receive no compensation or treatment, unless the Court approved Epidemiology Panel finds that such other condition is caused by Galecton® exposure. The release is effective as against Ciba-Geigy and certain additional releasees as defined in the Stipulation of Settlement, including Ciba-Geigy, Ltd., the parent of Ciba-Geigy.

If you believe you are a member of the Settlement Class

CLASS REPRESENTATIVES AND

There has been no agreement between the parties regarding attorneys' fees. At the fairness hearing, Class Counsel will request the Court to award attorneys' fees and reimbursement of costs and expenses, to be paid from the DCA Fund. Class coun-

be paid over a 4-year period while legal work continues. VI. RIGHTS AND OPTIONS OF SETTLEMENT CLASS MEMBERS
If you are a Settlement Class Member, you have the fol-

The Proof of Claim is designed so that you may complete

AUSTIN—Safe driving during the bolidays includes avoiding alcohol and drugs, using seat belts as required by law, and being especially aware of sed traffic and possible weatherrelated hazards. According to health officials, safe

driving also includes knowing the limits of one's own driving skills and using caution against other driver's possible impairments.

Carla Baker, at the Texas Department of Health (TDH), explained that increasingly more traffic injuries and eaths involve drivers impaired by the effects of aging.
"Statistics from the U.S.. Transpor-

ation Research Board show that the likelihood of a serious auto accident increases among 55 and older drivers. As an age group, those 55 and older are involved in more traffic accidents. many of which are deadly, than any other adultage group except the youngest (age 15-25)," Baker said. Baker, who coordinates older driver education for the TDH Public Health Promotion Division, said that the increased risk of auto mishaps among older drivers stems from several fac-

"Federal studies indicate that aging processes cause changes in the individual's sensory, physical and intellectual skills required for safe driv-ing," she said. "Since those changes usually are gradual, an older driver may not notice them. Also, the age when potential impairments begin varies from one to another." According to Baker measurable deficiencies may begin as early as age 55. Between 55 and 75, a driver's skills may decline rapidly and be further hampered by vision problems, arthritis, chronic diseases or medica-

Also, an older person's ability to survive and recover from severe injury is less than that of a younger

re you Suffering from Trichotillomania?

HOUSTON-Ever feel like pulling your hair out? Those suffering from trichotillomania do, one hair at a time. Trichotillomania is the irresistible impulse to pull ~ -'s own hair. The bizarre disorder affects millions of Americans and the majority appear to be women, says a psychiatrist at Baylor

College of Medicine in Houston.

"It is difficult for us to know exactly how many people suffer from trichotillomania because victims are so secretive," said Dr. Suzan Streichenwein, an assistant professor of psychiatry at Baylor and chief of the Mental Hygiene Clinic at the Houston Veterans Affairs M. Center (VAMC). "Most men w soot discuss the disorder, whereas more women may open up and tell their doctors about the problem, which may be why we see a higher incidence among

Trichotillomania usually begins in

Estrogen replacement therapy may help women more than previously thought

HOUSTON-While researchers know estrogen replacement therapy (ERT) strengthens bones, a study at Baylor College of Medicine in Houston will determine if estrogen also makes a menopausal woman's heart

"We suspect estrogen strengthens the heart and improves its ability to pump blood," said Dr. Michael C. Snabes, the study's lead investigator.

"If this is true, it helps explain why menopausal women taking estrogen have less cardiovascular disease than those not taking the hormone. It may also explain why estrogen protects premenopausal women from the heart disease that afflicts their male peers, Snabes said.

Snabes, a senior reproductive endocrinology fellow in Baylor's department of obstetrics and gynecology, is teaming with investigators in The DeBakey Heart Center to learn bow estrogen affects the structure and function of a menopausal woman's heart. Menopausal women who are not taking estrogen begin the study with treadmill and ultrasound bicycle tests to

determine how their hearts function before, during and after exercise. The tests will be repeated after three months of ERT and after three months

without estrogen, Snabes said. "We know estrogen helps preventosteoporosis and helps keep the ratio of 'good' to 'bad' cholesterol favorable. We think estrogen may also directly benefit the heart, but no one has studied that question until now," Snabes said.

Co-investigators for the study, which should be completed by early 1993, include Dr. Ronald L. Young, associate professor of obstetrics and gynecology, Dr. J. Alan Herd, professor of medicine, and Dr. William A. Zoghbi, assistant professor of medicine and assistant director of the echocardiography laboratory of The Methodist Hospital in Houston.
The DeBakey Heart Center is a joint

program of Baylor College of Medi-cine and The Methodist Hospital in Houston supporting cardiovascular re-search, treatment and education.

Sleeping babies' bottle feeding can cause serious tooth decay

AUSTIN-The Texas Department of Health (TDH) Bureau of Dental Health Services warns parents that the practice of calming a baby for sleep by giving it a bottle of milk, formula or juice can cause serious harm to the infant's teeth.

Dr. Donald Crow, chief of the bureau, said that prolonged bottle feeding of babies with sugary liquids during sleep can lead to a condition called "baby bottle tooth decay." The condition is a leading cause of oral health problems among children youngerthan three, and often is the start of severe, life-long dental problems which can affect the patient's general health and

While about 60 percent of Texas children have some tooth decay, about

16 percent is caused by baby tooth decay, according to Dr. Crow.
Dr. Crow explained that when children feed from bottles while they are awake, saliva helps to wash away concentrations of success and end the Conference of the C centrations of sugar and acid that can damage teeth.

However, while alceping, a baby sa-liva flow is greatly reduced.

childhood and can continue through-out a lifetime. Young children will pull out their evebrows or evelashes while adults pull hair from the scalp and pubic areas.

"Kidsdonothave the resources adults do to hide the condition such as buying an eyebrow pencil or a wig and

Patients carefully examine the hair's texture, color, and condition before deciding which one to pull.

The urge to pull, ranging from a short period of time to all day, can be brought on by stress, caffeine, sugar, chocolate or pre-menstrual syndrome.

tension before pulling and a sense of relief and gratification after pulling, "Trichotillomania is though to be a

neuro-chemical imbalance and can be regulated with certain medications." said Streichenwien.

Streichenwein also suggests, in attdition to medication, that a high protein diet and behavior modification

dermatologists, gynecologists or clergy members.

Once the secret of trichotillomania is revealed, more patients can be relieved of their terrible emotional pain and suffering," said Streichenwein.

There is usually an increased sense of socially.' withdraw

Children's Nutrition Research Center calcium forms bones in relationship to (CNRC) in Houston suspects age, the onset of puberty, diet and osteoporosis, a crippling bone disease,

may begin in childhood.
"Most of an adult's skeleton is built and enlarged during adolescence. Being shortchanged on calcium at this stage of life could be especially damaging," said Dr. Steve Abrams, assistant professor of pediatrics at Baylor College of Medicine.

Little is known about how growing children absorb calcium from foods and deposit it into healthy bones. Previous studies were performed more than 40 years ago and do not represent growth or dietary patterns of American children today.

Abrams is working on a study that will help fill this "calcium gap" by measuring calcium absorption and skeletal formation of young girls. Girls were chosen for the study because women are more susceptible to bone loss in later years.

The study will follow 50 white and 50 black volunteers between the ages

Abrams will look at the amount of calcium absorbed from the diet, how it

Current Recommended Daily Allowances (RDAs) of calcium range from 800 milligrams for children ages 1-10 and 1,200 milligrams for children

skeletal needs of all children. Abrams believes that many children

do not receive enough calcium. He also expects to find a significant difference in calcium distribution and bone density among ethnic groups.

eleven and older. Abrams suspects Caucasians appear to be at higher risk the RDA may not be adequate for the for developing osteoporosis than affects an estimated 20 million American blacks.

HOUSTON—Parents eager to start levels of nitrogen, a building block of postpone the porridge for the time being. A researcher at the Children's Nutri-

tion Research Center in Houston suspects that introducing solids into the diets of infants to soon could rob them of important minerals. "We know that infants can digest

cereal relatively well as early as one month. However, the extra protein and calories contained in the cereal are lost in the stool," said Dr. Robert Shulman, associate professor of pediatrics at Baylor College of Medicine. Shulman has also found that the stool of cereal-fed infants contains increased

their infant on solids may want to protein. "I want to know where this nitrogen is coming from," he said. Shulman suspects that the nitrogen

in the stool is caused by either diet or nitrogen-containing cells that line the "Is the nitrogen coming from improperly digested formula and cereal or does the cereal cause the intestinal

cells to slough off at a more rapid rate than normal? To find the answer, Shulman will follow the diets of male infants at the center's Metabolic Research Unit. He believes the answer will help scientists understand how the introduction

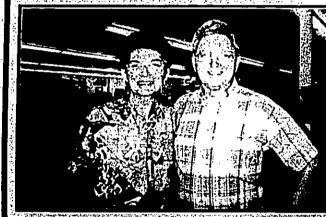

of cereal affects digestion.

"This information may help us de- ents to avoid the temptation to introtermine the most nutritionally benefi- duce cereal to their infant's diets becial time to introduce cereals into an infant's diet, learn more about the gainmore weight, they prefer the concomponents of nutrients and, in the future, allow pediatricians to design diets where nutrients complement rather than inhibit each other," he said. In the meantime, he encourages par-

cause they think their infant needs to venience and availability of baby foods, or they mistakenly believe that added solids help an infant sleep through the night.

If parents have questions, they should consult their pediatrician, he said.

Forestry museum honored

LUFKIN - The Texas Forestry Museum has been honored as the recipient of the prestigious Texas Historical Commission's Award of Excellence in Preserving History. Only one of three awards given in the state, the commendation cited the museum's East Texas Sawmill Data Base Project as the awarded project in preserving a

historical legacy.

Through the efforts of Museum Director Carol Riggs and National Forests and Grasslands in Texas Archaeologist John Ippolito, the project began in earnest in the spring of 1993. Funding from a U.S. Forest Service cost-share agreement allowed museum esearchers to identify and collect basic information bont sawmills and sawmill towns in East Texas for inclusion into a computer data base. The study began looking at those mills from 1880 to the present in the 38 counties known as the "Pincywoods' of East Texas. At present, more than 2,250 mills have been entered into the data base, and more than 6,000 mills will be inventoried by the end of the project. In discussing the project and the award, Riggs saluted Ippolito, saying, John took an interest in the project from the start. His dedication and en

nor received the high honors we did if it weren't for John's efforts." Riggs added, "It's unusual for a museum of our size to be doing high quality research of this magnitude. We're preserving Texas history through this project, and being hon-ored for our effort makes it all that

husiasm helped us pursue the project.

We could not have started the project

much more rewarding." ppolito praised the museum staff saying, "The museum has made a strong commitment to showcasing our heritage. This is but one example of their good work. In addition to the museum, the sawmill project will pro-

Requirements listed for SSI applications

BIG SWEET POTATOES - Mr. and Mrs. C.D. Williford of Woodville have found the secret to growing big sweet potatoes. Last week, the couple picked seven five-gallon buckets and came up with some big ones. Mrs. Williford is holed two large ones, weighing 5.02 and 2.73 pounds while Mr. Williford holds a bunch that came out of the ground together, including one which fell off shortly after being harvested. (Photo by Greg Peak)

DON'T HAVE TO ADVERTISE He's Right! There's NO Reason To Advertise, If...

1- His customers aren't interested in reading about new products, services and prices. They're easily

2- He has no competition, and is unafraid of new competition coming against him.

3- The local economy is so good, that It's a cinch to make a barrel of money by continuing to do the same old thing. 4- He already nets a million a year(after taxes)

5- He likes his present inventory so much that he doesn't want to disturb it. 6- He doesn't want to work to hard, or to hire extra people to help.

- The growth factor is at point zero.

.....but he should ADVERTISE if and when, any of the above aren't true!

And Here's How to START----

Cali this newspaper, and ask our advertising department to provide you with information you need to know about the market and about the advertising program that will do you the most good.

ADVERTISE In The Medium That Can PROVE It's Returns! THE NEWSPAPER

Prepared by Texas Newspaper Advertising Bureau(TNAB) (An Affiliate of The Texas Press Association)

283-2516.

A good forester is ever conscious of protecting nature's bounties ... such as soil and water quality.

A good forester practices environmentally sound forest management for wildlife enhancement.

A good forester has an acute awareness of his surroundings and makes adjustments to accommodate change while keeping the environment and the future as foremost considerations.

A good forester is always working toward a healthy forest.

Victor Hamilton ... is a good forester. He works for Louisiana-Pacific's Tree Enterprise program in Tyler County. Vic chased 62,000 acres formerly began his forestry career with Kirby Lumber Co. In 1968 as an assistant forester in Kirbyville and came to Woodville in 1989. Vic is currently working with 93 Tyler County landowners who have over 19,000 acres under intensive forest management.

oped to provide private landowners, just like those here in Tyler County, the professional help needed to profitably grow a commercial tree crop. Vic's expertise in evaluating the forest's potential and developing a customized plan for each landowner makes him a leader in his field. He always keeps the financial goals and the aesthetics of the landowner's forest in balance. Vic cares about the land ... setting the standard when it comes to professional timber management.

a Tyler County landowner back in ber, supplies, salaries and ser- and is studying nursing at Lamar the summer of 1986 when we pur-vices. Our office and woodyard owned by International Paper Co. Our ties to this area increased with the 1987 Kirby Forest merger

We believe there is a lot of potential in both people and resources in Tyler County. We are especially proud of our 10,000 acre fee hunt area which provides out-Louisiana Pacific's Tree standing hunting for individuals to it's all supervised by our own game warden. And our Dogwood Trail, located just east of Woodville, gives people from all over the world a beautiful and peaceful place to enjoy our natural environment.

With the opening of our woodyard in Doucette, we've grown to become a major contributor to the economic development of the Tyler County area. In fact, during 1993, we put approximately \$15,000,000.00 into the economy of Tyler County through our fee hunt recreational facilities,

Louisiana-Pacific became taxes, purchases of land and tim-in Teneha. Vikki Lynn lives at home are staffed by people who work tary of Central Baptist Church in hard helping Tyler County grow Kirbyville.

because we care about you and

Tyler County.

That's why we have thoroughly trained professionals like Vic Hamilton. Vic is originally from Amarillo and graduated Enterprise program was devel-enjoy at reasonable rates — and from Stephen F. Austin State Uni-ing to Woodville, Vic served on versity in 1966 receiving a Bachelor of Forestry degree with a minor in business management. Since that time Vic has extended his education with various graduate seminars and courses including The Institute of Business Economics and Management at the University

of Southern California. Vic and his wife, Juanita, have three children. Stephen, married, lives in Livingston and works at the Terrill Unit of TDC. Jeffrey, married, teaches school

University. Juanita is the secre-

Vic and Juanita attend and

We're here for the long haul are both Sunday school teachers at Central Baptist Church, Vic serves on the church finance committee. He is also active in civic groups and is a Kirbyville volunteer fireman and a Jasper County reserve police officer. Prior to comthe Kirbyville City Council and as city mayor. In addition to his two granddaughters and his children, Vic enjoys hunting, flying model airplanes and life in Tyler County. Vic and L-P are dedicated

> to helping Tyler County be a better place to work and live. We work hard as a team to protect the environment and keep Tyler County a good clean place to raise your family. So now when you think of good foresters ... think of Vic Hamilton ... he's your neighbor.

overed Workers (as defined above):

To Plant Workers, Formulators, Applicators and Other

You may have an increased risk of developing bladder cancer if you had on-the-job exposure to Galecron®. Work-

ers exposed to Galecron® should participate in a medical

Ciba-Geigy has filed an Answer denying all essential alegations of the Complaint, and asserting affirmative legal de enses. The Court has decided that the case can proceed as a class action for purposes of settlement only. This does not mea that the Class Representatives would have been successful had the case gone to trial. The Court has made no such determination, and the proposed Settlement is not to be construed as an expression of any opinion by the Court as to the ments of any of he claims asserted against Ciba-Geigy.

PROPOSED SETTLEMENT

A Settlement has been entered into between the Class Representatives, Class Counsel and Ciba-Geigy, which will resolve all past, present and future claims against Ciba-Geigy arising out of Exposed Persons' exposure to Galecron®. The Settlement provides for the establishment by Ciba-Geigy of two funds ovide medical benefits and compensation to Exposed Per

sons or their legal representatives. The Medical Monitoring and Treatment Fund ("The MMT Fund"). If the Settlement is approved, Ciba-Geig will make an initial deposit of \$5,000,000 into the MMT Fund I-will therasiter make additional denosits on an as-neederequired to contribute over the life of this Fund.

basis. There is no limit to the amount of money Ciba-Geigy can The MMT Fund will pay for a medical monitoring pro gram designed to detect at an early stage the form of bladde cancer alleged to be associated with Galecron®: specifically primary prothelial carcinoma of the primary collecting system ., renal pelvis, ureter, bladder and urethra. The MMT Fund also will pay for all medically necessary treatment not paid for by Medicare or Medicaid if the Exposed Person has been or in

he future is diagnosed with such bladder cancer. The MMT Fund will pay for medical monitoring to Exposed Persons for a period of 20 years, and will pay for medical reatment until one full year passes with no claims for treatment have no obligation to continue the medical monitoring and treat ment program if the Settlement is not approved. Only Exposed Persons, i.e., eligible Plant Workers, Formulators, Applicators and Other Covered Workers, as defined in this Notice, will be

entitled to medical monitoring and treatment.

(2) The Disease Compensation and Administration Fund ("The DCA Fund"), If the Settlement is approved, Ciba Beigy will also make an initial deposit of \$30,000,000 into the DCA Fund. In addition to medical treatment paid for by the MMT Pund, the DCA Fund will make cash payments of up to \$410,000, as set forth in more detail below, on behalf of an Exposed Person who, after exposure to Galecron®, has developed or in the future develops the form of bladder cancer alleged to be ed with Galecron®: specifically, primary prot cinoma of the urinary collecting system, i.e., renal pelvis, ureter, bladder and urethra. Cash payments will vary depending upon he Exposed Person's age, smoking status and particip the health screening program. For Exposed Persons who are non-smokers and participants in the health screening program, the cash payments will be as follows: (a) \$10,000 in the event of nt involving an invasive procedure (this is a one-tipayment regardless of the number of procedures); (b) up to \$150,000 in the event of a radical cystoctomy (bladder removal) with diversion of the urinary tract, which amount will decrease with a person's age to a minimum of \$10,000 if the Exposed Person is 85 years or older; and (c) up to \$250,000 in the even an Exposed Person's death is found to be caused by bladder can

the maximum payment to an Exposed Person is \$410,000. The Exposed Person had smoked in the five years prior to disensely A separate 12.5% reduction will be made if he or she had falled years prior to diagnosis (or in each year that the program was \$1,000 to any Exposed Person who was diagnosed with hemor rhagic cystitis within three months following exposure (this is a one-time payment regardless of the number of manifestations) in addition, the DCA Fund will pay for administrative costs, and by the Court. All cash payments from the DCA Fund are paid only on account of a compensable claim of an Exposed Person, i.e., an eligible Plant Worker, Formulator, Applicator or Other Covered Worker, as defined in this Notice. Cash payments to a use, parent, child or other relative will only be made if they are the legal representative of an Exposed Person.

The benefits of the DCA Fund will continue as long as the MMT Fund continues, or until the DCA Fund is exhausted as set forth below. Ciba-Geigy has agreed to pay up to a maximum of \$45,000,000 for the benefits afforded by that Fund. If the DCA Fund is exhausted, Ciba-Geigy may continue paying fo compensable claims. If Ciba-Geigy does not continu Settlement Class Members will be able to opt-out of the DCA Fund and will regain their right to pursue any legal claims they may have, except for claims for medical mon treatment, fear of illness or cancer, or increased risk of illness or

(3) Other Conditions. The Stipulation of Settlement presently provides for medical monitoring, treatment and com-pensation payments for certain medical conditions set forth in his Notice. In the event, however, that a Court approved Epidemiology Panel determines to a reasonable medical certainty tha any other medical condition is caused by Galecron® exposure that condition will be deemed a compensable claim, and will be eligible for medical monitoring (if feasible); medical treatment; and cash payments. The cash payments will not exceed the maximum amounts payable for the covered medical conditions set

(4) Administrator. A nationally recognized entity or entities with substantial investment and medical claims adminhe Settlement. The Administrator will determine whether a Settlement Class Member is eligible for benefits under the settlement. Any disputes concerning a Settlement Class Member's ment to benefits will be resolved by a Medical Adviso Panel or by a single arbitrator, depending upon the issue in dis-pute. The decision of the Medical Advisory Panel or arbitrator each have the effect of an arbitration decision and shall be binding upon all parties, including the Settlement Class Member.

(5) Release. Settlement Class Members who do not exclude themselves from the Class release all past, present and future claims: (i) relating to the covered medical conditions listed above; and (ii) relating to an Exposed Person's exposure to Galecron®, including all claims alleging that any other cancers personal injuries or risks are caused by exposure to Galecron® dition other than those medical conditions listed above will be released, but will receive no compensation or treatment, unless the Court approved Epidemiology Panel finds that such other condition is caused by Galecron® exposure. The release is effective as against Ciba-Geigy and certain additional releasees as defined in the Stipulation of Settlement, including Ciba-Geigy. Ltd., the parent of Ciba-Geigy.

If you believe you are a member of the Settlement Class, and have any questions regarding any of the benefits set forth above, you are urged to call 1-800-565-3126 for further in-

CLASS REPRESENTATIVES AND CLASS COUNSEL

The Court has designated the following Settlement Class ers, Russell W. Price, Leslie E. Hoven, Grady W. Brown, Jennie Roop Brown, Jack Harley Woodward, Alta Woodward, Joe H. Bowman and Martha Annie Bowman, as class representatives to represent all Settlement Class Members. The Court has also designated as Class Counsel the following individuals Timothy E. Eble; J. Cecil Gardner; Joseph J. McKernan; S.C. Middlehrooks III; Charles W. Patrick, Jr.; and Patrick W. Pendley. The Class Representatives and Class Counsel believe that the proposed Settlement is fair, reasonable and adequate. Class

Representatives and Class Counsel have entered into the pro-posed Settlement after weighing the substantial benefits against the probabilities of success or failure, and the long delays that would be likely if the case proceeded to trial. There has been no agreement between the parties regarding attorneys' fees. At the fairness hearing, Class Counsel will request the Court to award attorneys' fees and reimbursement of costs and expenses, to be paid from the DCA Fund. Class coun-

sel will request a percentage fee award not to exceed 20% of the benefit conferred on the class, half of which will be requested to be paid over a 4-year period while legal work continues. RIGHTS AND OPTIONS OF SETTLEMENT CLASS MEMBERS

If you are a Settlement Class Member, you have the fol-You may do nothing and remain a Settlement Class Member. If you choose to take no action, your interest as a member of the Settlement Class will be represented by the Class Representatives and Class Counsel, at no cost to you indi vidually. You will be bound by any judgment or final disposition of the litigation, and may participate in the benefits available as a member of the Settlement Class. It is important, however, to fill out the REQUEST FOR INFORMATION FORM in order to

learn how to receive benefits.
(2) You may remain a Settlement Class Member and eliber represent yourself or hire your own attorney to repreacut you at your own cost. You or your attorney must file an Entry of Appearance with the Clerk of the Court and send a copy Counsel and Ciba-Geigy, at the addresses set forth b low. Such Entry of Appearance must be filed by December 16.

(3) You may remain a Settlement Class Mamber and object to the Bettlement. Any Settlement Class Member who does not sleet exclusion from the Settlement Class and who objects to the proposed Settlement must mail such objections and any supporting papers to the Clerk of Court, at the address set forth below, on or before December 16, 1994. If the person fil-

1995 Fairness Hearing described above, be or she must file with Appear. Any Settlement Class Member who does not file object ions in the time and manner described above is forever fore ed from raising any objection to such matters. Any Settle nent Class Member whose objection is overruled will still be sound by any judgment or final disposition of the litigation ctions and Notices of Intent to Appear that are nailed to the Clerk of Court must also be mailed to Class Coun-Class Counsel Counsel for Ciba-Geigy Henry B. Aging can diminish safe driving

AUSTIN—Safe driving during the holidays includes avoiding alcohol and drugs, using scat belts as required by law, and being especially aware of increased traffic and possible weather related hazards.

According to health officials, safe driving also includes knowing the limits of one's own driving skills and using caution against other driver's Carla Baker, at the Texas Depart ment of Health (TDH), explained that increasingly more traffic injuries and deaths involve drivers impaired by the

effects of aging.
"Statistics from the U.S., Transportation Research Board show that the likelihood of a serious auto accident increases among 55 and older drivers. As an age group, those 55 and older are involved in more traffic accidents. many of which are deadly, than any other adult age group except the youngest (age 15-25)," Baker said. Baker, who coordinates older driver education for the TDH Public Health Promotion Division, said that the increased risk of auto mishaps among

older drivers stems from several fac "Federal studies indicate that aging processes cause changes in the ndividual's sensory, physical and mtellectual skills required for safe driving," she said. "Since those changes usually are gradual, an older drive may not notice them. Also, the age when potential impairments begin var ies from one to another." According to Baker measurable deficiencies may begin as early as age

skills may decline rapidly and be further hampered by vision problems, arthritis, chronic diseases or medica Also, an older person's ability to survive and recover from severe injury is less than that of a younger
