By Dottie Johnson

Lessons to be learned

Last year there was an incident at the (Tyler County) fair, where some boys filled a pig full of water till it died. It was overlooked and not questioned. Once the school leaders even stated that this is common practice, and okay by the FFA. I've done some looking into this from many points of view.

Breast cancer screening urged for Texas women. AUSTIN - Last year, 2,300 Texas women died from breast cancer. Yet this disease, detected early, can be stopped.

Medicare general enrollment period is now underway

LUFKIN - Most East Texans age 65 or over are enrolled in Medicare. Nationwide there are about 40 million persons covered under this Federal Health Insurance plan - a program which assists in the payment of hospital and medical expenses.

For most retired people past age 65 who did not enroll at age 65, or who dropped coverage, the GEP is the only means to become entitled. There are, however, special enrollment rules for workers over age 65 who are covered by an employer's health insurance plan.

"We all try to get the residents to do things they think they can no longer do. When a resident does this, their self-esteem goes sky high and quality of life for them is much improved. Three departments - Social, Therapy & Activity - working together, makes all the difference in the lives of each person here."
